

Winter 2024 TA Job Posting for ECON 496

Please give a brief description of the course content or a link to the course outline:

This course provides students with the methodological principles that underlie modern analyses of the macroeconomy, and to prepare students for graduate-level macroeconomic theory courses. The Winter 2024 version of ECON 496 will focus on the topic of price dispersion using models of markets with frictions.

Any necessary knowledge or skills needed:

Please fill out this chart as closely as you can for the TA duties and hours you predict the course will be using for the entire Winter 2024 term. This will be used as an estimation only. Graduate TAs are not permitted to work more than 140 hours for the term or more than 10 hours in any given week (70 hours or 5 hours a week for a ½ TA). When thinking of the duties you might have for your TA, we ask that you be mindful of this constraint and try not to come up against it. TAs own coursework comes first. Negotiations for a reasonable amount of time for returning marked assignments, etc. will occur as needed.

Duty	Estimated Hours for the Term or N/A	Brief description of unusual or especially time-consuming features of the duty, if any
Meetings with Course Instructor	N/A	
Class preparation	N/A	
Attending lectures	N/A	
Student consultation; office hours	14
