Course Description:

This course is designed to provide students with a solid command of intermediate macroeconomic theory as a tool for understanding how the Canadian economy behaves as a whole. Topics included for discussion are the theory of consumption, money demand and money supply model, aggregate demand model, aggregate supply model, debates over government debt, inflation, economic growth model, and open economy macroeconomics. Aside from learning theories, the course also provides students with analytical skills necessary to the analysis and interpretation of real-world macroeconomic issues.

Course Objectives: At the end of the course you should be able to:

- Understand the methods and approaches to macroeconomics.
- Understand the factors which determine aggregate output as well as income and expenditure in the long run and the determination of the real interest rate.
- Understand the long-run determinants of the price level and the inflation rate.
- Understand the long-run determinants of an economy's international trade balance and the level of net capital outflow.
- Use the Aggregate Demand/Aggregate Supply model to explain short-run fluctuations.
- Use the IS/LM model to study the impact of monetary and fiscal policies on the economy in the short run.
- Understand aggregate demand under both flexible and floating exchange rates.
- Understand the trade-off between inflation and unemployment in the short run.

Academic Integrity, Grievance, Discipline, Appeals, and Note for Students with Disabilities

Academic Integrity: in order to maintain a culture of academic integrity, members of the University of Waterloo community are expected to promote honesty, trust, fairness, respect and responsibility.

Grievance: A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4, <http://www.adm.uwaterloo.ca/infosec/Policies/policy70.htm>

Discipline: A student is expected to know what constitutes academic integrity, to avoid committing academic offenses, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offense, or who needs help in learning how to avoid offenses (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to Policy 71 - Student Discipline. <http://www.adm.uwaterloo.ca/infosec/Policies/policy71.htm>

Appeals: A student may appeal the finding and/or penalty in a decision made under Policy 70 - Student Petitions and Grievances (other than regarding a petition) or Policy 71 - Student Discipline if a ground for an appeal can be established. Read Policy 72 - Student Appeals, <http://www.adm.uwaterloo.ca/infosec/Policies/policy72.htm>

Note for students with disabilities: The Office for Persons with Disabilities (OPD), located in NH1132, collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the OPD at the beginning of each academic term.
