### Course philosophy

Entrepreneurship has long been acknowledged as critical to a prosperous society yet most individuals do not fully understand the term. This course seeks to awaken your creative mind and connect creativity to enterprise and subsequently to the lifestyle of entrepreneurship. Life is not a series of numbered dots waiting to be connected. The daring prefer a blank piece of paper and a dream.

### Course purpose

As engaged students willing to learn and invest:

- You will be invited to challenge yourself and your perceived career path by demanding more of yourself. The entrepreneurial lifestyle is the most demanding and can be the most satisfying.
- Innovation is introduced as the critical success in enterprise AND society. Are you up to the challenge of embracing creativity?
- The course exposes you to the critical soft skills of entrepreneurship- and of life- including leading and managing, negotiation, networking, branding yourself and ethics... and of great importance, learning how to work with other people.
- The course represents the Pandora's box of opportunity. A paradigm shift awaits some- others will confirm they are comfortable with comfort. Engagement in the course will assist.
- The course is more than entrepreneurship- by more I mean defining **you**.

### Course Objectives

If you are willing to invest in this course (and yourself) you:

- Will be able to identify key principles of strategy and their application to critical business decisions.
- Will be better able to analyse business situations and apply knowledge and logic to provide viable solutions.
- Will be able to incorporate some of the key themes of the course with broader life experiences.
- Can continue to develop the skills and competencies to contribute to the success of groups facing challenges.
- Will come to see yourselves as future stewards of highly principled businesses.
- Will excited about the potential of entrepreneurship as a future lifestyle.
