**Course Description**

This is an introductory course in economics for students to grasp basic microeconomic concepts essential for understanding contemporary issues pertinent to the Canadian economy. You will learn about, among other topics, basic economic concepts such as scarcity, opportunity cost, economic efficiency and the behavior of individual consumers and producers and how decisions are made based on the allocation of limited resources. We will examine how these decisions and behaviours affect the supply and demand for goods and services, which determine the prices we pay. And how prices we pay, in turn, determine the quantity of goods supplied by producers and the quantity of goods demanded by consumers. We will further study impact of government policies on formation and functioning of the market place, as well as a range of different market structures like perfect competition, monopoly, oligopoly and others.

## Course Goals and Learning Outcomes

The objectives of this course for students are:

- To understand the need for people to make choices and together work towards overcoming the universal problem of scarcity;
- To appreciate the relevance of economics in a dynamically changing world;
- To develop the capacity to routinely apply critical thinking to economic issues.

### Upon completion of this course, students should be able to:

- apply microeconomic theory to understand how consumers and producers make purposeful decisions;
- be familiar with different market structures, production and costs, and the government role;
- analyze conceptual economic problems and describe them in a simple language;
- break down problems into their economic parts and describe them.

## Midterms and Final Exam

The format for both midterms and the final exam will be **multiple-choice questions**.

- The midterm tests will be written during the class time.
- Midterm marks will be posted on LEARN.
- The final exam period for the Fall Term 2018 is December 6-21 inclusive. Students are expected to be available during this time. Travel plans are not acceptable grounds for granting an alternative final examination time. <http://uwaterloo.ca/registrar/finalexaminations/examination-regulations-and-related-matters>
- The exact date and time for the final exam for this class will be determined by the Registrar's Office. The exam schedule is posted online, will be announced in class, and posted on LEARN.
- Only the Registrar's Office can issue final grades.

This grading scheme will be implemented strictly for all students in the course (with the exception of verified illnesses – see below).

## Course Policies regarding missing exam

### Missing a Midterm Due to Illness During the Term

- Missing a midterm will automatically result in a grade of zero for that midterm. If the illness can be documented with a UW Verification of Illness Form (**the only acceptable document**), with approval you may transfer the weight of the missed midterm to the final exam. **This remedy is a privilege and not a right.**
- The midterm exam schedule has been set and will not be changed for whatever reason (**no make-up midterm exams will be offered – absolutely no exceptions!**).

### Missing the Final Exam Due to Illness

- Missing the final exam is a very serious matter which automatically results in a grade of zero for the final exam and possibly a failing grade for the course. Please carefully read the Economics Department policy on deferred final exams for instructions.
- No deferred final exam will be provided for students who missed all the exams (including the final exam) in this course.

## Submission of Exam Papers

- Late submission of exam papers is not accepted and missed submissions will receive a zero mark for whatever reason.
- Exam papers must be submitted in whole and on time in the exam room. Exam paper
  - a) not submitted on time,
  - b) submitted with missing pages,
  - c) submitted elsewhere, with the exception of students with permission to write in the AS Office,

d) not received at all  
will receive a grade of zero for whatever reason – **No exceptions.**

- **It is the responsibility of students to ensure that they write exams in the location, date, and time assigned to their section. Students writing exams in the wrong section will be assessed a 20% penalty on the final exam grade. There will be no accommodation for possible differences in exam material or content.**

#### **Late Work**
