

## Econ 207: Economic Growth and Development

Teferi Mergo (tmergo@uwaterloo.com)  
Fall 2019 Syllabus

The course explores the defining 'economic development' challenges of the contemporary developing countries. They include: poverty and inequality; rapid population growth and migration; poor health and education; and the political-economy of underdevelopment, chiefly: inferior institutions, social fractionalization, civil conflict, and corruption. The canonical economic models of growth and development will be covered to provide broader guiding frameworks for the class. The course gets underway with discussions of important concepts, measures and indicators of economic development; it concludes with some hopeful notes – unusual for a course on Economic growth and development – but justified given the recent experiences of some of the developing countries.

A successful engagement in the class will allow students to think critically about some of the questions that development economists try to answer. After taking the class, one might even be motivated to consider a career as a development economist or practitioner.

Lectures: Monday & Wednesday 1:00 – 2:20 pm, EV3 3412  
Office Hours: Wednesday 2:30 – 4:00 pm, STP 210

### Required Readings:

1. Todaro, Michael and Stephen C. Smith. (2013). Economic Development. Pearson.
2. Assigned journal articles and book chapters which are indicated below. They must be read carefully enough to understand their key points. A main concern of the lectures is evaluation of the papers' research designs and methods. Attending lectures will thus help students in forming critical opinion of the issues tackled by the papers.

### Grading:

The course grade will be assigned as follows:

- 1) A five-page paper dealing with one of the defining challenges faced by developing nations. Students will have 10 minutes to present their findings in class. The paper and presentations deal with topics covered beginning in item #4 of the course contents (see below). Within a week after the first lecture, specific instructions will be provided for each assignment by email. (30%);
- 3) A mid-term covering the first three items of the syllabus (Measures and Indicators of Development; Theories of Economic Growth; Poverty and Inequality) (30%; **Wednesday, Oct. 2**);
- 4) A Final exam on the rest of the course material (40%; **Date: TBA**)

### **Cross-listed course**

Please note that a cross-listed course will count in all respective averages no matter under which rubric it has been taken. For example, a PHIL/PSCI cross-list will count in a Philosophy major average, even if the course was taken under the Political Science rubric.

### **Academic Integrity**

**Academic Integrity:** In order to maintain a culture of academic integrity, members of the University of Waterloo are expected to promote honesty, trust, fairness, respect and responsibility. See the [UWaterloo Academic Integrity](#) webpage and the [Arts Academic Integrity](#) webpage for more information.

**Discipline:** A student is expected to know what constitutes academic integrity, to avoid committing academic offences, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to [Policy 71 - Student Discipline](#). For typical penalties check [Guidelines for the Assessment of Penalties](#).

**Grievance:** A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. [Read Policy 70 - Student Petitions and Grievances](#), Section 4. When in doubt, please be certain to contact the department's administrative assistant who will provide further assistance.

**Appeals:** A decision made or penalty imposed under Policy 70 - Student Petitions and Grievances (other than a petition) or Policy 71 - Student Discipline may be appealed if there is a ground. A student who believes he/she has a ground for an appeal should refer to [Policy 72 - Student Appeals](#).

### **Accommodation for Students with Disabilities**

**Note for students with disabilities:** [The AccessAbility Services office](#), located on the first floor of the Needles Hall extension (1401), collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the AS office at the beginning of each academic term.

### **If you are using Turnitin® in your course**

**Turnitin.com:** Text matching software (Turnitin®) will be used to screen assignments in this course. This is being done to verify that use of all material and sources in assignments is documented. Students will be given an option if they do not want to have their assignment screened by Turnitin®. In the first week of the term, details will be provided about arrangements and alternatives for the use of Turnitin® in this course.

Note: students must be given a reasonable option if they do not want to have their assignment screened by Turnitin®. See [guidelines for instructors](#) for more information.

**Outlines for ECON 101 and 102 must include the following statement:**

It is the responsibility of students to ensure that they write exams in the location, date, and time assigned to their section. Students writing exams in the wrong section will be assessed a 20% penalty on the final exam grade. There will be no accommodation for possible differences in exam material or content.

*(The above statement is also recommended for ECON 201, 206 and 207)*

## **NEW – Recommended statements to be included on course outlines**
