

**University of Waterloo**  
**Department of Economics**  
**Economics 211**  
**Introduction to Mathematical Economics**  
**Lectures: Tuesday, Thursday 8:30-9:50, DWE 3516**  
**Tutorial: Thursday 1:30-2:20 PAS 1229**

**Course Outline Spring 2019**

**Instructor Information**

Instructor: John Burbidge  
Office: HH-125  
Office Hours: See [Econ Dept Advising](#), or by appointment  
Email: [jburbidg@uwaterloo.ca](mailto:jburbidg@uwaterloo.ca)  
Course web page: [John Burbidge's webpage](#)

**Course description**

The undergraduate calendar description of Econ 211 is:

Introduction to Mathematical Economics: An introduction to mathematical techniques of particular use in economics. Topics include matrix algebra, differentiation, partial derivatives, optimization techniques including constrained optimization - all developed within the context of economic problems. Prereq: ECON 101 or ECON 100/COMM103; one of MATH 104, 4U Advanced Functions, 4U Calculus and Vectors: Not open to students in the Faculty of Mathematics.

Note that Math 104 or its equivalent is a pre-requisite. The undergraduate calendar description of Math 104 is: An introduction to applications of calculus in business, the behavioural sciences, and the social sciences. The models studied will involve polynomial, rational, exponential and logarithmic functions. The major concepts introduced to solve problems are rate of change, optimization, growth and decay, and integration.

**Course Goals and Learning Outcomes**

Economics is the most mathematical of the social sciences. This course, together with Econ 221, Statistics for Economists, provides students with much of the mathematical background required to complete the core second-, third- and fourth-year courses in economic theory and econometrics.

## **Text**

Martin J. Osborne *Mathematical Methods for Economic Theory*, which is available at:

Osborne: Mathematical Methods

## **Topics**

### **Basics: logic, set theoretic notation, functions**

Osborne, 1.1, 1.4

### **Calculus**

Osborne, 1.5-1.7, 2.1-2.5

### **Concavity and convexity**

Osborne, 3.1, 3.3, 3.4

### **Introduction to optimization**

Osborne, 4.1-4.3

### **Interior optima**

Osborne, 5.1-5.3

### **Optimization with equality constraints**

Osborne, 6.1, 6.3

## **Evaluation**

The final grade will be based on tutorials, five take-home assignments, two term tests and a final exam.

### **Tutorials (10% of the final grade)**

There will be tutorials in every week of the term. The first is Thursday May 9<sup>th</sup> and the last is Thursday July 25<sup>th</sup>. Students will be asked to complete some pages of written work in each tutorial; this work will be handed in at the end of each tutorial. One mark will be awarded for each week's pages, to a maximum of 10 for the term.

### **Assignments (10% of the final grade)**

There will be 5 assignments, worth 2% each. The assignments and their due dates will be posted on the course web site, which is stated above. The assignments must be submitted in person in class on their due dates.

### **In-class tests (30% of the final grade)**

There will be two in-class tests, each worth 15% of the final grade. The first test will be held Tuesday May 28<sup>th</sup>. The second test will be held Thursday June 27<sup>th</sup>.

### **Final Examination (50%)**

The final examination will be on the entire term's work and will be scheduled by the Registrar.

**There will be no make-up tutorials or assignments or tests. If a student misses a tutorial or an assignment or a test, and the student can provide credible documentation for missing the tutorial or the assignment or the test, the weight on the tutorial or the assignment or the test will be transferred to the final exam. The credible documentation must be signed and handed to the instructor in class.**

.....

Economics Department Deferred Final Exam Policy

### **Cross-listed course**

Please note that a cross-listed course will count in all respective averages no matter under which rubric it has been taken. For example, a PHIL/PSCI cross-list will count in a Philosophy major average, even if the course was taken under the Political Science rubric.

### **Academic Integrity**

**Academic Integrity:** In order to maintain a culture of academic integrity, members of the University of Waterloo are expected to promote honesty, trust, fairness, respect and responsibility. See the UWaterloo Academic Integrity webpage and the Arts Academic Integrity webpage for more information.

**Discipline:** A student is expected to know what constitutes academic integrity, to avoid committing academic offences, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about "rules" for group work/collaboration should seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to Policy 71 - Student Discipline. For typical penalties check Guidelines for the Assessment of Penalties.

**Grievance:** A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4. When in doubt, please be certain to contact the department's administrative assistant who will provide further assistance.

**Appeals:** A decision made or penalty imposed under Policy 70 - Student Petitions and Grievances (other than a petition) or Policy 71 - Student Discipline may be appealed if there is a ground. A student who believes he/she has a ground for an appeal should refer to Policy 72 - Student Appeals.

### **Accommodation for Students with Disabilities**

**Note for students with disabilities:** The [AccessAbility Services office](#), located on the first floor of the Needles Hall extension (1401), collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the AS office at the beginning of each academic term.

### **Mental Health Support**

All of us need a support system. The faculty and staff in Arts encourage students to seek out mental health supports if they are needed.

#### **On Campus**

- Counselling Services: [counselling.services@uwaterloo.ca](mailto:counselling.services@uwaterloo.ca) / 519-888-4567 ext 32655
- MATES: one-to-one peer support program offered by Federation of Students (FEDS) and Counselling Services
- Health Services Emergency service: located across the creek from Student Life Centre

#### **Off campus, 24/7**

- Good2Talk: Free confidential help line for post-secondary students. Phone: 1-866-925-5454
- Grand River Hospital: Emergency care for mental health crisis. Phone: 519-749-433 ext. 6880
- Here 24/7: Mental Health and Crisis Service Team. Phone: 1-844-437-3247
- OK2BME: set of support services for lesbian, gay, bisexual, transgender or questioning teens in Waterloo. Phone: 519-884-0000 extension 213

Full details can be found online at the [Faculty of ARTS website](#)

### **Territorial Acknowledgement**

We acknowledge that we are living and working on the traditional territory of the Attawandaron (also known as Neutral), Anishinaabeg and Haudenosaunee peoples. The University of Waterloo is situated on the Haldimand Tract, the land promised to the Six Nations that includes six miles on each side of the Grand River.
