Course Objectives

This is the second course in macroeconomics theory sequence and provides an extension of the tools developed in Macroeconomic theory 1. The objective of this course is to present a full coverage of modern macroeconomic theories and develop basic models to analyze both short run and long run phenomena in a closed economy. The questions of concern will include: Why are so many countries poor? What policies might help them to grow out of poverty? What causes recessions? Can the government do anything to combat recessions? Should it? What are the sources of economics booms and recessions? Why is there unemployment? What are the sources of inflation? And, how do government policies affect output, inflation and unemployment?

We will discuss the standard analytical methods used in macroeconomics that address these issues and provide a rigorous treatment of macroeconomic theories. We will closely look at the underlying micro foundations of macroeconomic theories and emphasize on the role of

expectations. Topics will include the neoclassical growth models, real business cycles models, government spending and government debt, consumption, investment, models involving money and issues related to inflation. After completion of this course students will learn how these theoretical frameworks can be used to understand and interpret actual macroeconomic events.

Notes

Although it is not mandatory, attendance is highly recommended. Some of the materials covered in the class will not be included in the lecture notes so it is strongly advised that students attend classes regularly. Student participation in class is also highly encouraged. Since, the course contents are technical in nature; a person to person communication is preferred to answer questions. Students are welcome to ask any questions during the regular office hours. Regarding e-mail communication, students should use the university e-mail address. **When sending an e-mail, write Econ 302 (Section 001) on the subject line and include your name and student ID number.**

Cross-listed course

Please note that a cross-listed course will count in all respective averages no matter under which rubric it has been taken. For example, a PHIL/PSCI cross-list will count in a Philosophy major average, even if the course was taken under the Political Science rubric.

Institutional-required statements for undergraduate course outlines approved by Senate Undergraduate Council, April 14, 2009

Academic Integrity: In order to maintain a culture of academic integrity, members of the University of Waterloo are expected to promote honesty, trust, fairness, respect and responsibility. See the [UWaterloo Academic Integrity](#) webpage and the [Arts Academic Integrity](#) webpage for more information.

Discipline: A student is expected to know what constitutes academic integrity, to avoid committing academic offences, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should

seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to [Policy 71 - Student Discipline](#). For typical penalties check [Guidelines for the Assessment of Penalties](#).

Grievance: A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. [Read Policy 70 - Student Petitions and Grievances](#), Section 4. When in doubt, please be certain to contact the department's administrative assistant who will provide further assistance.

Appeals: A decision made or penalty imposed under Policy 70 - Student Petitions and Grievances (other than a petition) or Policy 71 - Student Discipline may be appealed if there is a ground. A student who believes he/she has a ground for an appeal should refer to [Policy 72 - Student Appeals](#).

Accommodation for Students with Disabilities

Note for students with disabilities: [The AccessAbility Services office](#), located on the first floor of the Needles Hall extension (1401), collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the AS office at the beginning of each academic term.
