# **Computer Security Spring 2024**

## ECE 458 / ECE 750

Published Apr 03, 2024

## **Class Schedule**

Section	Location	Time	Instructor(s)
ECE 458 001 [LEC]		Mondays & Fridays 10 a.m. 11:20 a.m.	
		Monday, May 13th 4 p.m 5:20 p.m.	
		Monday, June 3rd 4 p.m 5:20 p.m.	Kami Vaniea kami.vaniea@uwaterloo.ca
		Monday, June 24th 4 p.m 5:20 p.m.	
		Monday, July 22nd 4 p.m. 5:20 p.m.	
ECE 458 101 [TUT]		Wednesdays 7 p.m. 7:50 p.m.	
ECE 750 001 [LEC]		Mondays & Fridays 10 a.m. 11:20 a.m.	Kami Vaniea kami.vaniea@uwaterloo.ca
		Monday, May 13th 4 p.m. 5:20 p.m.	
		Monday, June 3rd 4 p.m 5:20 p.m.	
		Monday, June 24th 4 p.m 5:20 p.m.	
	Monday, July 22nd 4 p.m 5:20 p.m.		

# Instructor & TA (Teaching Assistant) Information

#### Instructor:

Dr Kami Vaniea kami.vaniea@uwaterloo.ca Davis Center 2532

## **Course Description**

#### Calendar Description for ECE 458

Introduction to computer security. Models of security. Elementary cryptography. Software security, vulnerabilities, threats, defenses and secure-software development processes. Threats to networks and defenses. Security issues at the application layer. Secure design principles, techniques and security evaluation. Privacy, ethics and legal issues. [Offered: S]

Prereq: ECE 252 or SE 350; Level at least 4A Computer Engineering or Electrical Engineering or Software Engineering. Antireg: CS 458

Calendar Description for ECE 750

Spring 2024 course will also cover human-factors topics such as usability, trust, key sharing, and how security is managed by organisations.

#### **Learning Outcomes**

#### By the end of this course students should be able to:

Recognise common security threats against computer systems and know the basic mechanisms to address them

Think critically about security threats using the STRIDE model and break down the concept of "security" into its component parts

Understand the basics of network security and be able to reason about how defences and threats exist throughout a network

Know the most common programming flaws and how they can manifest in code

Reason about how people will use the security tools created and how their workflows may or may not align with security assumptions

#### Day-to-day security a student should be able to understand and reason about after the course:

Explain what the lock icon near the URL bar means (or the "connection is secure" in Chrome)

Read a URL correctly and learn why doing so in all cases is nearly impossible for humans

Understand why we still use passwords

Explain how advertisers track people across the internet and why an ad blocker stops some, but not all of the tracking

Explain what a cookie is and why it gives people more control than advertising codes used by mobile phones

#### **Tentative Course Schedule**

- 1. Basics of Security Thinking about security in a structured way (CH1)
  - Confidentiality, integrity and availability
  - Definition of Privacy
  - Trust and threat model
  - Running example of HTTPS
  - STRIDE threats
  - Breakdown of breaches
  - Introduction to Usable Security and Privacy
- 2. Authentication and Access Control (CH2.1,CH2.2)
  - Access control concepts
  - Password based authentication
  - Multi factor authentication and passwordless authentication
  - Kerberos and open-authorization
  - Introduction to phishing (scam) attacks
- 3. Cryptography Basics (CH2.3)
  - Pseudorandom generation
  - Symmetric-key vs Asymmetric cryptography
  - Public key cryptography and digital signature
  - Hash chain based authentication and applications (blockchain)
- 4. Programming security (CH3)
  - Common programming issues
  - o Malicious code Malware
  - Trusted platform
  - Memory security
- 5. Network and Wireless Security (CH6)
  - Basics of network security
  - Security protocols (TLS/SSL) and attacks on TLS
  - Firewalls and VPN
  - Security of IEEE 802.11 and 4G-LTE/5G
- 6. Web Security (CH4)
  - HTTPS, sessions and cookies
  - Privacy attacks
  - Attacks on clients and servers
  - Email security
  - Privacy on the Internet
- 7. Applications
  - Chosen based on student interest. Possibilities include: internet of things, blockchain, RFID, GDPR, and AI

#### Texts / Materials

### Additional textbook reading (not required)

Title / Name	Notes / Comments	Required
C. Pfleeger, S. Pfleeger, and L. Coles- Kemp, Security in Computing, 6th	Recommended text book for the course.	No
edition, Addison-Wesley, 2024		

Title / Name	Notes / Comments	Required
C. Pfleeger, S. Pfleeger, and J. Margulies, Security in Computing, 5th edition, Prentice Hall, 2015	Alternative recommended text book, main topics are the same as 6th edition, but examples are older.	No
W. Stallings and L. Brown, Computer Security: Principles and Practice, 4th edition, Pearson, 2017. ISBN: 0134794109.		No
S. Smith and J. Marchesini, The Craft of System Security, Pearson, Addison Wisely, 2007. ISBN: 9780321434838.		No
Shostack A. Threats: What Every Engineer Should Learn from Star Wars. John Wiley & Sons, Inc.; 2023.	UW Library: https://ocul- wtl.primo.exlibrisgroup.com/permalin k/01OCUL WTL/pa2qcq/alma999986 897037405162	No

### **Resources (not required)**

Title / Name	Notes / Comments	Required
Schneier on Security <a href="http://www.schneier.com/blog/">http://www.schneier.com/blog/</a>	A blog covering current computer security and privacy issues.	No
Kevin Du, Seed Labs, University of Syracuse, <a href="https://seedsecuritylabs.org/lab env.html">https://seedsecuritylabs.org/lab env.html</a>	The lab contains many hand-on experiments and some crafted attacks can be launched under their specific environment for better understanding them.	No
BugTraq, <a href="http://www.securityfocus.com/archive/1">http://www.securityfocus.com/archive/1</a>	full disclosure moderated mailing list for the detailed discussion and announcement of computer security vulnerabilities.	No

It is recommended that you purchase Security in Computing either the 5th or 6th edition if you find reading text books to be helpful. All required material will be presented in class, and recommended chapters will be provided in the schedule.

### **Student Assessment**

**Overall Course Grading** 

<u></u>		
Component	Value	
Four homework assignments	35%	
One course project (individually or group of 2)	20%	
Midterm (for feedback only)	0%	

Component	Value
Final exam (closed book)	45%

# **Assignment Screening**

No external assignment screening will be used in this course. The instructor and/or TAs may use custom internally developed scripts to check for high overlap between coursework submissions. Any identified will be verified by hand.

### **Notice of Recording**

### **Short Version**

Lecture recordings may be used in the course so that students who cannot attend or who want to revise lecture content can do so. Recordings will happen at the discretion of the Instructor and not all lectures or content are guaranteed to be recorded. Recordings will focus on the Instructor and not the students, however, students asking questions may have their voice recorded. If at any time you would like the recording paused, you may ask the instructor to do so. You may also notify the instructor after class or via email that you would like a question you asked removed from the recording. Such requests will be honored if possible. Recordings that include audio from students will only be accessible to the members of the course. Recordings with student audio removed may be made more widely available.

### **Official Policy**

Activities for this course involve recording, in partial fulfillment of the course learning outcomes. You will receive notification of recording via at least one of the following mechanisms: within the Learning Management System (LEARN), a message from your course instructor, course syllabus/website, or other means. Some technologies may also provide a recording indicator. Images, and audio that have been recorded may be used and/or made available by the University to course students for the purpose of lecture review. Recordings will be managed according to the University records classification scheme, <a href="WatClass">WatClass</a> (<a href="https://uwaterloo.ca/records-management/records-classification-and-retention-schedules">https://uwaterloo.ca/records-management/records-classification-and-retention-schedules</a>), and will be securely destroyed when no longer needed by the University. Your personal information is protected in accordance with the <a href="https://www.ontario.ca/laws/statute/90f31">Freedom of Information and Protection of Privacy Act</a> (<a href="https://www.ontario.ca/laws/statute/90f31">https://www.ontario.ca/laws/statute/90f31</a>), as well as <a href="https://www.ontario.ca/laws/statute/90f31">University policies and guidelines</a> (<a href="https://www.ontario.ca/privacy/">https://www.ontario.ca/privacy/</a>) and may be subject to disclosure where required by law.

The University will use reasonable means to protect the security and confidentiality of the recorded information, but cannot provide a guarantee of such due to factors beyond the University's control, such as recordings being forwarded, copied, intercepted, circulated, disclosed, or stored without the University's knowledge or permission or the introduction of malware into computer system which could potentially damage or disrupt the computer, networks, and security settings. The University is not responsible for connectivity/technical difficulties or loss of data associated with your hardware, software or Internet connection.

By engaging in course activities that involve recording, you are consenting to the use of your appearance, image, text/chat messaging, and voice and/or likeness in the manner and under the conditions specified herein. (In the case of a live stream event, if you choose not to have your image or audio recorded, you may <u>disable the audio and video functionality (https://uwaterloo.ca/student it services/)</u>. Instructions to participate using a pseudonym instead of your real name are included where the feature exists; however, you must disclose the pseudonym to your instructor in

advance in order to facilitate class participation.) If you choose not to be recorded, this notice serves as confirmation of your understanding that the instructor will attempt to remove recording elements involving your likeness or voice, however, doing so for hard-to-hear background sounds may be impossible.

You are not permitted to disclose the link to/URL of an event or an event session recording or copies of recording to anyone, for any reason. Recordings are available only to authorized individuals who have been directly provided the above instructions/link for their use. Recordings for personal use, required to facilitate your learning and preparation of personal course/lecture notes, should not be shared with others without the permission of the instructor or event coordinator. Review the University's guidelines for faculty, staff and students entering relationships with external organizations offering access to course materials (https://uwaterloo.ca/secretariat/faculty-staff-and-students-entering-relationships external) for more information on your obligations with respect to keeping copies of course materials. For more information about accessibility, connect with <a href="https://uwaterloo.ca/accessability-services/">Accessability-services/</a>).

### **Administrative Policy**

#### **Faculty of Engineering Guiding Practices.**

**Territorial Acknowledgement:** The University of Waterloo acknowledges that much of our work takes place on the traditional territory of the Neutral, Anishinaabeg and Haudenosaunee peoples. Our main campus is situated on the Haldimand Tract, the land granted to the Six Nations that includes six miles on each side of the Grand River. Our active work toward reconciliation takes place across our campuses through research, learning, teaching, and community building, and is centralized within the Office of Indigenous Relations (https://uwaterloo.ca/indigenous).

Inclusive Teaching-Learning Spaces: The University of Waterloo values the diverse and intersectional identities of its students, faculty, and staff. The University regards equity and diversity as an integral part of academic excellence and is committed to accessibility for all. We consider our classrooms, online learning, and community spaces to be places where we all will be treated with respect, dignity, and consideration. We welcome individuals of all ages, backgrounds, beliefs, ethnicities, genders, gender identities, gender expressions, national origins, religious affiliations, sexual orientations, ability—and other visible and nonvisible differences. We are all expected to contribute to a respectful, welcoming, and inclusive teaching- learning environment. Any member of the campus community who has experienced discrimination at the University is encouraged to seek guidance from the Office of Equity, Diversity, Inclusion & Anti-racism (EDI-R) (https://uwaterloo.ca/equity-diversity-inclusion-anti-racism/) via email at equity@uwaterloo.ca (mailto:equity@uwaterloo.ca). Sexual Violence Prevention & Response Office (SVPRO) (https://uwaterloo.ca/sexual-violence-prevention-response-office), supports students at UWaterloo who have experienced, or have been impacted by, sexual violence and gender based violence. This includes those who experienced harm, those who are supporting others who experienced harm. SVPRO can be contacted at sypro@uwaterloo.ca (mailto:sypro@uwaterloo.ca)

**Religious & Spiritual Observances:** The University of Waterloo has a duty to accommodate religious and spiritual observances under the Ontario Human Rights Code. Please inform the instructor at the beginning of term if special accommodation needs to be made for religious observances that are not otherwise accounted for in the scheduling of classes and assignments. Consult with your instructor(s) within two weeks of the announcement of the due date for which accommodation is being sought.

Respectful Communication and Pronouns: Communications with Instructor(s) and teaching assistants (TAs) should be through recommended channels for the course (e.g., email, LEARN, Piazza, Teams, etc.) Please use your UWaterloo email address. Include an academic signature with your full name, program, student ID. We encourage you to include your pronouns to facilitate respectful communication (e.g., he/him; she/her; they/them). You can update your chosen/preferred name at <a href="WatIAM">WatIAM</a>. (<a href="https://idm.uwaterloo.ca/watiam/">https://idm.uwaterloo.ca/watiam/</a>) You can update your pronouns in <a href="Quest">Quest</a> (<a href="https://uwaterloo.ca/quest/help/students/how do i/view or update my personal information)</a>.

Mental Health and Wellbeing Resources: If you are facing challenges impacting one or more courses, contact your academic advisor, Associate Chair Undergraduate, or the Director of your academic program. Mental health is a serious issue for everyone and can affect your ability to do your best work. We encourage you to seek out mental health and wellbeing support when needed. The <a href="Faculty of Engineering Wellness">Faculty of Engineering Wellness</a> (<a href="https://uwaterloo.ca/engineering-wellness-program/">https://uwaterloo.ca/engineering-wellness-program/</a>) has programming and resources for undergraduate students. For counselling (individual or group) reach out to <a href="Campus Wellness and Counselling Services">Campus Wellness and Counselling Services</a>. (<a href="https://uwaterloo.ca/campus-wellness/counselling-services">https://uwaterloo.ca/campus-wellness/counselling-services</a>) Counselling Services is an inclusive, non-judgmental, and confidential space for anyone to seek support. They offer confidential counselling for a variety of areas including anxiety, stress management, depression, grief, substance use, sexuality, relationship issues, and much more.

**Intellectual Property:** Be aware that this course contains the intellectual property of their instructor, TA, and/or the University of Waterloo. Intellectual property includes items such as:

- Lecture content, spoken and written (and any audio/video recording thereof).
- Lecture handouts, presentations, and other materials prepared for the course (e.g., PowerPoint slides).
- Questions or solution sets from various types of assessments (e.g., assignments, quizzes, tests, final exams); and
- Work protected by copyright (e.g., any work authored by the instructor or TA or used by the instructor or TA with permission of the copyright owner).

Course materials and the intellectual property contained therein are used to enhance a student's educational experience. However, sharing this intellectual property without the intellectual property owner's permission is a violation of intellectual property rights. For this reason, it is necessary to ask the

instructor, TA and/or the University of Waterloo for permission before uploading and sharing the intellectual property of others online (e.g., to an online repository).

Permission from an instructor, TA or the University is also necessary before sharing the intellectual property of others from completed courses with students taking the same/similar courses in subsequent terms/years. In many cases, instructors might be happy to allow distribution of certain materials. However, doing so without expressed permission is considered a violation of intellectual property rights and academic integrity.

Please alert the instructor if you become aware of intellectual property belonging to others (past or present) circulating, either through the student body or online.

Continuity Plan - Fair Contingencies for Unforeseen Circumstances (e.g., resurgence of COVID-19): In the event of emergencies or highly unusual circumstances, the instructor will collaborate with the Department/Faculty to find reasonable and fair solutions that respect rights and workloads of students, staff, and faculty. This may include modifying content delivery, course topics and/or assessments and/or weight and/or deadlines with due and fair notice to students. Substantial changes after the first week of classes require the approval of the Associate Dean, Undergraduate Studies.

**Declaring absences:** Regardless of the process used to declare an absence, students are responsible for reaching out to their instructors as soon as possible. The course instructor will determine how missed course components are accommodated. Self declared absences (for COVID 19 and short term absences up to 2 days) must be submitted through Quest (https://uwaterloo.ca/quest/help/students/how-do-i/self-declare-absence-undergraduate-students). Absences requiring documentation (e.g., Verification of Illness Form, bereavement, etc.) are to be uploaded by completing the form on the VIF System (https://vif.uwaterloo.ca/). The UWaterloo Verification of Illness form (https://uwaterloo.ca/campus wellness/health services/student medical clinic/verification illness services), completed by a health professional, is the only acceptable documentation for an absence due to illness. Do not send documentation to your advisor, course instructor, teaching assistant, or lab coordinator. Submission through the VIF System, once approved, will notify your instructors of your absence.

**Rescheduling Co-op Interviews:** Follow the co-op process for <u>rescheduling co-op interviews (https://uwaterloo.ca/co-operative education/find your co-op-job/find job-waterlooworks/interview/interview conflicts) for conflicts to graded</u>

assignments (e.g., midterms, tests, and final exams). Attendance at co-operative work-term employment interviews is not considered to be a valid reason to miss a test.

# **University Policy**

**Academic integrity**: In order to maintain a culture of academic integrity, members of the University of Waterloo community are expected to promote honesty, trust, fairness, respect and responsibility. [Check <u>the Office of Academic Integrity (https://uwaterloo.ca/academic integrity/)</u> for more information.]

**Grievance:** A student who believes that a decision affecting some aspect of their university life has been unfair or unreasonable may have grounds for initiating a grievance. Read <u>Policy 70, Student Petitions and Grievances, Section 4 (https://uwaterloo.ca/secretariat/policies\_procedures\_guidelines/policy\_70). When in doubt, please be certain to contact the department's administrative assistant who will provide further assistance.</u>

**Discipline:** A student is expected to know what constitutes academic integrity to avoid committing an academic offence, and to take responsibility for their actions. [Check the Office of Academic Integrity (<a href="https://uwaterloo.ca/academic integrity/">https://uwaterloo.ca/academic integrity/</a>) for more information.] A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about "rules" for group work/collaboration should seek guidance from the course instructor, academic advisor, or the undergraduate associate dean. For information on categories of offences and types of penalties, students should refer to Policy 71, Student Discipline (https://uwaterloo.ca/secretariat/policies\_procedures\_guidelines/policy\_71). For typical penalties, check Guidelines for the Assessment of Penalties (https://uwaterloo.ca/secretariat/guidelines/guidelines-assessment-penalties).

Appeals: A decision made or penalty imposed under <u>Policy 70, Student Petitions and Grievances</u> (<a href="https://uwaterloo.ca/secretariat/policies-procedures-guidelines/policy-70">https://uwaterloo.ca/secretariat/policies-procedures-guidelines/policy-70</a>) (other than a petition) or <u>Policy 71, Student Discipline (https://uwaterloo.ca/secretariat/policies procedures guidelines/policy 71)</u> may be appealed if there is a ground. A student who believes they have a ground for an appeal should refer to <u>Policy 72, Student Appeals</u> (https://uwaterloo.ca/secretariat/policies procedures guidelines/policy 72).

**Note for students with disabilities:** AccessAbility Services (https://uwaterloo.ca/accessability-services/), located in Needles Hall, Room 1401, collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with AccessAbility Services at the beginning of each academic term.

**Turnitin.com:** Text matching software (Turnitin®) may be used to screen assignments in this course. Turnitin® is used to verify that all materials and sources in assignments are documented. Students' submissions are stored on a U.S. server, therefore students must be given an alternative (e.g., scaffolded assignment or annotated bibliography), if they are concerned about their privacy and/or security. Students will be given due notice, in the first week of the term and/or at the time assignment details are provided, about arrangements and alternatives for the use of Turnitin in this course.

It is the responsibility of the student to notify the instructor if they, in the first week of term or at the time assignment details are provided, wish to submit alternate assignment.
