

The University of Waterloo 1969 Civil Engineering 55th Reunion

Years ago, we all made decisions that would prepare us for the life ahead and one of them was to go to the University of Waterloo. Whatever the criteria, we graduated and now are proud to identify ourselves as Waterloo Engineers, no small feat.!

Now we celebrate that achievement 55 years later. It's a special anniversary both for its longevity and its meaning to you for the accomplishment itself and for friendships and memories.

As always, Engineering Alumni Affairs has organized the June 1st weekend program and left Friday May 31st open for each class to arrange its own event. On your behalf, I again accepted Ron Ojanpera's offer to join with Mechanical Engineering 69ers at a casual barbecue at his home Friday evening after 6 PM. His address is:

Ron and Chris Ojanpera
241 Roxton Drive, Waterloo

This worked very well for our, 40, 45 and 50-year events so we now consider this BBQ an engineering class of 69 "tradition". Details: BYOB like old times. There will be a collection pot to cover the nominal cost for non-alcoholic refreshments, food, etc.

If you (and another) hope to attend, please telephone or text me before May 8 and I will provide our numbers to Ron so he can arrange the food, etc. Looking forward to catching up!

Once I know which Civils are attending, we can consider the interest in gathering informally before the BBQ.

Your Class Rep,

Wayne Scott, phone: 647 992 0021, email: wayne_scott@icloud.com

P.S. I thought you might enjoy this photo. I do not have a photo for Stream A". If you can find yours, please share it.

CIVIL ENGINEERING 1969 - Stream B

Standing (L to R). Ken Carter, Jorn Hansen, Terry Watt, Gerry Hanley, Doug Dalgarno, Richard Diem, Bob Fish, Wayne Scott, Mamman Sadiku, Dick Bugatsch, Frank Yu, Ken Chisholm, Jim Steele, Murray Jones, Owen Redfern, Steve Graham.
