

# Mechanical Engineering Class of 1974

50 years ago, we embarked on our dream journey together to change the world and in the process to change ourselves. Our time together was precious, filled with hopes, dreams, excitement, stress, work, lots of work and beer, lots and lots of beer.

Together we made it; the Iron Ring Ceremony, the graduation and then reality — life out there

**Let's get together 50 years later at our Reunion on June 1, to relive that shared enthusiasm and revisit then and now.**
