Take this chance to share your research with colleagues and industry

The University of Waterloo Human Factors and Ergonomics Society is proud to be hosting the Inter-University Workshop for its 20th anniversary!

This annual student conference is a unique opportunity for engaging research and industry community in a day of sharing, communication, top quality keynote speeches of the field, career exploration, and establishing meaningful professional connections.

Who can apply?
We are inviting graduate and senior undergraduate students who are conducting research in human factors, ergonomics, user experience or work from any field involving technology, machines, design and systems.

Research
We are accepting abstracts from completed projects and works in progress.

Abstract format
All abstracts must be no longer than 300 words describing their research.

Presentation format
We are accepting work in the form of either an oral presentation or a poster.

Abstract submission deadline
EXTENDED: OCTOBER 20th!

The Human Factors and Ergonomics Society Chapter at the University of Waterloo is pleased to host the 20th Annual Human Factors Engineering Inter-University Workshop (IUW) on November 16th, 2019. The IUW is a student-run workshop that attracts human factors researchers from institutions including the University of Waterloo, University of Toronto, and SUNY Buffalo, as well as members of the human factors and ergonomics community at large.

This workshop is a full day event filled with networking opportunities for student researchers and members from industry to share their ideas and latest work in human factors and ergonomics.

**CALL FOR ABSTRACTS!**

We are also receiving abstracts submission until **October 20th**! Visit our website for more information!

**Keynote Addresses**

Two keynote speakers will talk about their experiences working in human factors engineering, spanning academia and industry.

**Podium Presentations & Poster Session**

Students will talk about their latest human factors research, in fields from healthcare and transportation, to military and process control applications.

**Awards Ceremony**

The top podium and poster presentations, as voted by attendees, will receive a prize.

**Networking Dinner**

We will hold a dinner reception to close the event.
