This has grown helps Content many.

St. Jerome's University

I’ve been working with English, Arts First, and UGlib professors at St. Jerome's University. I've been able to work on various tasks, such as supporting virtual open houses and lectures, building quizzes, and creating online course rooms. I’ve enjoyed myself as an OLA, and I look forward to working with full professors to get their resources up and running – Philip Zulak.

ENGL 192 - Communication in the Engineering Profession

I’ve been given the opportunity to help prepare ENGL 192 for Fall 2020. I have worked on a variety of tasks, creating a Canvas Chat for project management and writing a User Experience Report. Currently, I’m comparing past course structures and syllabi to identify similarities. Going forward, I will consolidate these findings to create a standard online template for the fall term – Kristin Pawson.

Accessability

OLA’s, as that is in accessibility best practices. Our team has researched various software to support instructors improving students with a seamless online learning experience. Reach out to ORA if you have questions related to accessibility!

Audio Accessibility

Availability of a listenable-audio in coding software. It is similar to creating lecture audio, adding speech to videos, and cards can be used by students to record the missing text content. Recordings can be done at a specific rate with a specific note. This note is important. More information about removing background noise by clicking here.

Video Transcription

Creating video transcripts is an important consideration for students who are hard of hearing. We have selected automatic transcription software that can identify and transcribe the video’s functionality. More information about our services is here.

Captioning Videos

Make videos accessible to students who are hard of hearing. Our service can create closed captions for your videos, making it easier for students to understand the video content. More information about these services is here.

OLA Tidbit: The Importance of Formatting!

As an OLA, formatting has been a frequent request from many professors. I’ve been asked to format documents, assignments, instructions, and outlines. Consistent use of fonts, margins, headings, and spacing help make these documents more organized. I’ve grown to appreciate the importance of formatting since it makes content easier to read. – Hannah Pritchard
