9-MONTH INTERNATIONAL WORK EXPERIENCE IN SPANISH SCHOOLS

Becoming a Language Assistant in a Spanish private school for one academic year (September to June) is a unique opportunity for recent graduates from any degree subject. They will add international experience and transferable skills to their CV, learn a new language, and immerse themselves in a different culture.

Successful applicants deliver 20 teaching hours of speaking activities per week to reduced groups of students (aged 2 to 17 depending on the school), receive additional university training, and get a stipend for it.

There are **no fees**. Being competent in the Spanish language is recommended, but it is not necessary/required.

PROGRAMS' CONTENT - FLEXIBILITY

There are five types of programs that fit different backgrounds and interests. No matter which program they join, candidates are expected to show serious commitment and involvement.

Participants are supported by a Tutor designated by the school and take a university certified teaching-related blended course to help them in their teaching tasks. It is delivered in English by the Universitat Internacional de Catalunya and its syllabus depends on the program the candidate joins. The enrollment fees are fully covered by Meddeas.

SELECTION PROCESS AND DEADLINES

After studying a candidate's profile and a first Skype interview, shortlisted candidates will need to pass a face-to-face interview with our local delegate. University professors' written recommendations are highly valued.

To increase their chances of being selected and allocated in the best fit school for them, candidates are encouraged to apply ASAP and at least **before March 1st**.

SCHOOLS - SAFE ENVIRONMENT

Around 200 schools all over the country participate in our programs every year. Meddeas' managers know each and every participating school personally. We provide an immediate and adequate answer in the event of a problem.

ACCOMMODATION

Participants can live independently or with a volunteer host family, which is selected by the school's principal, guaranteeing a safe home environment. In any case, our Language Assistants receive a monthly stipend that allows them to live in Spain as students. Meddeas provides the participants with its expertise and advice on different matters such as accommodation, banking, traveling and police registration.
