Advertisement - Master of Arts (MA) Student

Dr. Fiona Moola is a scientist, professor, and director of the HEART Lab at Holland Bloorview Kids Rehabilitation Hospital and Ryerson University. Dr. Moola is looking for a MA student to undertake QUALITATIVE & ARTS-BASED RESEARCH in VISUAL ARTS. Specifically, the desired MA student will do their thesis on investigating the complex relationship between children and youth with disabilities and the visual arts, in Ontario. The student will be utilizing an arts-based research methodological approach, to generate sociological knowledge by exploring the artistic experiences and artistic creations of children and youth with physical disabilities in Ontario. This will be a funded MA.

Those interested, please send your CV and cover letter, with the Subject Heading 'Paintbrush Study – MA Student Application' to Nivatha Moothathamby at nmoothathamby@hollandbloorview.ca
