PURPOSE OF A LECTURERS TOWN HALL

- Why focus on Lecturers?
  - Lecturers have undertaken much of the work and effort to transition to online learning and now back to in-person learning.
  - As teaching-intensive faculty, we are affected the most with changes to course delivery modes in the middle of term.
  - More precarious workers (e.g., definite-term lecturers) with short-term contracts.

- A forum for Lecturers to voice and discuss common concerns
  - We do NOT have answers to all of your questions.
    - Many unknowns and inconsistencies.
  - Help our Committee to advocate for Lecturers more effectively.
  - Inform recommendations we will make to the FAUW Board and Faculty Relations Committee (FRC) representatives.
