Policy 27 (Regional Transit)

WHEREAS the Federation of Students is the body responsible for empowering and representing students on issues that affect the overall accessibility and affordability of their education; and
WHEREAS University of Waterloo students make up a significant proportion of transit users; and
WHEREAS the Federation of Students is responsible for the administration of the Undergraduate Universal Bus Pass (UPASS) at the University of Waterloo; and
WHEREAS the Region of Waterloo provides public transit for the campus communities in Waterloo, Kitchener, Cambridge and surrounding areas; and
WHEREAS the City of Stratford provides public transit service for University of Waterloo students enrolled at the Stratford Campus. WHEREAS the Region of Waterloo is installing a Light Rail Train system that will significantly impact transit routes across the region:

BE IT RESOLVED THAT the Federation of Students advocate to all relevant government bodies to ensure affordable, accessible, reliable, transit systems so that all University of Waterloo undergraduate students may safely and easily travel on public transit in an efficient manner; and

BE IT FURTHER RESOLVED THAT the Federation of Students advocate for the University of Waterloo undergraduate students to be considered a key stakeholder in strategic discussions around public transit; and

BE IT FURTHER RESOLVED THAT the Federation of Students take measures to educate its stakeholders about the state of regional transportation issues and their associated costs.

BE IT FURTHER RESOLVED THAT the Region of Waterloo, Grand River Transit and the Federation of Students collaborate in order to mitigate the impact of the development of Light Rail Transit on students.

BE IT FURTHER RESOLVED THAT the Federation of Students communicate with the City of Stratford and students from the University of Waterloo Stratford Campus in order to better understand and advocate on public transit issues within the City of Stratford.

Policy 26 (Off Campus Housing Advocacy Strategy)

WHEREAS the Federation of Students is the body responsible for empowering and representing students on issues that affect the overall accessibility and affordability of their education; and

WHEREAS the Federation of Students believes that University of Waterloo students are a key stakeholder in strategic discussions around housing and land development; and

WHEREAS University of Waterloo students make up a significant proportion of rental housing consumers in the City of Waterloo, and the student population is anticipated to continue growing for the foreseeable future; and

WHEREAS there are a variety of stakeholders in the strategic discussions around housing, including but not limited to, University of Waterloo and Wilfrid Laurier University administration, Wilfrid
Laurier University Student Union, City staff and officials, and permanent residents; and
WHEREAS the Federation of Students recognizes that all students have unique housing needs in terms of location, amenities, room sizing, roommates, number of bedrooms, and contract length;

BE IT RESOLVED THAT the Federation of Students will advocate to all relevant government bodies to ensure affordable, accessible, quality, safe, diverse, and sustainable housing options are available to students attending the University of Waterloo.
BE IT FURTHER RESOLVED THAT municipal governments and other community stakeholders work with the Federation of Students to collect data in order to identify specific areas of concern for students living in off-campus housing.
BE IT FURTHER RESOLVED THAT the Federation of Students commit to providing direction to students who may be living in accommodations that do not adhere to relevant legislation.
BE IT FURTHER RESOLVED THAT the Federation of Students commit to working alongside municipal governments and other community stakeholders to actively address student housing issues through programs and initiatives that improve the overall quality of life experienced by students in the community.

Policy 11 (Academic Cost Recovery)

WHEREAS post-secondary education is not a commodity but a real and substantial investment in people and society, which provides economic, social, and political benefits; and
WHEREAS the Federation of Students maintains that university funding should be based on the principle of shared benefit and shared responsibility; and
WHEREAS students have a responsibility to contribute a reasonable portion of the cost of their education; and
WHEREAS tuition must be predictable to allow students and families to engage in responsible and effective long-term financial planning;
WHEREAS market forces do not provide a stable or accurate notion of the monetary or market value of a post-secondary degree;
WHEREAS funding for post-secondary education in Ontario comes from the province of Ontario;
WHEREAS in 1988 Ontario domestic students paid 19% of the cost of their education as tuition;
BE IT RESOLVED THAT the Federation of Students believes that tuition for all programs should be set by the Provincial Government, as they are publicly accountable; and
BE IT FURTHER RESOLVED THAT The Federation of Students believes all tuition must be regulated by the Provincial Government and that students should never pay for more than 30 percent of their education; and
BE IT FURTHER RESOLVED THAT Tuition should reflect a fair portion of the actual cost of program delivery, and not the perceived market value of the degree in question, nor the potential earnings of the student upon graduation; and
BE IT FURTHER RESOLVED THAT the Federation of Students does not support the deregulation of any tuition fees, and believes that any form of tuition deregulation is unjust.

Policy 18 (Tuition Set-Aside)

WHEREAS tuition set-aside is a policy that stipulates a percentage of students’ tuition be reserved for use as financial aid at that institution;
WHEREAS the tuition set-aside policy was established to mandate institutions to use additional tuition revenue to provide financial assistance to students with need;
WHEREAS the tuition set-aside policy is a regressive system, as students are subsidizing students with need;

BE IT RESOLVED THAT the Federation of Student believes that the tuition set-aside should be repealed.
BE IT FURTHER RESOLVED THAT the Federation of Students believes financial aid dollars for the public post-secondary education system must ultimately come from the Provincial Government and not from the students those dollars should assist;
BE IT FURTHER RESOLVED THAT the Federation of Students believes that the Provincial Government must adequately fund student financial aid, instead of relying on the contribution of students who access the system.”

-Carried unanimously-

15. Moved by Lolas, seconded by Councillor Koo:

BE IT FURTHER RESOLVED THAT The Federation of Students encourages contributions to the university community in the form of various student interest groups.

BE IT FURTHER RESOLVED THAT The Federation of Students adheres to the following principles in dealing with Clubs:

2. Although the views expressed by members of our community are diverse and sometimes diametrically opposed, we respect the opinions of all those who respect the rights of others.

3. The Federation of Students strives to aid in the social and cultural development of students on campus by providing forums for academic, artistic, social, political, spiritual and cultural exploration and communication, and personal well-being.
