Course Summary
FINE 243|343: Topics in Fine Arts Experiential Learning are two courses designed to provide students with opportunities to gain practical experience in a range of Fine Arts related fields. The Department of Fine Arts has established formal relationships with a variety of regional art institutions and local artists, who have agreed to act as supervisors in the program. See their descriptions and contact information below.

Each course consists of 36 hours of unpaid work experience. Students are responsible for making initial contact with the institution or artist of their choice. Precise duties and scheduling of hours are agreed upon by the institution/artist and the student. At the beginning of term, each student should thoroughly research the institutions and artists listed in this syllabus, and using the information provided, make specific contacts based on their long term career aspirations and plans.

Please note: for those students pursuing the Fine Arts Teaching Preparation Specialization, hours spent working in a teaching capacity in these courses can be counted toward the 100 hours of relevant work experience required for that program.

FINE ARTS AND PLAGIARISM AND COPYRIGHT
The offence of plagiarism as defined by Policy 71 (Student Discipline) includes visual and aural plagiarism of works of art (drawings, photographs, graphics, video, sound, ideas, etc. conceived/made by other artists). The rules of conduct that apply to text-based work at the University of Waterloo also apply to work completed for studio-based assignments and research. There are two issues to consider with visual and aural plagiarism: ethics, i.e. expectations related to academic integrity as outlined in Policy 71; and copyright infringement, for which you could also be legally liable. Plagiarism and copyright infringement occur when you create an artwork that is substantially similar to the original source. For example, making a drawing in pencil based on a photograph that you find in a magazine may constitute plagiarism and be an infringement of copyright.

Please take note of the following points:
- All work submitted for evaluation must be your own. If the submitted work is determined not to be your own, the Academic Discipline Procedure of Policy 71 will be invoked.
- If you use any visual or aural material, such as images from the internet, magazines, books, websites of other artists, or from any source that can be cited, you must acknowledge/cite those references. Failure to do so will be deemed a violation of academic integrity and possibly an infringement of copyright and the Academic Discipline Procedure of Policy 71 will be invoked.
- If you are using visual or aural material that you have not made yourself, you must make an appointment with your instructor/s to discuss the ramifications of using ‘found’ or ‘appropriated’ material.
- Any original images used as the basis for any work you create—whether manipulated digitally or manually, or otherwise incorporated or appropriated for your work—must be properly cited, and must accompany your final work at the time of submission or evaluation.

A NOTE ON COPYRIGHT FREE AND CREATIVE COMMONS:
Resources are available in the public domain that are identified as copyright free or that fall under licenses from Creative Commons. Public domain is a term used for works that are not protected by copyright law. If an image is in the public domain then you are allowed to use it—to copy it, to manipulate it and to distribute it. Works identified as Creative Commons allow varying degrees of use. In this case, the authors decide how you can use their images.
