SAFETY DATA SHEET

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product trade name(s): Grolleg Lump
Common Name(s): Kaolinitic Clay, Kaolin, China Clay, Hydrous Aluminum Silicate
Chemical Formula: Al₂Si₂O₅(OH)₄
CAS Number: 1332-58-7
Physical Form: Light gray to white solid

Recommended Uses:
Non-exhaustive list: Ceramics, ceramic glazes, refractories, fiberglass compositions, industrial filler, extender, for paper, rubber, plastics, caulks/adhesives, pesticides, sorbents, catalyst supports

Restrictions on Use:
Food ingredient, cosmetic ingredient

Manufacturer’s Name & Address:
Imerys Minerals Ltd
Par Moor Centre
Par Moor Road
Par, Cornwall England PL24 2SQ

Emergency Telephone:
For Chemical Emergency Call CHEMTREC (24 hours): 1-800-424-9300
(US, Canada, Puerto Rico, Virgin Islands)
1-703-527-3887 (Outside Above Area) collect calls accepted

**SECTION 4: FIRST AID MEASURES**

**Inhalation**
If adverse effects occur, get immediate medical attention. If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Give artificial respiration if needed.

**Skin**
Wash immediately with soap and water. Get medical attention if irritation develops or persists.

**Eyes**
Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

**Ingestion**
DO NOT induce vomiting. If swallowed, drink plenty of water, do NOT induce vomiting. Never make an unconscious person vomit or drink fluids. Get medical attention.

**Symptoms: Immediate**
eye irritation, skin irritation, respiratory tract irritation

**Symptoms: Delayed**
gastrointestinal effects

**SECTION 5: FIREFIGHTING MEASURES**

**Flammable Properties**
Product is non-flammable.
Use extinguishing agents appropriate for surrounding fire.

**Unsuitable Extinguishing Media**
None known.

**Protective Equipment and Precautions for Firefighters**
No hazard is expected from the normal use of this product.

**Fire Fighting Measures**
No hazard expected

**NFPA 704M Hazard Classification:**
Health: 1  Flammable: 0  Reactivity: 0

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**Personal Precautions**
Keep unnecessary people away, isolate hazard area and deny entry. Wet material is slippery under foot.
Wear personal protective clothing and equipment, see Section 8.

**Environmental Precautions**
Avoid release to the environment.

**Cleanup Methods**
Collect spilled material in appropriate container for reuse or disposal.

**SECTION 7: HANDLING AND STORAGE**

**Precautions for Safe Handling**
Avoid dust generation and accumulation. Do not use in poorly ventilated or confined spaces. Do not taste or swallow.
Avoid inhalation or contact. Wash thoroughly after handling.

**Conditions for Safe Storage**
Store in a cool, dry place. Store in a well-ventilated area.
SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines:
Follow standard occupational hygiene control methods and procedures. Use an approved respirator if exposure limits are exceeded or if exposure limits are limits are exceeded or if irritation develops or persists.

Component Exposure Limits:

<table>
<thead>
<tr>

<td>15 mg/m³ (Total)</td>
<td>2 mg/m³ (Respirable)</td>
</tr>
<tr>
<td>Quartz - Crystalline Silica</td>
<td>&lt;1%</td>
<td>14808-60-7</td>
<td>0.1mg/m³ (Respirable Fraction)</td>
<td>0.025 mg/m³ (Respirable Fraction)</td>
</tr>
</tbody>
</table>

* Unless otherwise noted, all PEL and TLV are reported as 8 hour time weighted average (TWA).

Component Analysis
There are no biological limit values for any of this product's components.

Engineering Controls
Ventilation: Use exhaust ventilation, if required, to maintain dust concentration below recommended exposure limits.

PERSONAL PROTECTIVE EQUIPMENT
Respiratory Protection: Where there is potential for airborne exposure, use of a MSHA/NIOSH or OSHA/NIOSH approved respirator is recommended.
Eyes/Face: Wear side shield safety glasses or chemical resistant safety goggles.
Glove Recommendation: Rubber gloves are recommended for prolonged exposure.
Protective Clothing: Wear appropriate chemical resistant clothing. Contaminated clothing should be removed and laundered before reuse.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Solid Lump
Physical Form: lump
Appearance: white to off white solid
Color: white to gray
Odor: earthy odor
Odor Threshold: Not applicable
pH: 3-7 (aqueous solution)
Melting Point: > 1500°C
Boiling Point: Not applicable
Flash Point: Will not ignite
Decomposition: loses crystalline water at > 500°C (930°F)
Evaporation Rate: Not applicable
Vapor Pressure: Not applicable
Evaporation Rate: Not applicable
Density: Not applicable
Vapor Density (air = 1): Not applicable
Water Solubility: None
Specific Gravity (water = 1): ~2.6 gm/cc
Auto Ignition: Will not ignite
Coef> Water/Oil Dist: Not applicable
Flow Point: Not applicable
Viscosity: Not applicable
VOC: None
Sublimation Point: Not applicable
SECTION 10: STABILITY AND REACTIVITY

Reactivity:
No reactive hazard is expected.

Chemical Stability:
Stable at normal temperatures and pressure

Possibility of Hazardous Reactions:
Will not oxidize or polymerize.

Conditions to avoid:
None known.

Materials to Avoid (Incompatibilities):
None known.

Decomposition Products:
When exposed to high temperatures, free quartz can change crystal structure to form tridymite (above 870°C) or cristobalite (above 1470°C) which have greater health hazards than quartz.  (Tridymite and cristobalite (TWA-TLV) =0.025 mg/m³.)

SAFETY DATA SHEET

SECTION 11: TOXICOLOGICAL INFORMATION

Primary Route of Exposure: Skin, Eye Contact, Inhalation and Ingestion

Acute Health Hazards:
Eye contact may cause mechanical irritation.
Skin contact may aggravate existing dermatitis.
Inhalation from prolonged and continuous exposure to excessive quantities of dust may aggravate existing asthmatic or respiratory conditions.

Acute and Chronic Toxicity
May cause eye irritation, skin irritation, respiratory tract irritation, and gastrointestinal tract irritation.  May cause damage to respiratory tract through prolonged or repeated exposure.

Occupationally inhaled kaolin produced pulmonary fibrosis with sites of action being the lung, the lymph nodes and the hilus.  Kaolin when taken orally over a long period of time can cause granulomas of the stomach.

Exposure to quartz (the most stable and common form of crystalline silica) is responsible for the majority of clinically diagnosed silicosis.  Silicosis is a fibronodular lung disease that occurs after occupational exposure to crystalline silica for 5 years or longer.  Inhalation of quartz dusts may cause shortness of breath, limitation of chest expansion, dry cough, and a lessened capacity for work.  Individuals with a pre-existing disease in, or a history of ailments involving the skin or respiratory tract, are at greater risk for developing adverse health effects when exposed to this material.

In humans, chronic intermittent exposure to quartz caused pulmonary fibrosis, cough, and difficulty breathing.  Overexposure to crystalline silica may cause silicosis, a form of disabling, progressive, and sometimes fatal pulmonary fibrosis characterized by the presence of typical nodulation in the lungs.  Tuberculosis frequently complicates silicosis and the risk for tuberculosis is also increased in workers exposed to silica who have no radiographic evidence of silicosis.  Crystalline silica can cause silicotic lesions in such organs as the liver, spleen and bone marrow.  In humans, a causal relationship exists between exposure to crystalline silica and the development of autoimmune diseases.  In multi-dose studies with animals, long term inhalation of quartz affected the lungs, endocrine system, immune system and blood.

This product contains quartz (respirable) as an impurity.  Prolonged and/or massive exposure to respirable crystalline silica-containing dust may cause silicosis, a nodular pulmonary fibrosis caused by deposition in the lungs of fine respirable particles of crystalline silica.  In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans.  However it pointed out that not all industrial circumstances, nor all crystalline silica types, were to be incriminated. (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibers, 1997, Vol. 68, IARC, Lyon, France.)
Component Analysis - LD50/LC50
The components of this material have been reviewed in various sources and the following selected endpoints are published:

Quartz - Crystalline Silica (14808-60-7)
Oral LD50 Rat 500 mg/kg

Irritation/Corrosivity Data
May cause eye irritation, skin irritation, respiratory tract irritation, and gastrointestinal tract irritation.

Respiratory Sensitizer
No test data available

Dermal Sensitizer
No test data available

Carcinogenicity
Component Carcinogenicity

Kaolin - CAS N° 1332-58-7
ACGIH: A4 - Not Classifiable as a Human Carcinogen

Quartz - Crystalline Silica - CAS N° 14808-60-7
ACGIH: A2 - Suspected Human Carcinogen
IARC: Group 1 - Carcinogenic to humans

Mutagenic Data
No information available

Reproductive Effects Data
No information available

Specific Organ Toxicity - Single Exposure
Target organs include ears, skin, respiratory system, and gastrointestinal tract.

Specific Organ Toxicity - Repeated Exposure
Causes damage to eyes, skin, respiratory system, and gastrointestinal tract through prolonged or repeated exposure.

Aspiration Hazard
No data available

Medical Conditions Aggravated by Exposure
Individuals with pre-existing eye disorders, skin disorders, respiratory disorders and/or gastrointestinal disorders may have increased
SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity
No information available for the product

Component Analysis - Aquatic Toxicity
Acute Toxicity - fish
\[ \text{LC}_{50}, \text{96 hours}: > 1000 \text{mg/l, Fish} \]
Acute Toxicity - aquatic invertebrates
\[ \text{EC}_{50}, > 48 \text{hours}: 100 \text{mg/l, Daphnia magna} \]
Acute Toxicity - aquatic plants
\[ \text{IC}_{50}, > 72 \text{hours}: 100 \text{mg/l, Algae} \]

Bioaccumulation
No information available for the product

Bioconcentration
This material is not believed to bioconcentrate

Biodegradation
This product is made from a naturally occurring, abundant, innocuous mineral

Persistence
This product is made from a naturally occurring, abundant, innocuous mineral

Mobility in Soil:
This product is insoluble in water

Results of PBT and vPvB Assessment
Not relevant

Other Toxicity
May affect turbidity if discharged in large quantities to lakes, streams or sewers.

SECTION 13: DISPOSAL CONSIDERATIONS

Non-hazardous waste - RCRA (40 CFR 261)
Dispose of waste materials in accordance with all local, state, and Federal requirements.
This product may not be disposed of in waterways or sewers.

SECTION 14: TRANSPORT INFORMATION

EPA Waste Number: Not regulated.
Transport Hazard Class(es) Not required.
DOT Classification: Not regulated.
Packing Not required.
IMO Classification: Not regulated.
Environmental Hazards Not required.
Internal UN: Not regulated.
Transport in Bulk Not required.
IMDG Code: This product is not considered to be a marine pollutant.
**SECTION 15: REGULATORY INFORMATION**

**SARA Title III Section 302 Extremely Hazardous Substances:** This product does not contain extremely hazardous subject to the reporting requirements of Section 302 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 355.

**SARA Title III Section 311 and 312 Health and Physical Hazard Categories per 40 CFR 370.2:**

<table>
<thead>
<tr>
<th>Hazard Category</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Immediate Fire</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Delayed Fire</td>

</tr>
</tbody>
</table>

**SARA Section 313 Notification:** This product does not contain toxic chemicals subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

**TSCA:** Product is listed in Initial Inventory, Vol. 1, Appendix A, CAS No. 1332-58-7

**FDA:** Kaolin is generally recognized as safe (GRAS) under the FDA in accordance with 21 CFR 186.1256. Additionally, kaolin is established as a component of the uncoated or coated food contact surface of paper and paperboard in accordance with 21 CFR 176.170 (aqueous and fatty foods) and CFR 176.180 (dry foods).

**CERCLA:** Kaolin is not a CERCLA listed hazardous substance.

**California Proposition 65:** WARNING: This product may also contain extremely small amounts of one or more naturally-occurring materials known to the State of California to cause cancer, birth defects, or other reproductive harm.

**NJ Special Health Hazardous Substances List [4]:** RTK Hazardous Substance List; Substance number 4016.

**PA Special Hazardous Substances List:** Regulated under PA Code Chapter 323.

**Stockholm Convention:** This product is not subject to the Stockholm Convention.

**Montreal Protocol:** This product is not subject to the Montreal Protocol.

**Rotterdam Convention:** This product is not subject to the Rotterdam Convention.

**National Inventories:**

- **DSL (Canada):** Listed
- **NDSL (Canada):** Not Listed
- **PICCS (Philippines):** Listed
- **KECL (Korea):** Listed
- **ENCS (MITI) (Japan):** Listed
- **AICS (Australia):** Listed
- **IECSC (China):** Listed
- **EINECS (Europe):** Listed

**REACH Status:** Exempt (Annex v.7). Product is a naturally occurring mineral.
SECTION 16: OTHER INFORMATION

Training
Workers must be informed of the presence of crystalline silica and trained in the proper use and handling of this product as required under applicable regulations.
