BEYOND
Life at an intersection.

Waterloo is a place of opportunity. A place to dream up new ideas and bring them to life. It’s a place to explore, experiment, and experience new things as you decide what you want to do, where you want to go, and how you want to impact the world.

At Waterloo, you’re not bound by traditional conventions or expectations. Around here, innovation reigns. We’ll encourage you to take risks and challenge the status quo, to launch startups and shatter glass ceilings. Whether you volunteer over Reading Week, write a best-selling book, or test drive a new career in co-op, we want you to go Beyond Ideas.

Where will you go from here?
CANADA’S MOST INNOVATIVE UNIVERSITY

Discover limitless potential.

For more than 60 years, we’ve been challenging conventions and turning heads. We took innovation beyond a buzzword and made it our identity.

We set the bar for co-op in Canada because we saw a need for experienced, university-educated graduates. We encourage dreamers and entrepreneurs because we believe that cultivating creativity is key to global progress. We value diversity and inclusivity because we know we’re better, brighter, and stronger together. Some people call that innovative, but that’s just who we are.

Be yourself, work hard, and reap the rewards. We’ll do the same.

CITY OF DREAMERS

Prepare to be charmed.

The City of Waterloo gives you the best of two worlds. You have all the perks of a big city – transportation, culture, and nightlife – with the charm and familiarity of a small town. Plus, you and your friends are only a short bus ride from Toronto, Canada’s entertainment hub and home to some of our largest co-op employers.

STARTUP PARADISE

Waterloo is an entrepreneur’s playground. Everything you need to kick-start a new business is within a few minutes of campus. Even if you don’t see yourself as the next startup sensation, living in one of the world’s top startup hubs gives you the scoop on new trends and technologies and puts you at the centre of a vibrant job market.

A LITTLE BIT OF EVERYTHING

Attend any of the region’s 1,200+ festivals and events or enjoy the ever-growing restaurant and food truck scene. Nature lovers can explore nearby trails and conservation areas where you can camp, hike, fish, or even try river tubing! For a sneak peek of Waterloo life, check out #KWAawesome.

GETTING AROUND

Like a triple-layer cake, the Region of Waterloo is made up of three cities, each with its own flavour and attractions. Use your student card to ride Grand River Transit and enjoy easy access to all the Region has to offer, including downtown Kitchener’s tech hub, Cambridge’s riverside architecture, or uptown Waterloo’s distinct trend-setting scene. Beyond transit, there are lots of ways to get around – bike-share, car-share, electric scooters, shuttle services, etc. If it’s got wheels, we’ve got that.
Uptown Waterloo, home to dozens of restaurants, shops, cafés, music venues, clubs, and more, is a 20-minute walk (or a quick bus ride!) from campus.

601,220 people call the Region of Waterloo home

TOP 15 startup ecosystems in the world (Startup Genome, 2019)

115 KM to Toronto. Home of the CN Tower, Toronto Raptors, and Drake. You know the one.
CO-OP

Experience is everything.

Forget everything you thought you knew about student internships. Our co-op program adds up to two years of paid work experience to your résumé. With access to North America’s largest selection of co-op jobs, you’ll be able to test drive exciting careers and build a world-class professional network.

UNLIMITED CHOICES

We’ve all heard that variety is the spice of life. And for Kylie, co-op delivered just that. She’s provided personalized care to individuals living with disabilities, planned social events for students, and managed the office for a startup.

Along the way, she’s discovered what she does and doesn’t like doing, the importance of professional communication and flexibility, and the impact of a great mentor. Now, Kylie’s a “Swiss Army knife” with a can-do attitude who can’t wait for what’s next.

#BEYONDIDEAS
#SOMANYOPTIONS
#RESUMEBUILDING

7,000+ co-op employers in more than 60 countries
HOW CO-OP WORKS
In co-op programs, you’ll alternate school and work terms, typically spending four months as a full-time student followed by four months as a full-time, paid employee building relevant skills within a work environment. Before each work term, you’ll go through an application process: you’ll update your résumé, practice your interview responses, and meet with prospective employers. Students have a 98.5 per cent co-op employment rate, thanks to our professional development training, career resources, student advisors, and students’ own initiative!

Once on the job, you’ll learn to adapt to your new surroundings and co-workers and develop a fresh appreciation for your classroom studies. As you progress through your work terms, your résumé – and confidence – will grow, preparing you to launch your career.

EXPERIENCE PAYS OFF
Professional experience makes a difference to your job prospects and starting salary. After only two years in the workforce, 88 per cent of our co-op grads work in a field related to their program and 79 per cent earn a salary of $50,000 or more (compared to only 39 per cent of other Ontario grads).

EXPERIENCE FOR EVERYONE
If you’re leaning toward a program without co-op or looking for even more ways to get hands-on experience, take advantage of programs that will help you build a standout résumé.

EDGE CERTIFICATE
Develop professional skills, explore career options, and learn how to market yourself in this program offered exclusively to students not in co-op programs.

GLOBAL EXPERIENCE CERTIFICATE
Expand your world view and knowledge of global issues by earning a Global Experience Certificate.

EXCHANGE AND STUDY ABROAD
Satisfy your wanderlust and your course requirements through 100+ exchange and study-abroad opportunities.

PROFESSIONAL DEVELOPMENT PROGRAM
Learn the skills that will help you land jobs – and quickly climb the corporate ladder – in our free professional development courses.

STUDENT LEADERSHIP PROGRAM
Explore and enhance your leadership abilities and earn an e-certificate in this series of 12 workshops.

Fall term: September to December
Winter term: January to April
Spring term: May to August

#1 in Canada for preparing career-ready graduates (Maclean’s, 2018)

$42,000–$90,000+
potential total co-op earnings over five terms
CAREER SUCCESS

Write your own ticket.

No school can guarantee your success after graduation. But we come really close. While other university alumni try to break into the work world, you’ll be focused on your next opportunity.

RESIDENCE LIFE

100% residence guarantee for all new students

UNLIMITED DOWNLOADS over residence Internet (legal downloads, of course)

24/7 controlled access to all residence buildings and rooms to keep you safe
Your new social network.

Living in residence puts you in the middle of the action. Get the full university experience while making friends and memories that will last long after graduation.

CHOOSING A RESIDENCE
Your home away from home should suit your budget and personality. Choose from Waterloo Residences’ traditional single or double rooms or suite-style apartments, or opt to live at one of our on-campus University Colleges: Conrad Grebel University College, Renison University College, St. Jerome’s University, and St. Paul’s University College. All nine first-year residences offer personal and academic support to help you adjust to living away from home, including Living-Learning Communities, residence dons, and tutors.

FOOD AND MEAL PLANS
Enjoy fresh meals and snacks from 38 on-campus food vendors. You’ll find halal, kosher, and vegan options, plus custom creations for anyone with food allergies or other dietary restrictions. To save on the cost of food, purchase a campus meal plan. The bigger the plan, the deeper the discounts.

LIVING-LEARNING COMMUNITIES
Living-Learning Communities (LLCs) group students with common interests together within our larger residence communities. Live with peers from your program, students who share your passion for social justice, or other student athletes. You can apply to join an LLC when you apply to live in residence.

WHO’S DON?
Residence life dons are upper-year students who live and work in the residences to facilitate an inclusive and supportive environment. They organize events, monitor the buildings, and offer support around the clock. Think of it like having fun, caring older siblings in residence with you.

95% of students who chose residence in first year returned for their second year of studies

Your residence room is a blank canvas waiting for you to achieve your roomgoals. It’s got a bed, a desk, a closet, a mirror, and so much more, but it’s the personality you bring to the space that makes it feel like home. Pack your movie posters, your favourite pillow, your pet photos – we can’t wait to welcome you home.
Prabhjeet
Health Studies, Co-op
Faculty of Applied Health Sciences

**IN HER ELEMENT**

Volunteering for the Substance Use Team sparked Prabhjeet’s passion for raising the awareness of drug use among teens. Through on-campus activities she generates discussion about knowing yourself, asking for help, and accessing the supports you need. “I’m so thankful that Waterloo helped me find this new interest and is creating a safe space to talk about mental health.”

Prabhjeet’s self-care includes dance, running, music, and friends (...and snuggling with therapy dogs each time they’re on campus).

#BeyondIdeas  #SelfCare  #Letstalk
We’re all in this together.

University can be rewarding and challenging. Our campus support services give you the resources and personal care you need to get the most out of your university experience.

**STRENGTH IN DIVERSITY**
Whatever your ethnicity, religion, gender, or sexual identity, you’re welcome here.

*RACIAL ADVOCACY FOR INCLUSION, SOLIDARITY, AND EQUITY*
RAISE seeks to dismantle systemic barriers that limit the success and affect the experiences of students by addressing the impacts of racism and xenophobia in our community.

*THE GLOW CENTRE FOR SEXUAL AND GENDER DIVERSITY*
The Glow Centre promotes a healthy attitude toward all sexual orientations and gender identities by offering confidential peer support, discussion groups, social events, and resources.

**WATERLOO INDIGENOUS STUDENT CENTRE**
This centre celebrates the values and rights of Indigenous peoples and cultures. It facilitates the sharing of Indigenous knowledge with relevant information and support.

**WATERLOO CHAPLAINS**
Waterloo has chaplains representing 11 different faith traditions. They can provide you with support and help as you explore spiritual questions.

**STUDENT SUCCESS OFFICE**
Supporting you from Orientation right through to convocation, the Student Success Office will help you with academics and personal development. Services include academic skills and leadership workshops, peer success coaching, and study-abroad and exchange programs.

**ACCESSABILITY SERVICES**
AccessAbility Services ensures everyone has equal access to education. They’ll design and facilitate academic accommodation plans for you if you have permanent or temporary disabilities.

**CAMPUS WELLNESS**
We offer extensive services to help keep your body and mind healthy, and you at the top of your game.

**HEALTH SERVICES**
The on-campus Student Medical Clinic offers a range of services, from providing prescriptions and immunizations to addressing your mental and sexual health concerns. Meet with doctors, nurses, mental health specialists, and registered dietitians.

**COUNSELLING SERVICES**
Counselling Services is dedicated to supporting your personal, social, and academic experience at Waterloo. It offers one-on-one counselling, group therapy, plus coping skills seminars and workshops to support your mental health.

**UW MATES**
MATES (Mentor Assistance Through Education and Support) is a one-to-one student peer support program providing academic, personal, and mental health supports through workshops, appointments, and drop-in sessions across campus.

* Service provided by Waterloo undergraduate student association.
We know how to have fun.

Our campus is packed with opportunities to get involved no matter how unique your interests. Between our clubs, associations, societies, and events, there’s something for everyone. For a behind-the-scenes look at student life, check out our Instagram stories every Thursday (@uofwaterloo).

YOUR STUDENT ASSOCIATION
The Waterloo undergraduate student association is your student voice on campus and the centre of student life. As an undergrad, you’re automatically a member, which means access to over 200 clubs, 12 student-run services, student government, and hundreds of job and volunteer opportunities.

CLUBS AND SOCIETIES
There’s no excuse for boredom on campus. We have more than 200 clubs, societies, and associations for you to explore, like Because I Am A Girl, Best Buddies, Biomedical Science Student Association, Black Association for Student Expression, and Breakers dance group – and those are just the B’s. If you don’t see one that fits your exact interest, start your own club! There’s always room to expand the roster.

STUDENT EVENTS
Clear your calendar and check out the events happening around campus. To get you started, there’s Orientation, Welcome Week, and Black and Gold Day. Add in trivia nights, concerts, community festivals, and faculty events, and your social calendar will fill up quickly.

38 on-campus eateries to grab lunch with a friend
211 academic, charitable, social, religious, political, sports, and cultural student-run clubs to join
200+ students employed by your student association in part-time and co-op positions
ATHLETICS AND RECREATION

We take wellness seriously.

A healthy mind and a healthy body go hand in hand. That’s why Warrior Recreation wants to help you stay active as part of a healthy lifestyle. Take advantage of one of Canada’s most diverse campus recreation programs with over 250 fitness programs to choose from.

WARRIOR RECREATION

Taking time to exercise won’t just help your physical well-being, it can also help your mental health and academic performance, so get moving! Waterloo is home to one of the largest recreation programs in the country, so there are always tons of ways to get involved. Join one of the intramural leagues kicking off in September, check out the 25+ sports clubs, or register for our Shoe Tag program to access over 30 weekly fitness and wellness classes.

VARSITY ATHLETICS

Whether you want to make the cut or cheer from the stands, you’ll be happy to know we’re home to 32 competitive varsity programs. In our 60-year history, our Warriors have brought home 101 provincial championships and eight national titles, giving us even more reasons to take pride in our black and gold. Get in on the excitement and watch our teams in action; Waterloo students get free admission to all regular season home games!

VARSITY RECRUITMENT

If you’re interested in joining one of our varsity programs or have questions for one of the coaches, visit our recruitment website to start the conversation: gowarriorsgo.ca/recruitment.

uwaterloo.ca/future/sports

Meet our school mascot, King Warrior. He makes appearances at special events and games. Make sure you get a selfie!
ATHLETICS FACILITIES
Stay active in our two major sports facilities: the Physical Activities Complex (PAC) and Columbia Icefield (CIF). Between the two, you’ll have access to a pool, ice rink, gyms, squash courts, studios, playing fields, and more. Plus, you’ll be among the first to enjoy our new PAC expansion and CIF Field House.

32 varsity teams

2,500+ fitness classes each year, including power yoga, cycling, and Pilates

FREE entry to Waterloo Warriors home games with your Waterloo ID
More than business.

Connect with others who are fascinated by the way business and money shape our world, and who want to test their problem-solving, business savvy, and technical skills as they build a better tomorrow.

ENDLESS OPPORTUNITIES
Our programs were created in collaboration with employers to give you an edge in the marketplace. We prepare you for the world of business and give you the freedom to explore other passions that will help you define your industry niche and expand your portfolio. You’ll find yourself among self-starters, working in paid co-op positions with top business leaders, and learning from a community of mentors.

NEARLY 25% of Waterloo students are enrolled in business-related majors, minors, and program options. (Business Working Group, 2017)
EYE ON THE BALL

Some students value sleep and studying above all. Varun thrives on chaos. An accounting and finance major, he found the right balance, even playing for the varsity baseball team. “School is about more than studying. It’s balancing your physical and mental well-being, building friendships, and pushing yourself.”

His hard work and dedication have already paid off in the form of a job offer from EY in Toronto. “Getting a job like this is the entire reason I’ve worked so hard these past few years.”

TRUE CALLING

For Esther, heading to work has taught her about mental health. Through her co-op experiences, she’s found her passion and seen the role therapeutic recreation can play in a person’s life.

“Building relationships with people who are experiencing mental health challenges has taught me about wellness and the role of therapy. My profs will simulate what it’s like to work in the field, with case studies and group projects, but it’s through real-world exposure that I’ve gained my deepest insights.”

OLA
HONOURS ARTS AND BUSINESS, CO-OP
POLITICAL SCIENCE MAJOR

WORLDLY WARRIOR

Why arts? Ask Ola, an international student majoring in Political Science with minors in Economics and International Trade, and she’ll tell you about systems and sustainability. “My goal is to affect change. The best way to do this is through political activism, for example, helping to draft laws that support countries and communities to become more self-reliant.”

At Waterloo, Ola is driving change beyond the classroom, through her co-op terms and as president of the Black Association for Student Expression.

#BEYONDIDEAS  #RAISEYOURVOICE  #BETHECHANGE

uwaterloo.ca/future/arts
WE RUN THIS

Who runs the world? Girls. Or is it engineers? Zahra argues it’s the combination that counts. A proud voice for women in science, technology, engineering, and mathematics (STEM), Zahra advocates that gender diversity brings fresh perspectives and ideas to the traditionally male-dominated field. The trick is helping women see their own potential.

“The problem is that we put ourselves down.” She challenges all high school students to be confident in their abilities, especially women studying math and science: “After all, if men can do it, why can’t we?”

NURTURE YOUR NATURE

Waterloo is renowned for its entrepreneurial spirit. It’s the reason Mila chose Planning at Waterloo. She knew it could be the place for her to discover how to dream big.

“What struck me most was the collaborative community here.” This environment allowed her team to design a battery that stores the energy created when pedaling a bike, which earned them second place in the school’s prestigious Jack Rosen Competition for sustainable innovation. “It’s incredible what can happen when you’re given the resources, support, and encouragement to develop ideas.”

(QS World Rankings, 2019)

$13,608 average work term earnings for mathematics students

70% of the top careers in 2019 start with a mathematics or computer science degree (CareerCast)
You can’t limit creativity, and you certainly can’t limit Clare, a Schulich Leader Scholarship nominee, YouTube producer, scriptwriter, and aspiring mathematician. Clare doesn’t fit into a neat little box. She takes advantage of opportunities across campus to get involved and express herself.

During class, Clare explores “creative mathematics” in Combinatorics and Optimization. The rest of the time, she makes videos for her friends and lends her creative superpowers to FASS, Waterloo’s amateur theatre company, as a scriptwriter. Her advice for nervous newcomers: “leave your comfort zone! Explore new clubs and meet people! You’ll have more fun.”
GET A STRONG REACTION

Faculty of Science

Use your curiosity, ingenuity, and passion for knowledge to discover everything from atoms and cells to the vast expanses of space in our most research-centric faculty. Learn to think critically, experiment confidently, and engage intelligently through hands-on labs, projects, and co-op terms. Participate in groundbreaking research or launch a startup through Velocity Science. Whichever path you choose to explore, your science degree will give you the foundation you need to succeed.
When Carson chose his major in Earth Sciences, he imagined spending time in the field, studying rocks, and bonding with nature. So when he landed a summer job in Nunavut charting rocks and living in a tent, he knew he’d made the right choice.

“It was like nothing I’d ever experienced, and yet it was exactly how I imagined myself,” says Carson. “Solving mysteries within the Earth fascinates me, and there’s still so much we don’t understand about the world around us. Geology is like a giant puzzle with many possible outcomes. I love that.”

PROGRAM DETAILS

The finer points.

Use the program descriptions together with the admission charts to choose a program that suits your interests and academic strengths. Every program has minimum course and grade requirements you’ll need to meet, so take your time, do your research, and always check the asterisks!

A / PAGE 33
- Accounting and Financial Management
- Actuarial Science
- Anthropology
- Applied Mathematics
- Architectural Engineering
- Architecture

B / PAGE 33
- Biochemistry
- Biology
- Biomedical Engineering
- Biomedical Sciences
- Biostatistics
- Biotechnology/Chartered Professional Accountancy
- Business Administration (Laurier) and Computer Science (Waterloo) Double Degree
- Business Administration (Laurier) and Mathematics (Waterloo) Double Degree

C / PAGE 34
- Chemical Engineering
- Chemistry
- Civil Engineering
- Classical Studies
- Combinatorics and Optimization
- Computational Mathematics
- Computer Engineering
- Computer Science
- Computing and Financial Management

D / PAGE 34
- Data Science

E / PAGES 34-35
- Earth Sciences
- Economics
- Electrical Engineering
- English
- Environment and Business
- Environment, Resources and Sustainability
- Environmental Engineering
- Environmental Science

F / PAGE 35
- Fine Arts
- French

G / PAGE 35
- Gender and Social Justice
- Geography and Aviation
- Geography and Environmental Management
- Geological Engineering
- Geomatics
- German
- Global Business and Digital Arts

H / PAGE 35-36
- Health Studies
- History
- Honours Arts
- Honours Arts and Business
- Honours Science

I / PAGE 36
- Information Technology Management
- International Development

K / PAGE 36
- Kinesiology
- Knowledge Integration

L / PAGE 36
- Legal Studies
- Life Physics
- Life Sciences

M / PAGES 36-37
- Management Engineering
- Materials and Nanosciences
- Mathematical Economics
- Mathematical Finance
- Mathematical Optimization
- Mathematical Physics (BMath)
- Mathematical Physics (BSc)
- Mathematics
- Mathematics/Business Administration
- Mathematics/Chartered Professional Accountancy
- Mathematics/Financial Analysis and Risk Management
- Mathematics/Teaching
- Mechanical Engineering
- Mechatronics Engineering
- Medicinal Chemistry
- Medieval Studies
- Music

N / PAGE 37
- Nanotechnology Engineering

O / PAGE 37
- Optometry

P / PAGE 38
- Peace and Conflict Studies
- Pharmacy
- Philosophy
- Physical Sciences
- Physics
- Physics and Astronomy
- Planning
- Political Science
- Psychology (BA)
- Psychology (BSc)
- Public Health
- Pure Mathematics

R / PAGE 38
- Recreation and Leisure Studies
- Recreation and Sport Business
- Religious Studies

S / PAGE 39
- Science and Aviation
- Science and Business
- Sexuality, Marriage, and Family Studies
- Social Development Studies
- Social Work
- Sociology
- Software Engineering
- Spanish
- Speech Communication
- Statistics
- Systems Design Engineering

T / PAGE 39
- Theatre and Performance
- Therapeutic Recreation
- Tourism Development
ACCOUNTING AND FINANCIAL MANAGEMENT / FACULTY OF ARTS AND SCHOOL OF ACCOUNTING AND FINANCE  
(E, Bachelor of Accounting and Financial Management) Co-op only  
Two areas of expertise, one serious career edge. Study accounting, finance, and business, and how they interrelate. Extend your learning through co-op work terms and extracurricular opportunities while working toward a Chartered Professional Accountant (CPA) and/or Chartered Financial Analyst (CFA) designation. Questions? Email afm@uwaterloo.ca.

Accountant, auditor, investment banker

ACTUARIAL SCIENCE / FACULTY OF MATHEMATICS  
(M, Bachelor of Mathematics) Co-op available  
Predict the future – without a crystal ball. In one of North America’s top-ranked actuarial science programs, you’ll use math and statistics to predict uncertain events such as stock market performance or an insurance company’s payouts. Prepare for your professional actuarial designation with courses in finance, risk theory, pensions mathematics, and more.

Corporate Finance, Applied Probability, Introduction to Investments

Actuarial analyst, consultant, financial analyst

ANTHROPOLOGY / FACULTY OF ARTS  
(M, Bachelor of Arts) Co-op available  
From Neanderthals to Millennials, discover what it means to be human. Explore evolution and early societies, or fight contemporary issues such as violence and media. Whether you’re examining fossils and bones in the lab or conducting fieldwork in the Mediterranean, the Arctic, or Africa, you’ll learn more about what makes our species tick.

Biological Anthropology, Skeletal Biology and Forensics, Archaeological Field School

Archaeologist, curator of natural property, heritage planner

APPLIED MATHEMATICS / FACULTY OF MATHEMATICS  
(M, Bachelor of Mathematics) Co-op available  
Use your math skills to push boundaries. Apply your understanding of mathematical concepts, computer science, and physics to complex communication and control-system issues. Round out your degree with engineering electives, or specialize in biology, economics, earth sciences, physics, or scientific computation.

Applied Complex Analysis, Introduction to Computational Mathematics, Introduction to Differential Equations

Researcher, software developer, analyst

ARCHITECTURAL ENGINEERING / FACULTY OF ENGINEERING  
(E, Bachelor of Applied Science) Co-op only  
Build better buildings (and a bright career in the process). In Waterloo’s newest engineering program, you’ll cover the science of good building design, including mechanics, building systems, structural analysis, and structural design – and round it out with courses in aesthetics, culture, and other design elements at our world-class School of Architecture.

Structural Design Studio, History of the Built Environment, Architectural Graphics Studio, Electrical Circuits and Instrumentation

Building design consultant, project manager, designer, construction consultant

ARCHITECTURE / SCHOOL OF ARCHITECTURE  
(E, Bachelor of Architectural Studies) Co-op only  
Create the blueprints for a great career in one of North America’s top schools of architecture. From day one, you’ll have your own dedicated studio space to develop your ideas as you explore the relationship between architecture, the environment, and society. In fourth year, study at our studio in Rome. Questions? Email architecture@uwaterloo.ca.

Architect, project manager, designer, architectural assistant

BIOCHEMISTRY / FACULTY OF SCIENCE  
(M, Bachelor of Science) Co-op available  
Play with the building blocks of life. Combine classroom courses in biology and chemistry with extensive lab work (where you’ll learn things like chromatography, electrophoresis, and protein analysis). You’ll graduate ready for careers in forensic sciences, medical diagnostics, agriculture, biotechnology, and more.

Fundamentals of Metabolism, Analytical Chemistry, Genetics

Biotechnology

Toxicologist, biomaterials researcher, health-care professional

BIOLOGY / FACULTY OF SCIENCE  
(M, Bachelor of Science) Co-op available  
Study life: it’s in your DNA. With more than 80 courses available – including labs and fieldwork – this program gives you lots of opportunity to explore the functioning of living organisms, where they come from, and how they evolve. You can also choose our Bioinformatics option, combining biological studies and computer science.

Fundamentals of Microbiology, Principles of Human Physiology, Diversity of Life

Animal Biology, Biotechnology, Environmental Biology, Microbiology, Molecular Genetics, Plant Biology

Biologist, veterinarian, environmental consultant, physician, pharmacist, optometrist

BIOMEDICAL ENGINEERING / FACULTY OF ENGINEERING  
(E, Bachelor of Applied Science) Co-op only  
Create tomorrow’s life-saving and life-enhancing innovations. In this interdisciplinary program, you’ll study engineering principles in biology, mechanics, physics, systems analysis, and design. With plenty of hands-on experience in biological and medical systems, you’ll graduate ready to develop new technology for health care or athletics.

Introduction to Biomedical Design, Engineering Biology, Anatomical Systems Modelling

Research and development of medical devices, biomedical data analysis, product design of sporting equipment

BIOMEDICAL SCIENCES / FACULTY OF SCIENCE  
(M, Bachelor of Science) Regular only  
Paging future doctors – and dentists and chiropractors and other health-care professionals. This flexible program provides the foundation and experience required to succeed in virtually any professional health program in North America. Plus, it gives you room to add a minor or pursue a variety of personal interests to round out your degree.

Human Anatomy, Biology of Human Aging, Cell Biology of Human Disease

Optometrist, pharmacist, physician

BIOSTATISTICS / FACULTY OF MATHEMATICS  
(M, Bachelor of Mathematics) Co-op available  
Fight illness with a healthy dose of data. In Biostatistics, you’ll focus on clinical, public, and population health statistics. You’ll also take specialized upper-year courses, graduating with the strong data-based decision-making skills you need to be part of an effective health-care research team.

Introduction to Medical Statistics, Management Information Systems, Statistical Methods for Life History Analysis

Medical researcher, data analyst, project manager

BIOTECHNOLOGY/CHARTERED PROFESSIONAL ACCOUNTANCY / FACULTY OF SCIENCE AND SCHOOL OF ACCOUNTING AND FINANCE  
(E, Bachelor of Science) Co-op only  
Spreadsheets plus science and paid co-op experience equals career success. This unique program prepares you for professional accountancy and advisory roles in the growing biotech sector. After graduation, earn your Master of Accounting (M.Acc.) degree in only eight months – an optional next step in becoming a Chartered Professional Accountant.

Molecular Biotechnology, Introduction to Managerial Accounting, Accounting Information Systems

Accountant, finance coordinator, analyst

BIOTECHNOLOGY/ECONOMICS / FACULTY OF SCIENCE  
(E, Bachelor of Science) Co-op only  
Earn a science degree with economic punch. In Canada’s only program to integrate biotechnology, economics, and paid co-op work terms, you’ll learn to apply business knowledge to industrial and scientific technologies. Graduate ready to help the world capitalize on biotech breakthroughs, from tumour-fighting immune cells to oil-eating bacteria.

Fermentation Biotechnology, Biostatistics and Experimental Design, Economic Analysis

Economist, biotechnologist, business and customer insights analyst, financial security advisor

BUSINESS ADMINISTRATION (LAURIER) AND COMPUTER SCIENCE (WATERLOO) DOUBLE DEGREE / DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE  
(E, Bachelor of Business Administration and Bachelor of Computer Science) Co-op only  
Combine the worlds of bytes and business – and earn two degrees in five years. In one of the top computer science programs in Canada, you’ll learn about software, algorithms, programming, and the limits of computation. At nearby Wilfrid Laurier University, you’ll study business essentials like brand communication, accounting, and marketing.

Designing Functional Programs, Understanding the Business Environment, Computer Organization and Design

Business analyst, software engineer, application developer

BUSINESS ADMINISTRATION (LAURIER) AND MATHEMATICS (WATERLOO) DOUBLE DEGREE / FACULTY OF MATHEMATICS  
(E, Bachelor of Business Administration and Bachelor of Mathematics) Co-op only  
Five years, two degrees, one serious edge. Combine Waterloo’s strength in mathematics with the business expertise of Wilfrid Laurier University, and earn two prestigious degrees in the time it takes to earn one co-op degree. You’ll graduate from one of Canada’s most technical business programs with analytical and problem-solving skills that will set you apart.

Financial Mathematics, Information Systems Management, Introduction to Optimization

Securities trader, management analyst, corporate strategist
CHEMICAL ENGINEERING / FACULTY OF ENGINEERING  
(E, Bachelor of Applied Science) Co-op only 
Discover how to transform raw materials, while putting your problem solving to the test. You’ll learn to design, implement, and supervise the processes that transform fuel into energy, waste into resources, and raw materials into useful products in almost any industry: biotechnology, pollution control, green fuels, power storage, and more.

Materials Science and Engineering, Bioprocess Engineering, Process Analysis and Design

- Design and construction of pharmaceuticals, manufacturing of microelectronics, process engineering of petrochemicals

CHEMISTRY / FACULTY OF SCIENCE (M, Bachelor of Science) Co-op available
Fire up the Bunsen burners in one of Canada’s top 10 chemistry programs. You’ll learn from leading experts in the industry, work with advanced chemical instrumentation in our labs, and participate in cutting-edge research. This program is accredited by the Canadian Society for Chemistry and the Chemical Institute of Canada.

- Multi-Component Analysis, Structure and Bonding, Introductory Quantum Mechanics
- Bio-based Chemistry, Computational Chemistry (only available in the regular stream of study)
- Analytical chemist, chemistry patents agent, forensic scientist

CIVIL ENGINEERING / FACULTY OF ENGINEERING  
(E, Bachelor of Applied Science) Co-op only 
Make the world your sandbox in Canada’s largest civil engineering program. Learn to design, construct, and manage the infrastructure we all depend on: bridges, highways, dams, pollution-control facilities; and more. Tailor your degree to your specific interests, with specialization options such as transportation, structures, and water resources.

- Engineering and Sustainable Development, Transportation Applications with Structural Design, Geotechnical Engineering
- Design and construction of stadiums and entertainment facilities, implementation of water systems, construction site management

CLASSICAL STUDIES / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Dive into the roots of Western civilization. Gain a deep understanding of history, culture, literature, religion, art, philosophy, and society in ancient Greece and Rome – cultures that continue to shape our thinking and our society today. Take advantage of study-abroad opportunities in the Mediterranean. Language courses are optional.

- Greek Art and Architecture, Astrology and Magic, Roman History
- Project manager, reference librarian, academic manager

COMPUTATIONAL MATHEMATICS / FACULTY OF MATHEMATICS  
(M, Bachelor of Mathematics) Co-op available
Get ready to solve industrial-sized problems. In one of the world’s top schools for math and computer science, learn to analyze data sets and formulate to better understand the world around us. You’ll develop computer modeling skills to tackle mathematical problems found in business, economics, engineering, finance, medicine, and science.

- Data Structures and Data Management, Logic and Computation, Computer Simulation of Complex Systems
- Project manager, enterprise architect, software developer

COMPUTER ENGINEERING / FACULTY OF ENGINEERING  
(E, Bachelor of Applied Science) Co-op only
Why choose? Develop software savvy and hardware know-how. Build and test computer hardware and software in our state-of-the-art labs. You’ll work with everything from smartphones to massive engineered systems in networked environments. Plus, gain valuable work experience in Waterloo Region: a high-tech hub with more than 1,500 technology companies.

- Digital Circuits and Systems, Systems Programming and Concurrency, Computer Networks
- Design of computer or software architecture, manufacturing telecommunication devices, creation of application software

COMPUTER SCIENCE / DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE  
(E or M, Bachelor of Computer Science or Bachelor of Mathematics) Co-op available
Earn a degree that computes. At one of the world’s best schools for computer science, you’ll develop a broad understanding in areas including systems and networks, algorithms, and software engineering. With 70+ computer science courses and loads of options and electives, you’ll have lots of freedom to explore your interests. Questions? Email future-ugrad@cs.uwaterloo.ca.

- Designing Functional Programs, Data Structures and Data Management, The Social Implications of Computing
- Software developer, web developer, project manager

COMPUTING AND FINANCIAL MANAGEMENT / SCHOOL OF ACCOUNTING AND FINANCE AND DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE  
(E, Bachelor of Computing and Financial Management) Co-op only
Develop the know-how, networks, and experience to land a career in computer science or finance – or both. Combine your interdisciplinary studies with six co-op work terms in software development, banking, investments, risk management, or insurance to set yourself apart in a competitive marketplace. Questions? Email cmf@uwaterloo.ca.

- Object-Oriented Software Development, Regression and Forecasting Methods in Finance, Equity Investments
- Software developer, quantitative analyst, investment banking analyst

DATA SCIENCE / DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE  
(M, Bachelor of Computer Science or Bachelor of Mathematics) Co-op available
Make sense of the tsunami of data produced by business, scientific, and social activity. Develop the foundation in computing systems, data analytics, statistics, and machine learning you need to extract meaningful information from data. You’ll graduate with a broad set of tools to help governments and businesses make better decisions.

- Computer Organization and Design, Data Visualization, Data Structures and Data Management
- Data scientist, statistician, business analyst

EARTH SCIENCES / FACULTY OF SCIENCE  
(M, Bachelor of Science) Co-op available
Launch a career that rocks. Explore the world under your feet in close-knit classes and through field experiences led by professors known internationally for their geological and water research. You’ll graduate ready to develop meaningful environmental protection plans, predict natural disasters, advance health standards for water, and more.

- Earth System Science, Petrography, Mineralogy
- Geology, Geophysics, or Hydrogeology
- Hydrogeologist, geologist, geophysicist

ECONOMICS / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
From piggybanks to the World Bank, learn how wealth is produced, distributed, and consumed – and how it shapes society, politics, and culture. You’ll cover the fundamentals of micro- and macro-economics and analyze how these principles play out in a wide range of sectors, including finance, public policy, and international economics.

- Economics of Sport, Business Finance, Environmental Economics
- Ecometrics, Finance, or Public Policy
- Financial planner, marketing research manager, economist, financial analyst, international finance manager

ELECTRICAL ENGINEERING / FACULTY OF ENGINEERING  
(E, Bachelor of Applied Science) Co-op only
Set yourself up for an electrifying future – explore electronic devices, control systems, and digital systems in some of North America’s best electrical engineering student labs. By mastering the design principles required to build the latest technologies in power, information, and energy, you’ll open the door to hundreds of possible careers!

- Digital Circuits and Systems, Electromagnetic Fields and Waves, Embedded Microprocessor Systems
- Product development of telecommunications systems, software quality assurance analysis, electric equipment manufacturing

ENGLISH / FACULTY OF ARTS  
(M, Bachelor of Arts) Co-op available
Go way beyond emojis. Our 150+ undergraduate courses give you all kinds of opportunity to explore the written word. Examine literature, language, and new media while honing your skills as a communicator. Choose to focus your studies in Literature, Literature and Rhetoric, or Rhetoric, Media, and Professional Communication.

- Popular Potter, Game Studies, Global Shakespeare
- Creative Writing, Digital Media Studies, Global Literatures, Technical Writing
- Communications manager, media relations specialist, technical writer, publisher, social media strategist

ENVIRONMENT AND BUSINESS / FACULTY OF ENVIRONMENT  
(E, Bachelor of Environmental Studies) Co-op only
Eco-warrior, meet business mogul. The only program of its kind in Canada, this co-op degree gives you an in-depth knowledge of environmental issues and the business world. Cover everything from stakeholder engagement and industrial ecology to finance, project management, marketing, and more. Then, put it all into practice in co-op work terms.

- International Corporate Responsibility, Green Entrepreneurship, Business Finance
- Sustainability analyst, environmental stewardship manager, environmental policy advisor
ENVIRONMENT, RESOURCES AND SUSTAINABILITY / FACULTY OF ENVIRONMENT (E, Bachelor of Environmental Studies) Co-op available

Become a sustainability superhero. Use insights from the natural, physical, and social sciences to help solve some of the world's biggest environmental challenges -- from water scarcity to pollution to loss of biodiversity. Learn about conserving and restoring ecosystems, and explore issues in environmental politics, policy, and governance.

- Communities and Sustainability
- Environmental and Sustainability Assessment, Ecosystem Assessment
- Terrestrial and wetland biologist, sustainability policy analyst, sustainable energy consultant

ENVIRONMENTAL ENGINEERING / FACULTY OF ENGINEERING (E, Bachelor of Applied Science) Co-op only

Save the planet with a degree from Canada’s largest environmental engineering program. Combine the technical rigour of engineering with a broad education in chemistry, biology, geology, and more. You'll graduate ready to clean up the world’s water, soil, and air pollution -- and to prevent future environmental problems.

- Air Quality Engineering, Environmental and Sustainability Assessment, Environmental Modelling
- Product design for air pollution control systems, process design for water treatment, protection and revitalization of ecosystems

ENVIRONMENTAL SCIENCES / FACULTY OF SCIENCE (E, Bachelor of Science) Co-op available

Earn a science degree. Save the planet. Ranked among the top 10 in Canada, this program gives you a scientist’s perspective of ecological and geological systems. You’ll graduate with the knowledge, creativity, and expertise to create a more sustainable world.

- Organismal and Evolutionary Ecology, Geomorphology and GIS Applications, Applied Wetland Science
- Ecology, Geoscience, or Water Science
- Geoscientist, ecologist, environmental consultant

FINE ARTS / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available

Explore the power of visual communication. Develop a critical understanding of art through painting, drawing, sculpture, printmaking, computer imaging, art history, and film studies. Choose Visual Culture or Studio Practice as your focus. Want more? Add the Teaching Specialization to land a spot in teacher’s college at Nipissing University.

- History of Film and Visual Media, Observational Drawing, Digital Imaging
- Teaching Preparation, Intensive Studio, Digital Art
- 3D visual effects artist, illustrator, teacher, web designer, curator, Interior designer, art therapist

FRENCH / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available

Chez Waterloo, les possibilités sont innommables. A French degree gives you a valuable edge in almost any field. Include a year of study in Québec or France, or live on the French-language residence floor on campus. And if you choose our French Teaching Specialization, you’ll guarantee yourself a spot in teacher’s college at Nipissing University.

- Introduction to Translation, Business French, Children's Literature in French
- Professional French
- Director of international sales, Immigration officer, translator, teacher

GENDER AND SOCIAL JUSTICE / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available

Be an advocate for equity, justice, and positive change. Explore multi-layered marginalization and understand cultural patterns of oppression based on attributes such as gender, sexual orientation, race, and disability. Learn how you can contribute to building just and inclusive communities.

- Gender and Social Justice in Popular Culture, Waves of Feminist Thought, Global Queer Cinema
- Counselling co-ordinator, social worker

GEOGRAPHY AND AVIATION / FACULTY OF ENVIRONMENT (E, Bachelor of Environmental Studies) Regular only

Take to the skies with Canada’s largest university-level aviation program. You’ll earn a degree from one of the country’s top-ranked geography departments -- plus your Commercial Pilot Licence. Between the classroom and the cockpit, you’ll explore landforms, weather patterns, Geographic Information Systems (GIS), and more.

- Global Environmental Systems, Introduction to Geographic Information Systems, Professional Pilot Program Course
- Pilot, King Air 350 pilot, first officer, flight training instructor

GEOGRAPHY AND ENVIRONMENTAL MANAGEMENT / FACULTY OF ENVIRONMENT (E, Bachelor of Environmental Studies) Co-op available

Make the world your classroom. Explore how people shape our planet as you delve into Earth’s physical and human systems and hone your technical skills in environmental analysis. Learn about climate change, landforms, population growth, Geographic Information Systems, and other key topics in one of Canada’s top-ranked geography programs.

- Global Environmental Systems, Local Development in a Global Context, Earth’s Future Climates
- Environmental stewardship coordinator, sustainability consultant, teacher

GEOLOGICAL ENGINEERING / FACULTY OF ENGINEERING (E, Bachelor of Applied Science) Co-op only

Put your future on solid ground -- and help the world do the same. You’ll combine earth sciences with civil engineering to design smart foundations, mitigate and reduce losses during natural disasters, and contribute to sustainable resource development globally. Meanwhile, with a ton of field courses, you’ll spend more time outside the classroom than in any other engineering program.

- Engineering Geology, Structural Geology, Applied Geophysics, Geotechnical Engineering
- Design and Integration of terrain sensors, hazard and risk assessment of landslides and earthquakes, design of surface and subsurface infrastructure

GEOMATICS / FACULTY OF ENVIRONMENT (E, Bachelor of Environmental Studies) Co-op available

Geotag, you’re it! Tap into Waterloo’s world-class computer science expertise when you join this fast-growing field that combines the power of computing with geographic and environmental analysis. Learn to use tools such as remote sensing, computer mapping, GPS, and Geographic Information Systems (GIS) to analyze data and make meaningful decisions.

- Earth from Space Using Remote Sensing, Geodesy and Surveying, Geoweb and Location-based Services
- Data analyst, GIS operator, remote sensing specialist

GERMAN / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available

Get an education that’s wunderbar. We offer way more than just German language courses. Explore German culture, him, literature, and linguistics, or add classes in Slavic languages like Russian and Croatian. You can even earn credits studying in Germany. You’ll graduate with valuable skills for careers in education, business, and government.

- German through Comics, German for Professional Purposes, German Filmmakers in Hollywood
- Editor and communications manager, business analyst, sales manager

GLOBAL BUSINESS AND DIGITAL ARTS / FACULTY OF ARTS (E, Bachelor of Global Business and Digital Arts) Regular only

Lead business into the future through the power of digital media. Explore cross-cultural communication and management, digital design, and emerging technologies. Spend your upper years at the Stratford School of Interaction Design and Business, and enhance your learning with a paid internship. Questions? Email stratfordprograms@uwaterloo.ca.

- User experience designer, social media manager, digital marketing specialist, project manager

HEALTH STUDIES / FACULTY OF APPLIED HEALTH SCIENCES (E, Bachelor of Science) Co-op available

It’s true: an ounce of prevention is worth a pound of cure. Learn how to promote healthy lifestyles and improve health-care systems by combining the science and social aspects of health. You’ll graduate ready to tackle global epidemics, transform public health policy, and more -- or pursue further studies in medicine, epidemiology, and nursing.

- Canadian Health Systems; Development, Aging, and Health; Environmental Toxicology and Public Health
- Gerontology, Health Informatics, Health Research, Pre-Clinical
- Health professional (e.g., medical doctor, nurse, epidemiologist, occupational therapist, midwife, genetic counselor), research coordinator, health informatics consultant

HISTORY / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available

Develop a world view that goes back centuries. Make the world your classroom. Explore how people shape our planet as you delve into Earth’s physical and human systems and hone your technical skills in environmental analysis. Learn about climate change, landforms, population growth, Geographic Information Systems, and other key topics in one of Canada’s top-ranked geography programs.

- Global Environmental Systems, Local Development in a Global Context, Earth’s Future Climates
- Environmental stewardship coordinator, sustainability consultant, teacher

ROCK ‘N’ ROLL AND US HISTORY, Russia: From Tsars to Putin, Indigenous Histories of Canada

- Applied History; Global Interactions; International Relations; Revolution, War, and Upheaval
- Government affairs manager, executive researcher, lawyer, director of government relations
Pursue your passions. Shape your future. Explore a variety of subjects, or immerse yourself in one of 23 arts majors. Choose to add co-op, and get up to 20 months of paid work experience before you graduate. Refer to your specific major of interest (M) for more details. This program is offered through the main Waterloo campus, St. Jerome’s University, and Renison University College.

HONOURS ARTS / FACULTY OF ARTS (E, Bachelor of Arts) Co-op available
Follow your passion for arts and gain business know-how: combine one of our 23 arts majors with business studies. Opt for co-op and tap into North America’s largest pool of co-op employers. Refer to your specific major of interest (M) for details. After applying, you may co-register with St. Jerome’s University or Renison University College.

HONOURS SCIENCE / FACULTY OF SCIENCE (E, Bachelor of Science) Regular only
Declaring difficult. If you’re still exploring which sciences intrigue you the most, Honours Science is a brilliant choice. You’ll have the flexibility to take the courses you want or handpick the ones you need, which is convenient if you plan to apply to a professional school with prerequisite course requirements.

Informatics, Geographic Information Systems

KINESIOLOGY / FACULTY OF APPLIED HEALTH SCIENCES (E, Bachelor of Science) Co-op available
Make a smart play: study the science of human movement. In this multidisciplinary program, you’ll gain hands-on skills in preventing, assessing, and treating movement-related illness and injury (and study anatomy on real human cadavers). Choose from four kinesiology areas: specialization and prepare for professional programs in medicine, chiropractic, or physiotherapy.

Human Anatomy; Limbs and Trunk, Fundamentals of Neuroscience
Musculoskeletal Injuries in Work and Sport

Ergonomics and Injury Prevention, Human Nutrition, Medical Physiology, Rehabilitation Sciences

Health professional (e.g., medical doctor, physical therapist, occupational therapist, athletic therapist, kinesiologist, chiropractor), ergonomist, rehabilitation specialist

KNOWLEDGE INTEGRATION / FACULTY OF ENVIRONMENT (E, Bachelor of Knowledge Integration) Regular only
Discover the freedom to pursue all your passions. More than a mix of arts and science, this program is built around a core set of skills that equip you to understand and solve tough problems, communicate effectively, and make a difference in a complex and changing world. Choose a traditional specialization or create one that is uniquely yours.

Collaboration, Design Thinking, and Problem Solving: Nature of Scientific Knowledge; Creative Thinking

Collaborative Design; Science, Technology, and Society

Business analyst, design strategist, user experience researcher

LEGAL STUDIES / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Judge the impact of the legal system. (No gavel required.) Explore the law and courts from the viewpoint of political science, history, sociology, philosophy, and peace and conflict studies. Because law touches almost every aspect of society, this degree is great preparation for a career in government, business, law enforcement, or law itself.

Criminology, Women and the Law, Children’s Rights in Canada

Legal assistant, records clerk, executive researcher, probation and parole officer, lawyer

LIFE SCIENCES / FACULTY OF SCIENCE (M, Bachelor of Science) Co-op available
Rocket science, meet medical science. Prepare for professions such as radiation oncology and medical imaging that harness the power of physics. This flexible, interdisciplinary program gives you a solid foundation in physics, chemistry, and biology, with plenty of hands-on labs and opportunities to get involved in research.

Biophysics of Imaging, Modelling Life Physics, Molecular and Cellular Biophysics

Biophysics, Medical Physics

Medical physiologist, physician, biophysicist

LIFE SCIENCES / FACULTY OF SCIENCE (E, Bachelor of Science) Co-op available for some majors
If you want to study the science of living things, this is your starting point. Life Sciences is an entry program for the following majors (M): Biochemistry, Biology, Biomedical Sciences, or Psychology. Refer to your specific major of interest for details.

MATERIALS AND NANOSCIENCES / FACULTY OF SCIENCE (M, Bachelor of Science) Co-op available
Tiny subject matter. Huge opportunities. Discover how to manipulate individual atoms and molecules, applying chemistry and physics at the nanoscale. There’s no better place to learn than in Canada’s Quantum Valley. You’ll graduate with the tools and knowledge to work at the forefront of innovation, in fields like renewable energy and nanomedicine.

Materials and Nanosciences in the Modern World, Chemistry and the Solid State, Condensed Matter Physics

Materials scientist, nanotechnologist, materials process specialist

MATHEMATICAL ECONOMICS / FACULTY OF MATHEMATICS (M, Bachelor of Mathematics) Co-op available
Do the math that underpins economies. Learn about the mathematical models that drive economic theory and how to use differential calculus, differential equations, and mathematical optimization to understand and predict economic behaviour. You’ll graduate ready for a career with banks, government, or industry, or for a master’s or doctoral program.

Microeconomic Theory, Macroeconomic Theory, Differential Equations for Business and Economics

Business analyst, econometrician, consultant

MATHEMATICAL FINANCE / FACULTY OF MATHEMATICS (M, Bachelor of Mathematics) Co-op available
Study equations that include dollar signs, and join other elite math students in one of the world’s most advanced undergrad finance programs. You’ll explore the math behind financial markets. Study corporate finance, asset-liability management, statistics, forecasting, and more – everything you need for a high-flying career in banking and finance.

Introduction to Investments, Forecasting, Real Analysis

Controller, compliance analyst, investment policy analyst

MATHEMATICAL OPTIMIZATION / FACULTY OF MATHEMATICS (M, Bachelor of Mathematics) Co-op available
Find solutions to resource scarcity issues, from streamlining sports team schedules to making factories more efficient. You’ll study mathematical modeling in your optimization, probability, statistics, and computer science courses and hone your skills with case studies. Then round out your degree with business, economics, and management science.

Introduction to Computational Mathematics, Computer Simulation of Complex Systems, Portfolio Optimization Models

Business, Operations Research

Business analyst, information technology architect, risk analyst
**Career possibilities**

- **Telecommunications, or medical technology** – choose a career in the semiconductor industry.
- Only faculty of mathematics and one of Canada’s study high-level math and physics at Canada’s from the cosmos to quantum computing. You’ll master advanced math to decode everything.

**MATHEMATICS / FACULTY OF MATHEMATICS**

(M, Bachelor of Mathematics) Co-op available

- Master advanced math to decode everything from the cosmos to quantum computing. You’ll study high-level math and physics at Canada’s only faculty of mathematics and one of Canada’s most innovative departments of physics. Then choose a career in the semiconductor industry, telecommunications, or medical technology – or go on to graduate studies.
- Waves, Electricity and Magnetism; Introduction to Theoretical Mechanics; Quantum Theory
- Operations specialist, information technology architect, lecturer

**MATHEMATICAL PHYSICS / FACULTY OF SCIENCE**

(M, Bachelor of Science) Co-op available

- Dig deeper into physics with a serious helping of mathematics with finance, accounting, and computer science courses with eight months of classroom experience – more than any other Bachelor of Education preparatory program in Canada – before you apply to teachers’ college. Want to do some of your learning overseas? Opt for our four-month Math in Europe program.
- Introduction to Mathematics Education, Educational Psychology, Mathematical Discovery and Invention
- Teacher, online learning consultant, instructional media developer

**MECHANICAL ENGINEERING / FACULTY OF ENGINEERING**

(E, Bachelor of Applied Science) Co-op only

- Put your career in gear. This program gives you a broad foundation in all aspects of mechanical design – and lots of opportunities to get your hands dirty in our well-equipped labs. You’ll study factors like the environment, safety, manufacturing, and materials, so you’ll graduate with the knowledge to design everything from switches to space crafts.
- Aerodynamics, Industrial Metallurgy, Electromechanical Devices and Power Processing, Heat Transfer
- Design of aerospace accessories, manufacturing of wind turbines, research and development in automotive technologies

**MEDICAL STUDIES / FACULTY OF ARTS**

(M, Bachelor of Arts) Co-op available

- Immerse yourself in the Middle Ages – minus the dysentery – in Canada’s longest-standing Medieval Studies program. By concentrating on this crucial era in Western civilization, you’ll gain insights into European politics, modern gender norms, the connections between Islam and Christianity, and more. (You can even study abroad in a castle!)
- Crusading in the Middle Ages, Medieval Society, The History of Islamic Civilization
- Professional writer, librarian, historical site manager, teacher

**MUSIC / FACULTY OF ARTS**

(M, Bachelor of Arts) Co-op available

- Explore Beethoven to Bieber, solos to software. Learn about the importance of music in today’s world through theory, composition, performance, and history. Combine your passion for music with other interests by taking courses that address the vital intersection of music and technology, film, global culture, and psychology.
- Music Cognition, Introduction to Jazz, Soundtracks: Music in Film
- Church Music and Worship, Music in Global Context, Music and Peace
- Teacher, performer, associate pastor of music, music store owner, recording studio owner

**NANOTECHNOLOGY ENGINEERING / FACULTY OF ENGINEERING**

(E, Bachelor of Applied Science) Co-op only

- Design solutions measured in billions of a metre in Canada’s only undergraduate nanotechnology engineering program. Combining engineering principles with ideas from chemistry, electronics, quantum physics, and biology, you’ll create the tiny technologies that are revolutionizing everything from smartphones to food processing to cancer treatment.
- Nanotoxicology, Quantum Mechanics, Societal and Environmental Impacts of Nanotechnology
- Research and development for pharmaceuticals, design of advanced materials for electronic devices, manufacturing of medical instruments

**OPTOMETRY / SCHOOL OF OPTOMETRY AND VISION SCIENCE**

(Doctor of Optometry) Co-op only

- Apply to a recommended accredited Bachelor of Science program to meet requirements
- Set your sights on a career in vision health. After three years in a Bachelor of Science program, you can apply to Canada’s only English-language Doctor of Optometry program. Learn about ocular health and disease, optics, and vision, while applying your knowledge in clinical settings. Questions? Email opt-admissions@uwaterloo.ca.
- Diseases of the Eye, Practice Management, Neurophysiology of Vision
- Registered optometrist, careers in private practice, academia, and industry

**MEDICINAL CHEMISTRY / FACULTY OF SCIENCE**

(M, Bachelor of Science) Co-op only

- Explore the science of drug discovery. In this exciting program, you’ll take courses in computer-aided drug design and gain valuable work experience in places like pharmaceutical companies and hospitals. By graduation, you’ll know how to design, synthesize, and evaluate potential medications – ready to create the life-saving treatments of tomorrow.
- Chemical Kinetics, Transition Element Compounds and Inorganic Materials, Fundamentals of Metabolism
- Medicinal chemist, research chemist, synthetic chemist

**MATH** Major: subject of major interest, apply through an entry-level program

**Sample courses**

- Educational Psychology, Mathematical Context, Music and Peace
- Music Cognition, Introduction to Jazz, Soundtracks: Music in Film
- Church Music and Worship, Music in Global Context, Music and Peace
- Teacher, performer, associate pastor of music, music store owner, recording studio owner

**ACCOUNTING AND FINANCE**

- Auditing, Financial Accounting, Management Information Systems
- Financial analyst, risk analyst, investment analyst

**MATHEMATICAL PHYSICS**

(M, Bachelor of Mathematics) Co-op available

- Crunch numbers, calculate odds, and create career success in this challenging program – one of just a few across Canada recognized by the CFA Institute and PRMIA. You’ll combine mathematics with finance, accounting, economics, and risk management. Specialize in chartered financial analysis or risk management, and graduate ready for your professional exams.
- Computerized Methods in Business and Finance, Applied Linear Models and Process Improvement for Business, Commercial and Business Law for Mathematics Students
- Financial analyst, risk analyst, investment analyst

**MATHEMATICS**

(E, Bachelor of Mathematics) Co-op available

**MATHEMATICS/BUSINESS ADMINISTRATION / FACULTY OF MATHEMATICS**

(E, Bachelor of Mathematics) Co-op available

- It’s a simple equation: math + business = career success. Build your degree with courses from two prestigious institutions: math courses from Waterloo’s Faculty of Mathematics and business courses from Wilfrid Laurier University. You’ll graduate with the technical expertise and analytical know-how to thrive in the world of business.
- Corporate Finance, Introduction to Managerial Accounting, Organizational Behaviour
- Operations manager, risk modelling analyst, investor relations specialist

**MATH** Major: subject of major interest, apply through an entry-level program

**Sample courses**

- Educational Psychology, Mathematical Context, Music and Peace
- Music Cognition, Introduction to Jazz, Soundtracks: Music in Film
- Church Music and Worship, Music in Global Context, Music and Peace
- Teacher, performer, associate pastor of music, music store owner, recording studio owner
PEACE AND CONFLICT STUDIES / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Choose a degree that can change the world. Develop diverse approaches to understanding conflict and promoting peace through Canada's first peace studies program. Discover how to transform conflict's violent potential into a creative force for positive change. Gain experience through an internship locally or in a former conflict zone abroad.

- Human Rights, Peace, and Business
- Conflict Resolution; Restorative Justice
- Gender in War and Peace
- Community development officer, international development specialist, social services worker, policy advisor, mediation consultant, lawyer

PHARMACY / SCHOOL OF PHARMACY (Doctor of Pharmacy) Co-op only / Apply to a recommended Bachelor of Science program (or other approved post-secondary program) to meet requirements
A prescription for career success! After two years in an undergraduate science program, you can apply to Canada's only co-op Pharmacy program. Enhance your classroom learning with paid work rotations, developing skills in community practice, hospitals, or family health teams. Questions? Email pharmacy@uwwaterloo.ca.

- Integrated Patient Focused Care, Professional Practice, Medical Microbiology
- Registered pharmacist; work in community practice, hospitals, and family health teams

PHILOSOPHY / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Confront some of life's biggest questions. Study ancient texts and modern thinking on topics ranging from the nature of the human mind to emerging issues in science and technology. Learn to analyze other people's arguments and improve your own. You'll develop the critical-thinking skills valued in public policy, industry, and beyond.

- Foundations of Ethics, Probability and Decision Making, Philosophy of Mind
- Lawyer, public policy analyst, ethicist, corporate archivist

PHYSICS AND ASTRONOMY / FACULTY OF SCIENCE (M, Bachelor of Science) Co-op available
Aim for a career with astronomical possibilities. Learn from award-winning professors who are studying some of the most fascinating phenomena in the universe: black holes, the Big Bang, dark matter, and more. It's perfect preparation for careers in astrophysics and space science or for graduate studies in astronomy or physics.

- Introduction to the Universe, Thermal Physics, Cosmology
- Astronomer, aerospace scientist, remote sensing scientist

PLANNING / FACULTY OF ENVIRONMENT (E, Bachelor of Environmental Studies) Co-op only
Want a career with impact? We've got the plan. Tackle the environmental and social challenges facing our urban and rural areas. Learn about sustainable planning practices, designing effective transit systems, protecting natural areas, and more. You'll graduate ready to help communities create a healthy, prosperous, and sustainable future.

- Social Concepts in Planning, Transportation Planning and Analysis, Urban Planning Design and the Environment
- Decision Support and Geographic Information Systems, Environmental Planning and Management, Land Development Planning, Urban Design
- Environmental planner, land use planner, urban designer, transit planner

POLITICAL SCIENCE / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Let's get political! Explore political theory, power, global politics, and governance in one of the world's top 200 politics and international studies programs. Learn how to navigate (and shape) the political terrain and develop the critical-thinking and creative problem-solving skills to land a job in advocacy, policy analysis, or public service.

- Globalization, International Business, and Development: Topics in Politics and Business; Global Environmental Governance
- Politics and Business, Global Governance, Canadian Politics, International Relations
- Civil servant, director of global programs, project manager, senior consultant

PSYCHOLOGY / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Get inside people's heads. Explore the intricacies of the brain in this internationally renowned program, consistently ranked among the best in Canada. You'll examine human behaviour through a variety of perspectives, including neuroscience, cognition, and clinical, developmental, industrial/organizational, and social psychology – great preparation for further studies in speech and language, counseling, and marketing.

- Learning Disabilities, Basic Research Methods, Human Neuropsychology
- Mental health worker, research and development manager, human resources manager

PSYCHOLOGY / FACULTY OF SCIENCE (M, Bachelor of Science) Co-op available
Major in the science of the human mind. Investigate neuroscience; cognition; and clinical, developmental, and social psychology in one of North America's top psychology departments. You'll delve into research methods and data analysis – great preparation for further studies in medicine, speech pathology, or other health fields.

- Psychopathology, Psychological Measurement, Developmental Psychology
- Neuropsychologist, child psychologist, psychiatrist

PUBLIC HEALTH / FACULTY OF APPLIED HEALTH SCIENCES (E, Bachelor of Public Health) Co-op available
Doctors help a few dozen patients a day. Public health professionals help thousands. Discover how understanding social, cultural, political, and geographical factors can help us tackle smoking, obesity, infectious diseases, and more. Aiming for grad school? Get a head start by applying for an accelerated master's in your third year.

- Gerontology, Health Informatics, Health Research
- Community relations officer, public health planner, policy developer

PURE MATHEMATICS / FACULTY OF MATHEMATICS (M, Bachelor of Mathematics) Co-op available
Go way beyond basic arithmetic. Pure mathematics studies the boundary of math and pure reason, exploring the “how” and “why” of math. You’ll cover the spectrum of mathematics – including algebra, number theory, analysis, geometry, and logic – and gain valuable problem-solving skills that can be applied in your career or graduate school.

- Fields and Galois Theory, Applied Complex Analysis, Differential Geometry
- Mathematical Finance, Mathematics/Teaching
- Data scientist, operations analyst, lecturer

RECREATION AND LEISURE STUDIES / FACULTY OF APPLIED HEALTH SCIENCES (E or M, Bachelor of Arts) Co-op available
It’s about more than fun and games. Really. In one of North America's top-rated leisure departments, discover how to plan, manage, and deliver well-designed recreation programs that enhance the well-being of individuals and communities. Gain industry-related experience in your courses, through co-op, and in a 105-hour practicum.

- Program Management and Evaluation; Play, Creativity, and Child Development; Leisure and Social Justice
- Community recreation programmer, program and support services manager, recreation manager

RECREATION AND SPORT BUSINESS / FACULTY OF APPLIED HEALTH SCIENCES (M, Bachelor of Arts) Co-op available
You love sports. So make it your career with this one-of-a-kind degree. Gain a solid understanding of recreation and build the business expertise you need to excel in different aspects of the sports industry – including marketing, communications, HR, and finance. Learn from experts during your classes, co-op, a 105-hour practicum, or our exchange program with Walt Disney World Resort.

- Principles of High Performance Organizations in Recreation and Sport, Advanced Program Evaluation in Leisure Services, Mobile Resources for Recreation and Sport Delivery
- Recreation and events director, marketing manager, sport programming manager

RELIGIOUS STUDIES / FACULTY OF ARTS (M, Bachelor of Arts) Co-op available
Explore the fundamental beliefs that bind us – and divide us. Discover the world’s great religions through more than 100 undergraduate courses covering Western and Eastern religions, the history of Christianity, biblical studies, theology, ethics, sociology, and the arts. Round off your degree with an optional four-month trek visiting holy sites across India.

- Religion in Popular Film, Sacred Beauty: Religion and the Arts, Love and Friendship
- Clinical therapist, interfaith chaplain, international development agency director
CAREER POSSIBILITIES

SCIENCES & AVIATION / FACULTY OF SCIENCE
(E, Bachelor of Science) Regular only
Is your head in the clouds? Earn a Bachelor of Science degree and your Commercial Pilot Licence through the largest university aviation program in Canada. Customize your studies to include courses from a range of scientific disciplines, such as physics or earth sciences. Whichever route you choose, you’ll graduate with more than 200 flight hours.

- Earth from Space Using Remote Sensing, Physical Climatology, Human Factors in Aviation
- Pilot, flight training instructor, aerial surveyor

SCIENCE AND BUSINESS / FACULTY OF SCIENCE
(E, Bachelor of Science) Co-op available
Can science majors make it big in business? You bet. Become a scientist with solid business skills or a business professional who speaks the language of science. This unique program provides a strong foundation in science, along with courses in accounting, economics, marketing, computing, statistics, and human resources.

- Biochemistry, Biology, Biotechnology
- Medical information specialist, biotechnology accounts manager, project and program analyst

SEXUALLY, MARRIAGE, AND FAMILY STUDIES / FACULTY OF ARTS
(M, Bachelor of Arts) Co-op available
Get ready to talk relationships. The only one of its kind in Canada, this program goes far beyond basic anatomical knowledge and sexual health. Drawing upon critical, anti-oppressive, and social justice approaches, you’ll study the latest research and theory in sexuality, families, and relationships and how they apply to everyday life.

- Communication and Counselling Skills, Dynamics of Dating, Sexuality and Popular Culture
- Counselling, Human Services Practicum, Intensive Research
- Sexual health educator, youth support worker, mediator, social worker, couple and family therapist

SOCIAL DEVELOPMENT STUDIES / FACULTY OF ARTS
(E or M, Bachelor of Arts) Co-op available
through Honours Arts or Honours Arts and Business
Solve social issues at the local, national, and global level. Find your voice through the study of psychology, sociology, social development, and social work in this one-of-a-kind program. Focus your studies by adding one of five specializations and gain hands-on experience for your future career. Apply through Renison to begin this major in first year.

- Changing Concepts of Childhood, Social Work with Families, Positive Psychology
- Child protection worker, teacher, social policy developer, human resources manager

SOCIAL WORK / RENISON UNIVERSITY COLLEGE
(Bachelor of Social Work) Regular only
Have a hunger to help others? Prepare for a rewarding career while splitting your time between the classroom and in-field placements. This program is only available to students with an undergraduate degree. For a strong foundation, consider enrolling in Social Development Studies. For questions? Email renison.socialwork@uwaterloo.ca.

- Diversity and Empowerment, Mental Health and Addiction Issues, Social Work with Older Adults
- Social worker, mental health clinician, counselor, therapist

SOCIOLOGY / FACULTY OF ARTS
(M, Bachelor of Arts) Co-op available
Get ready to wrestle with pressing questions about how societies work and how people organize themselves. Explore topics such as age, class, ethnicity, religion, gender, social inequality, and more. When you graduate, apply your research and data analysis skills in government, health, policy and research, law, academia, or non-profit organizations.

- Terrorism, Games and Gamers, Organized Crime
- Youth justice advocate, justice policy analyst, research associate, ESL teacher

SOFTWARE ENGINEERING / FACULTY OF ENGINEERING AND FACULTY OF MATHEMATICS
(E, Bachelor of Software Engineering) Co-op only
Today, even your fridge is full of software. Learn to create complex programs using math, engineering, and computer science. You’ll develop the skills to analyze software architecture, apply algorithms, design human-computer interfaces, and lead major projects.

- Programming Principles, Logic and Computation, Machine Learning, Computational Vision
- Design of operating systems, development of security systems, analysis and maintenance of web applications

SPANISH / FACULTY OF ARTS
(M, Bachelor of Arts) Co-op available
Say hola to an in-depth understanding of the Hispanic world. Explore the richness of Hispanic literature and culture while learning one of the world’s most popular languages. Take advantage of our exchanges to Spain or Latin America, and consider adding a Diploma in Spanish-English Translation – one of only two such diplomas in Canada.

- Poetry of the Tango, Introduction to Spanish Business Translation, The Hispanic World Through Literature and the Arts
- Spanish/English Translation
- Librarian, marketing manager, senior manager, translator

SPEECH COMMUNICATION / FACULTY OF ARTS
(M, Bachelor of Arts) Co-op available
Testing one, two, three. In this program – the only one of its kind in Canada – you’ll hone your skills as a communicator and discover how communication creates meaning in our world. Through creative, collaborative, and critical engagement, you’ll prepare for a career in public relations, human relations, teaching, broadcasting, or marketing.

- Persuasion, Crisis Communication, Digital Presentations
- Strategic planning officer, communications officer, digital media coordinator

STATISTICS / FACULTY OF MATHEMATICS
(M, Bachelor of Mathematics) Co-op available
Earn a degree that’s highly significant at one of the world’s top centres for statistics. Learn about research methods and statistical applications to help engineers develop better AI technologies, researchers evaluate medical treatments, governments shape effective policies, and more. In today’s data-driven world, these are skills in high demand.

- Applied Probability, Sampling and Experimental Design, Applied Linear Models
- Biostatistician, business intelligence specialist, software quality analyst

SYSTEMS DESIGN ENGINEERING / FACULTY OF ENGINEERING
(E, Bachelor of Applied Science) Co-op only
Take a creative, interdisciplinary approach to solving engineering problems. This flexible program features design courses, labs, and team-based learning that focus on the big picture. You’ll develop skills from multiple engineering fields, graduating ready to tackle challenges that lie at the interface of society, technology, and the environment.

- Human Factors in Design, Computational Neuroscience, Systems Models, Software Design
- Design of medical devices, product manager, technology design and creation

THEATRE AND PERFORMANCE / FACULTY OF ARTS
(M, Bachelor of Arts) Co-op available
All the world’s a stage. Find your place on it in one of Canada’s most performance-intensive drama programs. Write theatre reviews, study stage direction, and reinvent theatre for today.

- Focus your studies in acting, directing, technical theatre, or theory; then hone your skills in student-led productions each term. You’ll graduate with a rich portfolio!
- Stage Management, Approaches to Directing, Collaborative Creation
- Set designer, actor, floor director, stage manager, general manager

THERAPEUTIC RECREATION / FACULTY OF APPLIED HEALTH SCIENCES
(M, Bachelor of Arts) Co-op available
Help people get more out of life. You’ll learn how to enhance quality of life by improving physical and mental health through recreation programs that foster inclusivity and strengthen the cultural fabric of a community. Combine practical courses with hands-on experience through co-op, volunteer placements, and a required 600-hour internship in fourth year.

- Foundations of Therapeutic Recreation Practice, Therapeutic Recreation Facilitation Techniques, Therapeutic Recreation: Physical Disabilities
- Recreation therapist, elder life specialist, occupational therapist

TOURISM DEVELOPMENT / FACULTY OF APPLIED HEALTH SCIENCES
(M, Bachelor of Arts) Co-op available
Want a career in tourism – the world’s largest industry? This is your boarding call. Learn how to plan and develop tourism experiences in environmentally and culturally sensitive ways. Hone those skills in a 105-hour practicum, or take your learning off-campus with a study-abroad term at Walt Disney World Resort.

- Outdoor Recreation Resources Management, Tourism Analysis, Event Management
- Festival and events coordinator, policy researcher, director of parks and recreation
ONTARIO ADMISSION REQUIREMENTS 2020

Admission averages depend on the number of applications we receive and the number of spaces available. The ranges listed below are based on previous years. Visit our website for the most up-to-date 2020 admissions information.

uwaterloo.ca/future/admissions

### APPLIED HEALTH SCIENCES

<table>
<thead>
<tr>
<th>PROGRAM/MINIMUM ADMISSION AVERAGE/ADDITIONAL REQUIREMENTS</th>
<th>REQUIRED COURSES*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Health Studies Low 80s regular, mid-80s co-op.</td>
<td>Any 4U English (min. 70%), Biology (min. 70%), Chemistry (min. 70%), any Grade 12 U Mathematics (min. 70%)</td>
</tr>
<tr>
<td>Kinesiology Low 80s regular, mid-80s co-op.</td>
<td>Any 4U English (min. 70%), Advanced Functions (min. 70%), Chemistry (min. 70%), one of Biology (min. 70%) or Physics (min. 70%)</td>
</tr>
<tr>
<td>Public Health Low 80s regular, mid-80s co-op.</td>
<td>Any 4U English (min. 75%), any Grade 12 U Mathematics (min. 70%)</td>
</tr>
<tr>
<td>Recreation and Leisure Studies† Low 80s. Majors: Recreation and Leisure Studies, Recreation and Sport Business, Therapeutic Recreation, Tourism Development.</td>
<td>Any 4U English (min. 70%)</td>
</tr>
</tbody>
</table>

### ARTS

<table>
<thead>
<tr>
<th>PROGRAM/MINIMUM ADMISSION AVERAGE/ADDITIONAL REQUIREMENTS</th>

### OUT-OF-PROVINCE ADMISSION REQUIREMENTS 2020 CONT.

#### SOFTWARE ENGINEERING

**Software Engineering**  
Low to mid-90s.  
AIF required. Experience developing well-structured modular programs required.  
Online video interview required for faculty scholarships and strongly recommended for admission. Individual selection may vary.  

<table>

APPLY TO WATERLOO

Let’s get started.

uwaterloo.ca/future/apply

Why make things complicated? Simply tear off the checklist on page 49 and complete each step by the deadline. You’ll be a Warrior in no time. If you have any questions, flip over the checklist to find a list of key contacts.

HOW DO I GET STARTED?

Your first stop is the Ontario Universities’ Application Centre (OUAC) website: ouac.on.ca. If you’re currently studying in Ontario, use the 101 application. Your high school will automatically send us your transcripts.

If you’re studying outside Ontario, complete the 105 application and make arrangements to have your high school send us your transcripts. All of your official documents, including transcripts and English language test results, must be sent directly from the issuing institution or testing authority.

WHEN ARE MY APPLICATION AND SUPPORTING DOCUMENTS DUE?

<table>

<td>70 overall, 60 per band, 70 writing, 70 speaking</td>
<td>65 overall, 65 writing, 65 speaking</td>
<td>75% overall in 400 levels, 75% academic, 75% oral, 75% writing</td>
</tr>
</tbody>
</table>

Q&A

WHAT’S AN ADMISSION INFORMATION FORM (AIF)?

The AIF lets you tell us about your extracurricular activities, explain extenuating circumstances which may have affected your grades, and brag a little about how great you are! We often use the AIF in addition to your grades to make admission decisions. For many programs an AIF is required, and we recommend all applicants submit an AIF.

WHAT IF MY ENGLISH LANGUAGE TEST SCORES ARE TOO LOW?

If you’re academically admissible but don’t quite meet our English language requirements, you may be offered conditional admission through Waterloo’s English Language for Academic Studies (ELAS) or Bridge to Academic Success in English (BASE).

WILL MY AP OR IB COURSES BE CONSIDERED FOR TRANSFER CREDIT?

Transfer credits will be considered for Advanced Placement (AP) and International Baccalaureate (IB) courses if you’re applying to programs in the Faculties of Applied Health Sciences, Arts, Environment, Mathematics, or Science, or the School of Architecture.

Note: *Results must be sent directly from the college board or the IBO.
TUITION AND SCHOLARSHIPS

Hard earned, well spent.

Estimate your total first-year costs using our online budget calculator. Our website also offers detailed information on federal and provincial financial aid (such as OSAP), scholarships, and faculty-specific awards.

[link]

ENTRANCE SCHOLARSHIPS AND BURSARIES

See our website for a complete list of scholarships and faculty-specific awards.

- **$1,000**
  - **MERIT SCHOLARSHIP**
  - 85-89.9% admission average

- **$2,000**
  - **PRESIDENT'S SCHOLARSHIP**
  - 90-94.9% admission average

- **$5,000**
  - **PRESIDENT'S SCHOLARSHIP OF DISTINCTION**
  - 95%+ admission average

- **$500-$4,000**
  - **ENTRANCE BURSARIES**
  - (Ontario students only)
  - Awarded based on financial need

- **$10,500**
  - Average first co-op work term earnings help off-set tuition

- **$2,000**
  - Awarded in year one, plus up to $3,000 in upper years

</tbody>
</table>

Notes: Amounts listed include incidental fees. Co-op fee of $729/term also applies. See the website for fee details. *Tuition is significantly higher in your upper years. **$2,000 awarded in year one, plus up to $3,000 in upper years.

Living Expenses

(FOR TWO ACADEMIC TERMS)

- **RESIDENCE**
  - From $5,879 (traditional-style) to $7,823 (suite-style).

- **MEAL PLAN**
  - From $4,904 (lite) to $5,704 (hearty).

- **PERSONAL EXPENSES**
  - $3,320 on average ($415/month). Expenses may include phone, laundry, and entertainment; depends on your lifestyle.

- **BOOKS AND SUPPLIES**
  - Most programs estimate $2,288 ($410 for Architecture students).

89% of first-year students received an entrance scholarship or bursary for fall 2018.
Chart your path.

Getting to class is a walk in the park on our pedestrian-friendly campus. Enjoy gardens, patios, and creekside benches in the summer, or dart through tunnels and overpasses in the winter. No building on campus is ever more than a 20-minute walk away.

ACKNOWLEDGEMENT OF TRADITIONAL TERRITORY

We acknowledge that the University of Waterloo is located on the traditional territory of the Neutral, Anishnaabeg, and Haudenosaunee people. The University is situated on the Haldimand Tract, the land promised to the Six Nations that includes 10 kilometres on each side of the Grand River.

VISIT US

Guided campus tours are available Monday through Saturday (with some exceptions). Tour bookings are available on our website.

_________________________________________

_________________________________________
APPLICATION CHECKLIST

Your guide to full-time undergraduate studies at Waterloo.

uwaterloo.ca/future/apply

1. ORDER BROCHURES.
   Download detailed information about one or more programs.
   uwaterloo.ca/future/order

2. APPLY ONLINE.
   Apply to Waterloo and our University Colleges (Renison and St. Jerome's) through the Ontario Universities' Application Centre.
   ouac.on.ca

3. LOG IN TO QUEST.
   Quest is our student information system. We'll email you details about getting started. Add myapplication@uwaterloo.ca and askus@uwaterloo.ca to your contacts so you don't miss our emails!

4. SEND US YOUR DOCUMENTS.
   In addition to your official transcripts, we may require other documentation (e.g., proof of English-language instruction).

5. COMPLETE YOUR ADMISSION INFORMATION FORM (AIF).
   Some programs require an interview, portfolio, or other elements in addition to your AIF. Check the admission charts for details.

6. WAIT TO HEAR FROM US.
   To help pass the time, check out our residences, clubs, and support services. Once you accept your offer, you'll be welcomed by our Warrior community!
