DISCOVER YOUR STORY
AT ST. PAUL’S
Welcome to St. Paul’s University College.

As an academic institution, St. Paul’s delivers programming in a number of related areas. We are the campus leads for Indigenous Studies, Canadian Studies, and the new program in Human Rights. We share in the delivery of the International Development program and the major in Religious Studies. We also teach social entrepreneurship through GreenHouse, our nationally recognized innovation incubator for students.

“St. Paul’s provides an oasis of community on the campus of this large and very dynamic university. It’s a place where you can relax and feel at home. It’s a place where you can contribute and make a difference. It’s a place to make lifelong friends. Our students and staff love this college. We think you will, too!”

YOU+
WATERLOO
LIVING AT ST. PAUL’S

1. COMFORT AND CONVENIENCE:
   - Double rooms with two options:
     1. With privacy barriers separating sleeping from studying.
     2. With en-suite washroom.
   - Individually controlled room temperature (both heat and air conditioning).
   - Short walking distance to classes.
   - Co-ed residence for students from any faculty or program.
   - Short-term, hotel-style guest rooms for students and parents.

WATERLOO INDIGENOUS STUDENT CENTRE:
- The Waterloo Indigenous Student Centre (WISC) facilitates the sharing of Indigenous knowledge and welcomes all members of the Waterloo community (on and off campus) to experience events and activities such as Pow Wow, National Indigenous Peoples Day, and Soup and Bannock.

2. DINNERS IS SERVED:
   - All you can eat meal plan with lots of variety, including vegetarian and Halal options.
   - Accommodation for special dietary requirements.
   - Chat with friends by the fireplace or watch your favourite show or movie on our big-screen TVs.

3. BEYOND THE CLASSROOM:
   - Have fun in our games area, which offers billiards, ping-pong, and foosball tables.
   - Enjoy Frisbee, soccer, football, volleyball, or socializing on St. Paul’s large playing field.
   - Show off your talent at the annual Blackforest Coffee House.
   - Take a break with a floor event including spa night, paintball, and anything in between.

4. ST. PAUL’S GREENHOUSE:
   - Innovation community for students who want to create impactful ideas that generate social or environmental change.

**COMMUNITIES TAILORED FOR YOU**

Living-Learning Communities are designed to help first-year students get the most out of their university experience, both academically and socially. These programs are structured to engage students more deeply with their subject matter while forming lasting friendships along the way.

**ENVIRONMENT**

Participate in programs just for students in the Faculty of Environment, take study skills workshops organized by upper-year Environment peer leaders, volunteer for a community outreach project, get to know your professors outside the classroom, and connect with your friends down the hall to walk to Environment classes in less than five minutes.

**WATERLOO INDIGENOUS STUDENT RESIDENCE**

Join our live-in Indigenous program which supports the unique needs of Indigenous students and allows you to develop social networks that can help you succeed.

**WOMEN IN ENGINEERING**

Live with your female Engineering peers in a community designed to offer an academic and social network that understands your program. Upper-year Engineering peer leaders are there to ensure a welcoming experience.

**ETES-VOUS FRANCOPHILE?**

We have a home for you! Be one of 18 students who live on La Bastille, our French-language floor. You don’t have to be fluent, you just have to love the language and culture!

**MATH FARM STUDENTS**

Live with your peers in a community designed to offer an academic and social network that understands your program. Upper-year peer leaders are there to ensure a welcoming experience.
WE SUPPORT YOU

Living at St. Paul’s is like having one big family! Dons, peer leaders, professors, and staff are always ready to support you!!

THE POSSIBILITIES ARE ENDLESS

Spark your passion, connect with peer leaders and mentors from St. Paul’s, and join students from all faculties looking to make sustainable, social, and environmental changes for future generations.

“T really love St. Paul’s. A bunch of the girls and I became super close. We eat together, we hang out together. We formed a really strong bond.”

ERIN, BIOMEDICAL ENGINEERING
ACKNOWLEDGEMENT OF TRADITIONAL TERRITORY

Our College is situated on lands deeply connected to Indigenous peoples who have historically lived, and who currently live, in this territory. We recognize that these lands have always been the source of learning for Indigenous peoples. As an educational institution, we are committed to respecting the traditional knowledge that Indigenous peoples have derived from these lands and learning from their experiences on them.
