

**PLANNING 453/GEOGRAPHY 453
FALL TERM 2017**

URBAN STORMWATER MANAGEMENT

INSTRUCTOR: Dr. J Beebe (jbeebe@uwaterloo.ca)
LECTURE: STP 105 T & Th 1:00 – 2:20 PM
OFFICE HOURS: ENV1 Room 112, Th (3:30 - 5:00 PM)

COURSE TAs Cameron Miller ckmiller@uwaterloo.ca
Waverley Birch wsbirch@uwaterloo.ca

COURSE CONTENT AND ORGANIZATION

Stormwater management is an evolving field of study that includes aspects of environmental design, engineering, chemistry, hydrology, planning, finance and public administration. This course reviews the principles of urban stormwater management to provide a practical understanding of the development and implementation of effective management plans to mitigate environmental impacts of stormwater in urban environments.

Objectives of the course are to

- 1) understand the physical principles of urban hydrology and its relevance to stormwater quality and quantity management
- 2) consider the economic and environmental impacts of urban drainage and
- 3) review current design principles and their implementation in modern planning practices for stormwater management in urban watersheds.

TEXTBOOK

No text book is required in this course. Lectures are developed from a range of materials including textbooks, scientific papers and government documents. Some of the supplemental materials listed below as well as selected journal articles may be required reading. Each lecture will be posted on UW ACE. The following supplementary materials are relevant to the course.

STUDENT EVALUATION

2 Quizzes (Drop lowest mark)	30%
3 Labs @ 10% each	30%
Final Exam	40%
Total	100%

COURSE OUTLINE: with the exception of Quiz dates (October 3 and November 9), the scheduled lecture may be adjusted to account for discussion

Sept 7	Course Introduction
Sept 12	Physical Impacts of Urbanization on Watersheds
Sept 14	Ecological and Biochemical Impacts of Urbanization on Watersheds
Sept 19	Planning Approaches for Stormwater Management
Sept 21	Climate Change and Stormwater Management Lab 1
Sep 26	Drainage Systems for Urban Environments
Sep 28	Field Trip to North Campus
Oct 3	Quiz 1
Oct 5	Stormwater Quantity I
Oct 9	Thanksgiving
Oct 9	Fall Study Day—no class
Oct 12	Stormwater Quantity II
Oct 17	Stormwater Quality
Oct 19	Environmental Indicators and Stormwater Monitoring Programs Lab 2
Oct 24	Stormwater Best Management Practices (BMPs)
Oct 26	Choosing Best Management Practices Details Stormwater Master Planning and Subdivision/Site Planning, Site Design / Low Impact Development
Oct 31	Source controls
Nov 2	Lot Level Controls
Nov 7	Conveyance Controls
Nov 9	Quiz 2
Nov 14	End of Pipe Controls
Nov 16	Green Roof Technology
Nov 21	Lab 3

- Nov 23 Operation, Maintenance and Costs (Capital and Operating)
- Nov 28 Examples of Innovative Stormwater Management and Regulatory Permitting
- Nov 30 Course Review

ADDITIONAL COURSE CONSIDERATIONS

Plagiarism is defined as taking “intellectual property,” such as words, drawings, photos, or artwork, etc., written or created by others, and passing it off as your own. When you submit a report or assignment with your name on it, it is assumed that you are the author of everything in the assignment except for those materials that are specifically identified as coming from other sources. Therefore, if you include sentences, photos, drawings or figures from other sources in a work report or lab report, the complete reference must be cited. This applies in particular to any material cut-and-pasted from the internet or any other electronic source. Failure to cite the source completely is plagiarism, an academic infraction with serious consequences under *University of Waterloo Policy 71*.

Academic Integrity: To create and promote a culture of academic integrity, the behaviour of all members of the University of Waterloo is based on honesty, trust, fairness, respect and responsibility.

Grievance: A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4,
<http://www.adm.uwaterloo.ca/infosec/policies/policy70.html>

Discipline: A student is expected to know what constitutes academic integrity, to avoid committing academic offenses, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offense, or who needs help in learning how to avoid offenses (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to Policy 71 - Student Discipline,
<http://www.adm.uwaterloo.ca/infosec/Policies/policy71.html>

Appeals: A student may appeal the finding and/or penalty in a decision made under Policy 70 - Student Petitions and Grievances (other than regarding a petition) or Policy 71 - Student Discipline if a ground for an appeal can be established. Read Policy 72 - Student Appeals,
<http://www.adm.uwaterloo.ca/infosec/Policies/policy72.html>
