

MCC – Supplementary Information Form

(in 500 words or less)

Provide a Statement of Interest with following:

- * List five key words that best describe your research and professional interests in Climate Change.
- * Describe why you want to pursue the Master's program in Climate Change, including your particular areas of interests and professional goals.
- * Outline your previous research training, experience (field work, practical experience) and publication history.
- * Describe your relevant training and work experience (non-university related) since you entered university, including travel.
- * Provide any other information you feel may interest the admissions committee.
- * Describe what outside sources of funding you have secured or are seeking (e.g., Ontario Graduate Scholarship).
- * Describe any coursework currently in progress which is not described on your academic record.
- * How did you learn about the Masters in Climate Change?
