

For external clients seeking access to G2N, Department (University) requirements:

1. WSIB certificate.
2. The University of Waterloo requires a general liability certificate of insurance of at least \$2M, with the University of Waterloo included as an additional insured.
3. Proof of health insurance for any individuals working on campus.
4. A formal agreement (Guest Lab User Agreement) with the department, signed by appropriate individuals (Dept Chair, Dean,...) and by an officer of the company.
5. Successful completion of Safety Courses as required by the Department, the Safety Office and the Giga-to-NanoElectronics Lab by all individuals working inside the G2N laboratories. Documentation on file at the ECE Department Offices.
