Social and Environment Standing Advocacy Committee

GSA Council is looking for 4-6 graduate students to join a committee monitoring local, provincial, and federal social and environmental policy.

The goal is to research these policies and develop political positions for the GSA to advocate on behalf of graduate students.

Anyone with an interest is invited to apply; send an email by May 27 to Matthew Robbins (m2robbins@uwaterloo.ca) with a short description outlining your interest in the committee and what skills or perspective you can contribute.
