

# COLLECTIVE IMPACT AND THE SDGs

## COMMUNITY OF PRACTICE

The Sustainable Development Goals (SDGs) are a global vision to guide action on the economic, social, and environmental challenges facing our planet. These challenges affect us all and they cannot be solved individually or with a single approach. It is only by working together, across sectors and issue areas, that we can imagine, innovate, and implement the solutions to create lasting change.

Join us for this Community of Practice on Collective Impact as we bring changemakers from across Canada together to share experiences and build skills towards a more collaborative Canada.

### THE COMMUNITY OF PRACTICE WILL:

- Build relationships and networks between changemakers across Canada
- Develop collaborative leadership skills using the latest tools and best practices in collective impact
- Facilitate learning on pressing community issues by sharing ideas, problems and questions
- Identify opportunities to strengthen community resilience and sustainability through aligned and mutually reinforcing actions
- Support creating more collaborative working environments

[REGISTER HERE](#)

### LOGISTICS

- Virtual meetings
- 10 monthly sessions from April 2026 - March 2027
- Free to participate

### WHO SHOULD ATTEND?

This CoP is designed for community changemakers across organizations, sectors and geographies in Canada, including:

- Teachers, professors, students
- Non-profits and community organizations
- Businesses and the private-sector
- Government representatives, both elected and staff
- Foundations and funders
- Faith-based organizations and service clubs

Members are encouraged to bring and share their experiences and questions.
