

Mass Spectrometry Applications

Bioscience

protein ID
protein modification
peptide sequencing
lipids
nucleotides
carbohydrates

Environmental

pesticides
herbicides
PAH's, PCB's and dioxins
personal care products

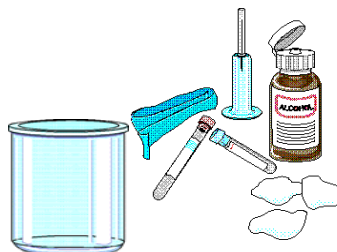

Consumer Products

nutraceuticals
lipids
antioxidants
sugars

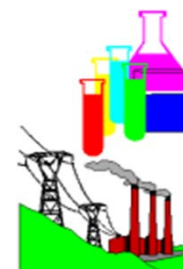

Pharmaceuticals

drugs
metabolites
steroids
opiates
natural products

Clinical

diagnostic tests
amino acids
vitamins
homocysteine
neuro chemicals

Chemical

polymers
dyes
phthalates
detergents

... and many others ranging from food safety to space exploration
