

Fall 2021 National Scholarship Application

Faculty of Mathematics

Open to Canadian Citizens or Permanent Residents
applying to any program in the Faculty of Mathematics
excluding Computing and Financial Management (CFM) and Software Engineering (SE)

INSTRUCTIONS

1. You will need your 8-digit Waterloo ID number when completing this application.
2. Submission deadline: 11:59 p.m. EST February 10th, 2021.
3. Please email your complete application and all supporting documents in one PDF attachment. More than one email may result in an incomplete submission.
4. Incomplete submissions will not be considered.
5. Please avoid duplicating information on multiple questions.
6. See page 6 for submission instructions.

PERSONAL INFORMATION

Family Name:

Given Name:

Home Address:

Waterloo ID#:

Date of Birth (mm/dd/yy):

School name:

School address:

Choose one of the contests or competitions you participated in and explain how it has influenced your development in mathematics or computer science.

EXTRA-CURRICULAR ACTIVITIES

List all extracurricular activities in which you have participated (such as athletics, music, drama, clubs, hobbies, work, etc.) in the past three years. Indicate the level of commitment by including the number of hours spent per week and the length of time involved with each activity.

Activity	Hours/Week	Weeks/year	Start Date	End Date

Please describe the extra-curricular activity you found most rewarding.

If you could apply some mathematical or computational idea to solve one societal/environmental/scientific problem, what problem would you hope to address and what sort of mathematical or computational idea would you hope to apply toward solving that problem?

How do you believe your studies in mathematics or computer science will contribute to your long-term/career goals?

CURRENT COURSES

List all courses that you are taking this year. For each course, include the course code (name), the level, your interim grade (if known), and the name of the school where the course is being taken. We require official transcript showing all high school grades to date. If you attended more than one secondary school please transcript for all.

Course code (name)	Level	Interim grade	Name of school

If you would like to share anything else to help us make a decision please include in the space provided.

References

Include one (1) letter of reference from a mathematics or computer studies teacher. Ideally, letter should comment on your academic achievements as well as any contributions you have made to your school.

Please include a PDF copy of your letter with your application submission.

If your teacher prefers to send separately please ask they include your full name and Waterloo ID# to be matched with your application. Please notify Carolyn Sedore prior to submission.

Declaration

Please include a statement that indicates all information is correct and accurate in your submission email.

Instructions for Submission

It is your responsibility to submit a complete application on or before February 10th, 2021.

Email carolyn.sedore@uwaterloo.ca ONE PDF document attachment containing your entire application and all supporting documents.

Your PDF document should include, in the following order,

completed application
official high school transcript [if attended more than one school please
include all] one reference letter - mathematics or computer science teacher
