Disruptive technologies and other trends: how will they impact the business of insurance and the actuarial profession?

Wednesday, October 1, 2014
4 p.m.
Davis Centre 1302

In this presentation, Cindy will explore how disruptive technologies such as the mobile internet, the automation of knowledge work, the internet of things, cloud technology and next generation genomics — as well as trends in consumer preferences and the regulatory environment could impact the business of insurance and the actuarial profession in the future.
