

# THE ACTUARIAL SCIENCE DISTINGUISHED PRACTITIONER SERIES PRESENTS CINDY FORBES

**CINDY FORBES**

BMath '79

Executive Vice President  
and Chief Actuary of  
Manulife Financial

The Statistics and Actuarial Science department is excited to announce the new Actuarial Science Distinguished Practitioner series. This series will provide talks on various fields of finance and actuarial science with a focus on current issues of interest to practitioners and possible career paths of actuarial graduates. The talks will be given termly and will be aimed at actuarial science students and alumni.

## Disruptive technologies and other trends: how will they impact the business of insurance and the actuarial profession?

**Wednesday, October 1, 2014**

**4 p.m.**

**Davis Centre 1302**

Complimentary reception to follow in the fishbowl, DC 1301  
Limited seating — please RSVP to [mathalumni@uwaterloo.ca](mailto:mathalumni@uwaterloo.ca)

In this presentation, Cindy will explore how disruptive technologies such as the mobile internet, the automation of knowledge work, the internet of things, cloud technology and next generation genomics — as well as trends in consumer preferences and the regulatory environment could impact the business of insurance and the actuarial profession in the future.

**Everyone welcome!**
