

# NANOTECHNOLOGY SEMINAR COMPLETION FORM

## MAsc and PhD programs

Nanotechnology research seminars are non-course degree requirements. The seminar is a forum for student presentation of research results or proposals. Invited speakers from academia and industry will also present results of research from time to time. The range of topics that will be addressed in the seminar crosses all areas of research in the Nanotechnology collaborative program. Each student is required to present at least one research seminar. To receive credit, students are required to attend at least eight seminars other than their own before completing their program.

Once the 8 seminars are completed you must submit the completed form to your departmental Graduate Studies Office. The form will be submitted to the University Graduate Studies Office to show completion of the 8 seminar milestone requirement.

---

Student Name: \_\_\_\_\_ I.D.# \_\_\_\_\_

Department: \_\_\_\_\_ Program: \_\_\_\_\_

Short Seminar Title/Speaker	Date Attended	Attendance Initials
1) _____	_____	_____
2) _____	_____	_____
