Course Description:
From theme songs at political rallies, to blaring AC/DC as a weapon of war, to using music for mourning and healing, music is powerful. This course explores the power of music and its relationship to peace and conflict using examples from around the world. We will examine topics such as how music expresses political dissent and is used to mobilize resistance (violent and non-violent); how music helps people to cope with and recover from trauma, violence and war; and, how it brings people together across conflict lines. Fundamental questions we consider include: Why is music so powerful? How is music used both for conflict and peace? How can we better use music to transform conflict?

Prerequisite: second year (PACS); departmental consent (Music).

Required Materials: (must have access to LEARN, no purchases necessary)
1. Assigned readings are available as electronic resources on LEARN (link to Course e-Reserves OR uploaded under Course Materials/Content/*) [free access]
2. Assigned listening available on/via LEARN (under Course Materials/Content/*) OR internet links (details below)

Intended Learning Outcomes:
• Identify and articulate a variety of ways that music interacts with conflict contexts (i.e. interplay with conflict cycles, dimensions of change)
• Discuss the power of music with regard to its psychological and physiological impact on participants (music-makers, listeners)
• Analyze real-world cases and apply a tri-partite model of musical study (i.e., musical concept, behaviour, sound) to better understand the ways in which music contributes to building peace (e.g., wage conflict non-violently, prevent war, de-escalate conflict, transform conflict) in specific contexts
• Observe and listen to music with an increased openness, awareness, understanding and curiosity
• Acquire sensitivity to the limits of our interpretations in the absence of insider musical and contextual knowledge in the study of music
• Reflect critically on our society’s relationship to music and its role in peace and conflict, and how this is reflected in various institutions (e.g., government, media, education), and in your personal day-to-day activities
• Participate in an exchange of ideas interpreting music (e.g., dynamics, tempo, key features) and its relationship to peace and conflict both orally and in writing

### Course Work:

1. **Participation (15%)**
   
   This course is a mixed format class; some classes will involve a traditional lecture format, others will involve significant active participation in order to discuss, question and explore the material. We will work to create a collaborative learning community, which requires respectful engagement with the material and each other, particularly when viewpoints differ. Regular class attendance is important, expected and factored into the grade (one absence will be excused without penalty or a medical note).
   
   Part of the grade draws on your engagement throughout the course including discussions in and out of class, listening activities, responses to assigned AV material as well as readings, and attitude. Class participation goes considerably beyond attendance and will be assessed based upon:
   
   - Active, constructive contributions to course discussions (e.g. remarking on one or more elements of the past week’s readings or musical works that seemed worthy of comment, building-on another’s ideas, providing constructive counter-points, and raising analytical questions);
   - Evidence of thoughtful engagement with the reading material (failure to read will affect your grade);
   - Contributions that are clear, logically consistent, original and use relevant evidence;
   - Comments that are clear, enthusiastic and respectful;
   - Completion of periodic in-class assignments, including a short video response in Week 4 (worth 3%).

2. **Take-home assignment (15%)**

   “Fundamental Concepts of Ethnomusicology and Peace and Conflict Studies.” Primarily focused on lectures and assigned readings. The assignment consists of short answer questions including definitions of terms and brief essay questions (100-200 words). You will also be expected to provide musical examples to support your answers. **Due Jan. 21**

3. **First Word or Tune-In (10%)**

   A five-minute synopsis presented at the beginning of class that is based on the assigned readings and listening (*First Word*), or based on a music or video clip you select that complements the class topic of the day (*Tune-In*). You will be asked to hand in one page of notes (350–500 words, sentence or point form). You have the choice to do either *First Word* or *Tune-In*. Notify the instructors as early as possible which option you choose. **Scheduled the first week of class.**
4. **Major Project (proposal + project = 35%)**

   a. **Proposal (10%)**
   A two- to three-page Major Project Proposal, including a thoughtful and pointed statement of the central theme or argument, a brief outline of the project, and an Annotated Bibliography of research resources is due the day of the major project workshop on either February 9 or 11. The proposal consists of a thoughtfully developed statement identifying the subject and focus of your project and the general shape/direction the project is likely to take. You will present your proposal at the project workshop. Please note that failure to submit the Major Project Proposal on time and to participate in the Major Project Proposal Workshop will result in a grade of “0”. More details about the proposal and workshop will be provided in class. **Due Feb. 9 or 11**

   b. **Major Project (25%)**
   The Major Project may take one of the following forms:

   **ONE:** A thoughtfully-focused, coherent, carefully-documented analytical research essay (of 2250–2500 words) that identifies and explicates (some of) the work of a musician or artist or peacebuilder (or filmmaker or web-site or organization or institutional event) who/that has created or employed music to protest war or pursue peace. As the course demonstrates, numerous artists have devoted their creative energies to the cause of peace. The works covered in this course engage only a few of these. Music has been deployed powerfully with respect to building peace, from West African griots to youth peacebuilding initiatives that reintegrate child soldiers (e.g., War Dance). There are also organizations that work at combining peacebuilding and music (e.g., Musicians without Borders, Masterpeace). Students are invited to use the internet or print sources to locate artistic activities in the cause of peace, and to formulate and compose a critical assessment of one such effort.

   **TWO:** This is a creative, more open-ended option. Students who are interested in preparing (alone, or in a group of two or three) a video-based project (i.e., you would be making a video of some sort rather than writing a paper) should make their wishes to pursue this option clear by **Week 3** of the term. You might write and produce music as part of this option.

   **THREE:** Students who prefer to prepare a project that is more conventional, in a scholarly sense, are welcome to compose a research paper (which makes explicit use of at least five peer-reviewed scholarly resources) that offers an extended and fresh reading of any of the topics we have covered in course. The paper should be 2250–2500 words in length and explore in a clear way a particular theme, artist or work covered in class. Students are advised to explore in depth a particular aspect of a given text, paying attention to how the literary text in question addresses issues related to music and a quest for peace.

   Completed projects are **due March 18** at the start of class. We are willing to provide an automatic grace period up to the beginning of class, March 25.

   **N.b. Students are not permitted to treat the same author or text in both a class presentation and a major project.**

5. **Take Home Final (25%)**
   This final assignment consists of a take-home essay. This assignment will invite students to reflect on how the readings, musical works, class discussions, and their independent research have informed their own understanding of the relationship between music, peace and conflict. Students will be expected to comment on selected musical works and required reading texts, as well as on any other material presented in the class. Students will chose from a set of essay prompts. **Due April 8**
Course Expectations, Policies and University of Waterloo

1. Coursework Deadlines
   Coursework must be submitted in class or on LEARN (as instructed) by the due date. Electronic submissions will be closed by 11:59 pm. See point #9. Accommodation Due to Illness below for exceptional cases.

2. Laptop, Tablet and Phone Policy
   The use of laptops and tablets in the classroom is a privilege. Please be considerate towards your peers as your use of these devices may disturb their learning. Laptops and tablets should only be used for taking notes and consulting course materials. Phones should be silenced and kept out of sight for the duration of the class period. The instructor reserves the right to modify this policy as needed throughout the term.

3. Academic Integrity
   In order to maintain a culture of academic integrity, members of the University of Waterloo community are expected to promote honesty, trust, fairness, respect and responsibility. See the UWaterloo Academic Integrity Webpage (https://uwaterloo.ca/academic-integrity/) and the Arts Academic Integrity Office Webpage (http://arts.uwaterloo.ca/current-undergraduates/academic-responsibility) and https://uwaterloo.ca/arts/current-undergraduates/student-support/ethical-behavior for more information.

4. Discipline
   A student is expected to know what constitutes academic integrity to avoid committing academic offenses and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offense, or who needs help in learning how to avoid offenses (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should seek guidance from the course professor, academic advisor, or the undergraduate associate dean. For information on categories of offenses and types of penalties, students should refer to Policy 71, Student Discipline (http://www.adm.uwaterloo.ca/infosec/Policies/policy71.htm). For typical penalties check Guidelines for the Assessment of Penalties (http://www.adm.uwaterloo.ca/infosec/guidelines/penaltyguidelines.htm).

5. Grievance
   A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70, Student Petitions and Grievances, Section 4 (https://uwaterloo.ca/secretariat/policies-procedures-guidelines/policy-70). When in doubt please be certain to contact the department’s administrative assistant who will provide further assistance.

6. Appeals
   A decision made or penalty imposed under Policy 70, Student Petitions and Grievances (other than a petition) or Policy 71, Student Discipline may be appealed if there is a ground. A student who believes he/she has a ground for an appeal should refer to Policy 72, Student Appeals (http://www.adm.uwaterloo.ca/infosec/Policies/policy72.htm).

7. Access Ability Services - Accommodation for Students with Disabilities
   The University of Waterloo and Grebel share a commitment to support the participation and access to university programs, services, and facilities by persons with disabilities.

   Note for Students with Disabilities
   • Contact the Office of AccessAbility Services at 519-888-4567 ext. 35082 or visit Needles Hall 1132. Book an appointment to meet with an advisor to discuss the available services and supports. The Office for Persons with Disabilities (OPD) collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the Office at the beginning of each academic term.

8. Accommodation Due to Illness
   From time to time students become ill or have ongoing medical conditions that prevent them from meeting academic obligations. The University is committed to assisting students who are ill and has established the following policy:

   Documentation
   • Students in on-campus courses who are ill and unable to meet assignment due dates or write a term test or final examination should seek medical treatment and provide confirmation of the illness to the instructor(s) within 48 hours. A doctor’s note or form created by the physician or clinic is acceptable
   • In the case of a missed test (midterm or final exam), students must submit within 48 hours medical documentation that contains the same information specified on the UW Verification of Illness Form.
