Conrad Grebel University College  
University of Waterloo  
PACS 331 – Trauma, Healing & Conflict Resolution  
Winter 2020

Class Time: Wednesdays, 9:00 – 11:50 am  
Location: Room 1300, Conrad Grebel University College

Instructor: Sue Gallagher MSW, RSW  
Email: sue.gallagher@uwaterloo.ca  
Office Hours: flexible by appointment before or after class

Acknowledgment:
We acknowledge that we are living and working on the traditional territory of the Attawandaron (also known as Neutral), Anishinaabe and Haudenosaunee peoples. The University of Waterloo is situated on the Haldimand Tract, the land promised to the Six Nations that includes six miles on each side of the Grand River.

A) Course Description
This is a seminar course that will allow students to gain an understanding of theories, models, research and practices of trauma and trauma healing related to the discipline of peace and conflict studies.
The following core questions will be addressed through readings, lectures, group discussions, videos, case studies, practical skills labs and guest speakers:

1) What is trauma?
2) How are individuals and groups affected by trauma?
3) What theories and models have been useful for addressing trauma?
4) What practical skills are helpful for supporting people post-trauma?
5) What is the process of resilience and how do people move towards healing and/or coping?
6) What is the role of the peace and conflict studies practitioner in transforming trauma?
7) What is ‘secondary traumatic stress’ or ‘vicarious trauma’ and how might it impact those working with trauma and trauma survivors.

WARNING: Some of the course content might be challenging. We will be exploring topics that might be difficult for some. Please note that the class is not intended to be a therapeutic environment, rather an educational one where difficult issues can be explored in depth. If you suspect that a particular topic/course will be too difficult emotionally for you please contact me in advance to make alternative arrangements.
Please consult the syllabus regularly for an outline of each class and feel free to check in with me.
B) Learning Outcomes
By the end of the course students will be able to:

- **distinguish** between healthy and traumatic stress.
- **identify** cognitive, emotional, spiritual, physical, sexual and relational impacts of trauma.
- **describe** connections between trauma, mental health, addictions and violence.
- **communicate** in supportive ways to people who have experienced trauma.
- **describe** models of trauma intervention and associated research.
- **create** a successful PSA.
- **name** processes of resilience that contribute to individual and group recovery.
- **reflect** on the use of self and the role of the peace and conflict studies practitioner in transforming trauma.
- **recognize** the impact of trauma on those who work in the field of trauma and/or with survivors

**Required Texts**

Klinic Community Health Centre. Trauma-informed: The Trauma-informed Toolkit. 2013 (available free [here](#)).

Note: This course uses a combination of scholarly and popular readings: *italicized readings are on-line reserve; the readings in bold are hyperlinked and available on line*

**Course Outline** *there may be some changes in order due to availability of guest speakers!*

1) **Attendance and Participation:** attendance will be taken every class and the expectation is that students will be comfortable making meaningful contributions to class discussions. This can include helpful questions and comments that show evidence of critical thought and attention to reading, assignment and lecture material. Missing more than 2 classes may impact your final grade.

2) **Journals:** Following each class, students will write a brief reflection on the class. The purpose of this reflection is to provide an intentional forum for processing the emotional material from the class and connecting it to ‘self care’ strategies. **Each reflection will answer the following**
questions:
1. How did this class make you feel? (remember to identify your emotional response)
2. What did you do to process those emotions?
3. What did you learn from this class/readings/discussions?

Each reflection will be about 1 page in length – it can be typed or hand written. If you hand write, you can just upload a picture!

3) Annotated bibliography: The purpose of this assignment is to dig into the current literature and resources on trauma, trauma healing and conflict resolution. Students will identify an area of interest and provide a review of 8-10 articles/resources that explore that interest. This review will be maximum 5 pages including a brief introduction and conclusion indicating what the area of interest was and how the research informs your understanding. This review will provide the research necessary for your final project.

Introduction:
What is the area of trauma you are exploring and why is it of particular interest? 5 marks

Review of 8-10 articles:
A brief summary of each article; a reflection on the usefulness of the article in terms of answering your question/exploring your area of interest. 20 marks

Conclusion:
How did the articles reviewed enhance your understanding of your topic/answer your question? How has your understanding of trauma in the context of the your question shifted? What questions are you left with? 5 marks

The fine print:
At least half of the articles/resources chosen for review must be outside of the course syllabus. You may use a mix of popular (eg. trusted web resources) and scholarly resources. 5 pages is the maximum- 12 pt font, double spaced. You may use this assignment as a platform for either or both of your PSA and final assignment.

3) PSA - Public Service Announcement
Students will chose an area of trauma or trauma healing and create a PSA that will best inform the class on the issue. Be prepared in class to link your PSA announcement to what you have learned about trauma and to facilitate a brief discussion following your presentation.

Length: 1-2 minutes. This is not a typical presentation! You can work alone or in groups- although PSA’s could be delivered ‘live’, the best way is to prepare an audio or video file to be shared with the class. Please hand in a written copy of your PSA references. (This assignment may be treated as an outline for the research assignment!) * a brief grading rubric will be provided

4) Research Assignment: Building on the literature review completed, students will explore a topic in the field of trauma, trauma healing and/or the relationship to conflict resolution that
they are interested in studying further. The format of this assignment can take a variety of forms!

Memory and trauma

- How does trauma affect memory?
- What changes in the brain as a result of trauma?

Healing combat trauma

- How are people who live and work in war zones affected by trauma?
- What modalities have been helpful for reintegrating soldiers affected by PTSD?

Case study of collective trauma:

- Choose a particular group (i.e. Indigenous peoples, refugees etc.), and consider how has trauma impacted them as a group?
- What types of needs are unique to group trauma?
- What has been attempted to help/support these groups heal? How successful has it been?
- What can be learned by the way the group has internally worked towards healing?

Impact of intergenerational trauma

- How is trauma transferred from generation to generation?
- How are cycles of violence or traumatic experiences perpetuated within families?

Justice and trauma

- What is “justice” for trauma survivors?
- What role does justice play in healing?
- The role of apology in trauma healing

How do artistic approaches contribute towards trauma healing?

What is secondary traumatic stress and what is its impact?

The fine print:

This research assignment will be 8 to 10 pages in length (not including title page/bibliography/footnotes or other non-content pages); double-spaced using a standard APA or MLA formatting. This can take a variety of formats, including a report, a position (argumentative) or analytical paper. I am open to other ideas besides a paper, please just check with me in advance. Be sure to use a variety of sources. * a grading rubric will be provided

Assignment Deadlines

Late written assignments (literature review, PSA & research assignment) will be assessed an automatic penalty of 5% with an additional 3% penalty assessed per additional day

Missed Classes

If you know you will be absent from class, please email me and let me know. Students who miss class are responsible to obtain lecture notes/handouts from other students.

Accommodation for Illness or Unforeseen Circumstances:

The instructor follows the practices of the University of Waterloo in accommodating students who have documented reasons for missing assignments or submitting work late: weblink.

Academic Integrity:

In order to maintain a culture of academic integrity, members of the University of Waterloo
community are expected to promote honesty, trust, fairness, respect and responsibility. See the UWWaterloo Academic Integritiy webpage (https://uwaterloo.ca/academic-integrity/) and the Arts Academic Integrity webpage (https://uwaterloo.ca/arts/current-undergraduates/student-support/ethical-behaviour) for more information.

**Discipline:** A student is expected to know what constitutes academic integrity, to avoid committing academic offences, and to take responsibility for their own actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about “rules” for group work/collaboration, should seek guidance from the course professor, academic advisor, or Administrative Dean. When misconduct has been found to have occurred, disciplinary penalties are imposed under Policy 71 – Student Discipline. For information on categories of offences and types of penalties, students should refer to Policy 71 - Student Discipline. For typical penalties check Guidelines for the Assessment of Penalties.

Students should also be aware that copyright laws in Canada prohibit reproducing more than 10% of any work without permission from its author, publisher, or other copyright holder. Waterloo’s policy on Fair Dealing is available here. Violation of Canada’s Copyright Act is a punishable academic offence under Policy 71 – Student Discipline.

**Grievance:** A student who believes that a decision affecting some aspect of university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4. When in doubt please be certain to contact the department’s administrative assistant, who will provide further assistance.

**Appeals:** A decision made or penalty imposed under Policy 70, Student Petitions and Grievances (other than a petition) or Policy 71, Student Discipline may be appealed if there are grounds. Students who believe they have grounds for an appeal should refer to Policy 72, Student Appeals (https://uwaterloo.ca/secretariat-general-counsel/policies-procedures-guidelines/policy-72).

**Academic Integrity website (Arts)**  
**Academic Integrity Office website (uWaterloo)**

Academic Integrity Office website (uWaterloo)

**Accommodation for Students with Disabilities:**

**Note for Students with Disabilities:** The AccessAbility Services office, located on the first floor of the Needles Hall extension (NH 1401), collaborates with all academic departments to arrange appropriate accommodations for students with disabilities, without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the AAS office at the beginning of each academic term.

**Intellectual Property.** Students should be aware that this course contains the intellectual property of the instructor, which can include:

- lecture handouts and presentations (e.g., PowerPoint slides)
- lecture content, both spoken and written (and any audio or video recording thereof)
• questions from various types of assessments (e.g., assignments, quizzes, tests, final exams)
• work protected by copyright (i.e., any work authored by the instructor)

Making available the intellectual property of instructors without their express written consent (e.g., uploading lecture notes or assignments to an online repository) is considered theft of intellectual property and subject to disciplinary sanctions as described in Policy 71 – Student Discipline. Students who become aware of the availability of what may be their instructor’s intellectual property in online repositories are encouraged to alert the instructor.

_Sue Gallagher MSW, RSW January 2020_
