

A \$500 travel award is awarded annually to a full-time University of Waterloo graduate student registered in a Master's or Doctoral program in the School of Pharmacy who is presenting a paper or poster at a conference. This fund is made possible by a donation from Christine and David Edwards. To be considered for this travel award, students must have applied for the Graduate Studies Research Travel Assistantship offered through the University Graduate Studies Office and be receiving partial travel support from their supervisor.

Students should submit a completed application form along with a copy of their application for a Graduate Studies Research Travel Assistantship to the School of Pharmacy Graduate Coordinator by the following deadlines: March 15 (for Spring travel), July 15 (for Fall travel) and November 15 (for Winter travel).
