PhD Seminar Requirement Form

UNIVERSITY OF
WATERLOO

As part of the QI PhD program, students are required to present two publicly announced seminars on a QI topic, each attended by at least one approved QI supervisor. One seminar must be targeted to a QI audience, and one seminar must be targeted towards members of your home unit (Applied Mathematics, Chemistry, Combinatorics and Optimization, Computer Science, Electrical and Computer Engineering, or Physics and Astronomy). One or both seminars may simultaneously fulfill your home unit’s seminar or lecturing requirement.

Record each QI seminar on this form, and return the form to IQC’s Graduate Program Coordinator after each seminar is approved by a QI supervisor.

Name: _______________________________  Student ID: ______________________

1. Title: _______________________________

   Date: _______________________________

   Target Audience:  
   QI  
   non-QI  

   I have received feedback on this seminar from a QI supervisor ☐

   QI Supervisor Approval
