The title and description of our event is:

**Growth Planning in Ontario: Retrospective, Impacts, and Prospects**

The Provinces’ 2017 revision of the Growth Plan for the GGH is one of a number of key policy developments influencing planning and development across Southern Ontario communities. The fall 2018 Pragma conference will take stock of the impacts of the growth plan, now 12 years old, and discuss the future as implementation of “2.0” unfolds against the backdrop of a very different Ontario. A select group of speakers from the Ontario Government, development and building industry, municipal government, and academia will provide their perspectives on the Growth Plan’s outcomes, successes and challenges. We have included voices from across the GGH and beyond, highlighting the variety of experiences and perspectives. It will prove to be an engaging and provocative discussion; we look forward to you joining in!
