- Understand the main debates around the key domestic determinants of trade policy making and their international role
- Become familiar with the most important policy debates pertaining to Canada’s international trade
- Develop familiarity with non-trade ramifications of trade policy and understand the interactions with other public policy areas such as: development, labour markets and environmental regimes.

Course Requirements, Expectations, and Standards:

Attendance: All students are expected to attend class. Penalties for an unreasonable number of absences throughout the term may be imposed.
Participation: This is a seminar and thus all students are expected to fully engage with the readings and participate in the class discussions every week. Each student should take a reasoned position based on each of the reading components. A component of your grade will reflect this. (see below)

Requirements and Evaluation:

Participation and weekly response papers: 20%
Readings for class discussion and short written assignments will be assigned each week. Your critical analysis of these readings written up in a 1-2 page response paper is due in class. This material will also constitute the starting point for the discussion part of each class. Weekly papers will be marked on a binary (pass or fail) scale.

Midterm Exam: 25%
This in-class exam will be based on the material covered in class and will consist of several short-essay questions. Please note: Student travel plans are not an acceptable reason for granting an alternative examination time.

Presentation and Referee Report: 15% + 5%
The last two classes will be mainly dedicated to student presentations. Each student will present the core argument of their final essay in a short class presentation. The use of slides and/or audience handouts is encouraged. Every paper presentation will be assigned a student referee, who will read the material ahead of time and will provide brief comments on the paper following the presentation. The intention is for each of you to receive constructive feedback on your work from your peers (referee and the rest of the class) before writing up the final papers.

Final Essay: 35%
This is a research paper on a specific topic relating to the themes of the course. The topic proposal must be submitted to the instructor for approval by October 31, 2013. The final essay will be due on December 12, 2013 and will consist of approximately 15 double-spaced pages.

Late Policy:
Late submissions of the weekly written assignments and/or the final essay will suffer a penalty equivalent to 10% for every day they are late. Unless with the instructor’s permission, no late work will be accepted more than 5 days after deadline.
