Course Description:
Examine a current issue in political science by attending talks, monitoring the media, and doing independent research. With topics being self-selected and work being self-guided, students in this course will demonstrate independent learning and gain the experience-based skills needed to investigate how a concept/issue in political science plays out in contemporary politics, policy and governance. There is no classroom component to this course, instead participants complete three reflection essays and submit a final project that encapsulates their experience.

Pre-Requisites: For Political Science majors only, upon approval by Experiential Learning Coordinator (Dr. Heather Whiteside: h2whiteside@uwaterloo.ca).

Course Objectives:
Upon completion of this course, students should be able to:
- Select a broad topic/concept in political science
- Attend talks, conferences, monitor the media and/or do independent research on the chosen topic/concept.
- Complete pre-, mid-, and post- learning reflections using Learn
- Prepare a final project that investigates how the chosen topic/concept plays out in contemporary politics, policy and governance.

Course Policies

Course Website: The course outline, detailed assignments, class announcements, grades, etc. will be available on the course website on LEARN. If you have questions about when assignments are due, late policies, sickness accommodation, etc., your first source of information is the course outline. Users can login to LEARN via: LEARN http://learn.uwaterloo.ca/. Use your WatIAM/Quest username and password.

Submission of Assignments: The final submission date for assignments is 7 days after the due date (with the imposition of late penalties). The instructor WILL NOT accept the assignment for grading after 7 days have passed regardless of documented extenuating circumstances. If an extenuating circumstance may prevent you from submitting an assignment by its submission date, please contact the professor before the due date and be prepared to provide official documentation concerning your situation.

Assignments have to be submitted by 4:30 pm on the due date in the on Learn in the appropriate drop box folder. The time-stamp given on the uploaded document in Learn dropbox will be used to determine if an assignment is late.

For assignments submitted on Learn, you are responsible for ensuring that files are uncorrupted and submitted as a .pdf document or as a Microsoft Office Word document. All written assignments must be formatted accordingly: Times New Roman, font size 12, 1” margins on all sides and double-spaced.

Late Penalties: All late assignments (that is, assignments submitted after 4:30 pm on their due date) will be penalized at 10% a day (including weekends). The instructor WILL NOT accept the assignment 7 days after the due date (please see submission policy above).

For example, if you submitted your assignment at 7 pm on the due date it will count as a late submission. If you received 16/20, a 5% penalty would mean that you will get 15/20 instead.

A waiver of this penalty will be considered only in the event of an officially documented extenuating circumstance (this does NOT include a note from your mother). Also see “Extension Policy” below.

Extension Policy: All requests for assignment extensions must be directed to the professor. If a situation arises that may prevent you from completing an assignment, contact the professor before the due date. You will be granted an extension only if it is an officially documented extenuating circumstance (that is, serious personal illness, critical personal or family crisis, etc.) by AccessAbility, Counselling Services, or with the Verification of Illness Form. Please note that in the case of illness, I will only accept the UW Verification of Illness Form.

Other extensions and accommodations are granted rarely and are at the discretion of the instructor. Extensions will NOT be granted for computer-related issues. Please also note that if you have not been granted an extension the late policy and submission policy WILL apply without exception.

Policy About Collaborative Work: All written work must be sole authored.
University Policies

Cross-listed course: Please note that a cross-listed course will count in all respective averages no matter under which rubric it has been taken. For example, a PHIL/PSCI cross-list will count in a Philosophy major average, even if the course was taken under the Political Science rubric.
