April 5, 2010

To: All UW Students, Faculty, and Staff:

Regarding: Termination of Declaration of Absence for Influenza-like Illness for Students Seeking Academic Accommodation

In September 2009 I announced that verification of illness was not needed for student absences resulting from the flu. This memo is to announce the termination of that exception from standard practice.

Effective April 5, 2010, any absence for which a student is seeking accommodation requires verification by a doctor in the usual manner. Information about accommodation due to illness can be found at Accommodation.

To: All UW Staff and Faculty

Regarding: Influenza Reporting

Starting in October, 2009 employees were requested to report influenza symptoms and/or absences to their supervisors. This memo is to announce the end of that reporting effective immediately.
