1. COURSE INFORMATION

Time and Location: Tuesdays, 12:30-2:30, PAS 4032
Instructor: Dr. Purdon, C. Psych., Professor
Office: PAS 3038
e-mail: clpurdon@uwaterloo.ca
Office Hour: Mondays, 11:00am-12:00pm, or by appointment

2. COURSE DESCRIPTION

This course will examine leading research on the phenomenology, development and persistence of anxiety and related disorders as understood from a cognitive/learning perspective. We will first look at the role of learning and cognitive processes in anxiety. We will then cover specific anxiety and anxiety-related disorders, including Obsessive-Compulsive Disorder, Generalized Anxiety Disorder, Social Anxiety Disorder, Panic Disorder, and Post-traumatic Stress Disorder. Treatment will be mentioned in class but will not be a primary focus of the course.

3. TEXTBOOK/READINGS

There is no textbook for the course. Instead, you will be reading published articles from psychology journals and selected chapters from published books. These are posted on LEARN and are listed below. These readings form the core of the course and understanding these readings will be absolutely essential to your success. I will provide you with questions to guide your reading each week. The readings are mostly primary sources and will contain terminology and concepts that you may not be familiar with. You will likely need to review the readings more than once in order to understand them enough to participate meaningfully in class discussions and to provide meaningful answers on your tests and final exam.

4. COURSE OBJECTIVES

The purpose of this course is to familiarize you with the phenomenology and persistence of anxiety disorders.

Upon completion of this course, you should be able to:

a. Think critically about theory and research in the area of anxiety and related disorders.

b. Be able to describe the symptoms and experience of those with anxiety and anxiety disorders.

b. Be able to describe the cognitive/learning factors that contribute to the persistence of anxiety and related disorders.
5. SUMMARY OF EVALUATION

<table>
<thead>
<tr>
<th>Component</th>

<tbody>
<tr>
<td>2 In-Class Tests worth 25% each</td>
<td>50%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>35%</td>
</tr>
<tr>
<td>Class Participation</td>
<td>15%</td>
</tr>
</tbody>
</table>

i) In-Class Tests

In-class tests will be held on weeks 5 and 10 (October 13 and November 15), you will be given tests that will include both short answer and essay questions worth 25% of your grade each. The material on the tests will derive directly from the readings and class discussion; it is not meant to stump or surprise you. I am looking for the strength and quality of your understanding of the important conceptual and methodological issues we cover. The questions about the readings I give you each week will help you identify key concepts. You are expected to write in formal style, with appropriate spelling, grammar and punctuation.

I expect that you will attend class, and that you will complete the tests in class. Only students with documented, major disruptions in health or personal functioning will be eligible for alternative arrangements (please see below for more details).

ii) Final Exam

The final exam will be held during the final exam period, which is December 8 – 22, and will be worth 35% of your mark. The exam will be cumulative, with emphasis on the material covered in Weeks 11 and 12. You are expected to write the final exam on the date that it is scheduled, so be sure to plan your travel and other holiday arrangements accordingly; accommodations will not be made for travel or other personal plans. The final exam schedule is typically released in late October.
iii) Class Participation

Each week we take up the questions I have provided you with to guide your readings of the course material. This discussion will form the basis of the class. I will be noting when you volunteer answers, engage in discussion, ask questions and otherwise demonstrate an understanding of and engagement with the course material. Each week I will also call on students who haven’t volunteered answers. This is not meant to torture you, but to help you learn to become confident articulating your ideas in public. You are senior students who will soon be embarking on careers or further studies. Regardless of the path you take, the ability to contribute in a meaningful and confident way to discussion will be invaluable to your success.

There are 10 classes in which there will be class discussion and in each of those you have the opportunity to earn up to 1.5% of your grade by making a meaningful contribution. In your contributions I will be looking for evidence of engagement, thoughtfulness, and that you have read and understood the material.

ABSENCES AND LATE PENALTIES

The assumption of this course is that you will attend all classes, complete all tests in class and write the final exam as scheduled. Alternative arrangements for in-class tests and the final exam will only be made if there is a major disruption in your ability to function academically due to documented health reasons or personal problems. If you are in that boat, please email me at least an hour in advance of the test you are missing, if possible, or as soon as possible afterwards. Note that all documentation must date from before the missed test or exam, not after it. That is, the documentation must represent first-hand knowledge of the circumstances that made it impossible for you to write the tests as scheduled, as opposed to reflecting your retrospective self-report to the authority providing documentation.

The reasons that I am strict about having students complete the tests and exam as scheduled are twofold. The first is fairness; in the absence of a major extenuating circumstance it is not fair for one student to have extra time to prepare. The second reason is pragmatic; there are 25 students in the class, and if I begin making accommodations for typical life nuisances/problems, such as routine colds, commonplace interpersonal stresses, and normal busyness, as opposed to major life disruptions, I would be spending more time than I can afford preparing alternate tests, finding rooms in which to hold them, and supervising the make-up times. This policy is consistent with the UW policy on Academic Integrity (see below).

6. CLASS SCHEDULE

<table>
<thead>
<tr>
<th>Week</th>
<th>Date</th>
<th>Topic</th>
</tr>
</thead>
<tbody>
<tr>
<td>Week 1</td>
<td>September 13</td>
<td><em>Course overview and introduction to anxiety</em></td>
</tr>
<tr>
<td>Week 2</td>
<td>September 20</td>
<td><em>Classical and operant conditioning in anxiety</em></td>
</tr>
<tr>
<td>Week 3</td>
<td>September 27</td>
<td><em>Neuropsychology &amp; emotion regulation of anxiety</em></td>
</tr>
</tbody>
</table>
Week 4  October 4  *Attentional processes in anxiety*

Week 5  October 13*  **Test on Weeks 1, 2, 3, 4**

Week 6  October 18  *Thoughts and thought processes in anxiety*

Week 7  October 25  *Safety behaviours, checking and compulsions*

Week 8  November 1  *Obsessive-compulsive disorder*

Week 9  November 8  *Generalized Anxiety Disorder*

Week 10  November 15  **Test on Weeks 6, 7, 8, 9**

Week 11  November 22  *Panic Disorder and Post traumatic stress disorder*

Week 12  November 29  *Social Anxiety Disorder*

Final exams:  December 8-22

*Class is on THURSDAY due to Reading week

7. COURSE READINGS

**Week 2: September 20 – Classical and Operant Conditioning in Anxiety**

**Week 3: September 27 - Bases of anxiety**

**Week 4: October 4 - Attentional processes in anxiety**

**Week 5: October 13 - TEST #1, Weeks 1, 2, 3, 4**

**Week 6: October 18 – Thoughts and thought processes in anxiety**

**Week 7: October 25 – Safety behaviours, checking, and compulsions**

**Week 8: November 1 – Obsessive-Compulsive Disorder**

**Week 9: November 8 - Generalized Anxiety Disorder**

*Note: sections titled Treatment (e.g., 2.2, 3.2 etc.) not required reading.*

**Week 10: November 15 – Test – Weeks 6, 7, 8, 9**

**Week 11: November 22 - Panic Disorder and Post-Traumatic Stress Disorder**

**Week 12: November 29: Social Anxiety Disorder**

Important Information from the Faculty of Arts

Academic Integrity

Academic Integrity: In order to maintain a culture of academic integrity, members of the University of Waterloo are expected to promote honesty, trust, fairness, respect and responsibility.

Discipline: A student is expected to know what constitutes academic integrity, to avoid committing academic offences, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to Policy 71 - Student Discipline.

Grievance: A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4.

Appeals: A student may appeal the finding and/or penalty in a decision made under Policy 70 - Student Petitions and Grievances (other than regarding a petition) or Policy 71 - Student Discipline if a ground for an appeal can be established. Read Policy 72 - Student Appeals.

Other sources of information for students:
Academic Integrity website (Arts)
Academic Integrity Office (UWaterloo)

Accommodation for Students with Disabilities

Note for students with disabilities: The AccessAbility Services office, located on the first floor of the Needles Hall extension, collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the AS office at the beginning of each academic term.

Concerns About the Course or Instructor (Informal Stage)

We in the Psychology Department take great pride in the high quality of our program and our instructors. Though infrequent, we know that students occasionally find themselves in situations of conflict with their instructors over course policies or grade assessments. If such a conflict arises, the Associate Chair for Undergraduate Studies (Richard Eibach from July 1, 2015 through June 30, 2016) is available for consultation and to mediate a resolution between the student and instructor. Contact information is as follows:
Richard Eibach Email: reibach@uwaterloo.ca; Ph 519-888-4567 ext 38790

A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. See Policy 70 and 71 below for further details.
Students requesting accommodation for course requirements (assignments, midterm tests, final exams, etc.) due to illness should do the following:

- seek medical treatment as soon as possible and obtain a completed uWaterloo Verification of Illness Form: https://uwaterloo.ca/health-services/student-medical-clinic/services/verification-illness
- submit that form to the instructor within 48 hours.
- (preferably) inform the instructor by the due date for the course requirement that you will be unable to meet the deadline and that documentation will be forthcoming.

In the case of a missed final exam, the instructor and student will negotiate an extension for the final exam which will typically be written as soon as possible, but no later than the next offering of the course.

In the case of a missed assignment deadline or midterm test, the instructor will either:
1. waive the course component and re-weight remaining term work as he/she deems fit according to circumstances and the goals of the course, or
2. provide an extension.

In the case of bereavement, the instructor will provide similar accommodations to those for illness. Appropriate documentation to support the request will be required.

Students who are experiencing extenuating circumstances should also inform their academic advisors regarding their personal difficulties.

Official version of the course outline
If there is a discrepancy between the hard copy outline (i.e., if students were provided with a hard copy at the first class) and the outline posted on LEARN, the outline on LEARN will be deemed the official version. Outlines on LEARN may change as instructors develop a course, but they become final as of the first class meeting for the term.
