INTRODUCTION:

This course is of importance to those with interests in the field of human resources as well as to managers in all functional areas of an organization who need to build and develop the knowledge, skills and attitudes to effectively manage people.

Organizations gain sustainable competitive advantage through people thus making Human Resources Management an important partner in the strategic planning and decision making process. Overall, you will gain an understanding of why effective human resource practices are critical to the success of any organization and be introduced to the strategic planning role that Human Resources Professionals now play in organizations.

LEARNING OUTCOMES:

Upon successful completion of this course, students will be able to:

- Understand organizational strategies and the benefits of strategic planning
- Understand how the “world around us” including the economy, competition, legislation and other environmental influences affect the importance of Human Resources Planning
- Gain a better understanding and knowledge regarding various HR topics including; job analysis, HR forecasting, succession planning, downsizing and restructuring, international HRM to name a few.
- Understand why the HR Professional is an important business partner
- Understand how effective HRP can contribute to the overall success of the organization.

THE CLASS:

Classes will be a combination of the following:

- 1) Lecture: You will be guided through the information representing the various chapters in the text. Not all text material will be covered in class however you will be responsible for this information for the mid term test and final exam.
- 2) Group exercises/Individual end of class wrap up assignments
- 3) Group Presentations

APPRAISING STUDENT PERFORMANCE:

25%	Midterm Test	(Chapter 1 to Chapter 7 – Oct 17, 2013)
35%	Final Exam	(Total course content)
20%	Group Assignment	(Due: November 7, 2013)
10%	Group Presentation	See class agenda for group presentation dates
10%	Participation	

NOTE: Your group will receive a “group mark” for the assignment and presentation. These marks will be individually adjusted (lowered) if a group member does not equally contribute to the success of the group. Peer evaluations will be posted on the second last class. You will be responsible to hand the peer evaluation form in on the last class. Failure to hand the peer evaluation in will result in a 0/10 participation mark. The peer evaluation will give you the opportunity to grade each member of your team. I will review this information and make adjustments.

Poor attendance, lack of engagement, not participating in group work during class, working on other activities during class are a few examples of what will contribute to a 0/10 participation mark. After each class attendance will be taken or your individual or group exercise will be handed in.

Group Assignment

The group assignment serves a variety of purposes; foremost, you and your team will align yourselves with a Human Resources topic you find of interest. Your team has two options for the group assignment:

Option 1: Human Resources Function

Describe and critically evaluate a human resources management **function** of interest to the group. You will be responsible to identify your issue and provide relevant research. You will need to provide recommendations and strategies that will help organizations effectively manage the HR function chosen by the group.

Option 2: Human Resources Challenge

Describe and critically evaluate a human resources **challenge** which is of interest to the group. You will be responsible to identify the challenge and explain why with relevant research this is seen as a challenge in today's organizations. You will need to provide recommendations and strategies that will help organizations effectively manage the challenge discussed.

NOTE: Important – If your group is planning to conduct interviews with a particular organization it is imperative this is discussed with me first.

For both options:

- The assignment is worth 20% of your final grade. You will be required to present your assignment to the class which is worth an additional 10%.
- Maximum length: 12 pages not including appendices
- Due Date: see course schedule
- Characteristics of excellent work: executive summary, table of contents, introductory paragraph which discusses the significance of your chosen topic, use of outside sources of information, thorough, practical and creative recommendations , logical summary.

- To ensure your group is on track you will need to hand in a group assignment outline on October 3, 2013. This outline must also include a group photograph clearly identifying each member of the group.

Group Presentation

Your group will prepare and deliver a 20 minute presentation on your assignment topic. Evaluation criteria will be discussed in class.

Note: To be fair to everyone the dates for the assignments, tests, and final examination are final. In accordance with UW regulations, supportive documentation is required should you be faced with a medical or compassionate dilemma (see next section).

Students who are requesting accommodation for course requirements (assignments, midterm tests, final exams, etc.) due to illness should do the following:

- seek medical treatment as soon as possible and obtain a completed UW Verification of Illness Form: http://www.healthservices.uwaterloo.ca/Health_Services/verification.html
- submit that form to the instructor within 48 hours.
- (preferably) inform the instructor by the due date for the course requirement that you will be unable to meet the deadline and that documentation will be forthcoming.

In the case of a missed final exam, the instructor and student will negotiate an extension for the final exam which will typically be written as soon as possible, but no later than the next offering of the course.

In the case of a missed assignment deadline or midterm test, the instructor will either

1. waive the course component and re-weight remaining term work as he/she deems fit according to circumstances and the goals of the course, or
2. provide an extension.

In the case of bereavement, the instructor will provide similar accommodations to those for illness. Appropriate documentation to support the request will be required.

Students who are experiencing extenuating circumstances should also inform their academic advisors regarding their personal difficulties.

The Official Version of the Course Outline

The course outline on Learn will be deemed the official version. Outlines on Learn may change as instructors develop a course, but they become final as of the first class meeting for the term.
