

**Department of Pure Mathematics
University of Waterloo**

Postdoctoral Fellowship in Logic

The Department of Pure Mathematics at the University of Waterloo invites applications for a Postdoctoral Fellowship in Logic to begin on July 1, 2017, subject to funding. Preference will be given to candidates working in Model Theory or Universal Algebra, though candidates in Computability Theory will also be considered.

The position is for a term of up to two years, carries a teaching load of two semester-long courses per year, and pays an annual stipend of \$46,000 CAD plus a \$2,000 research grant. The review of candidates will begin on Monday, January 2nd, 2017.

Applications will be through MathJobs. A complete application consists of a curriculum vitae, research statement, and four letters of reference, with one addressing teaching.
