The Recreation Programme Facilitator is a first or second year post-secondary student who, working together with the Recreation Programme Supervisor, will facilitate a social, recreational and educational summer programme for adults with physical disabilities.

This staff member will be responsible for:

- ensuring the agency's goals of normalization and integration are respected in planning and implementing of this programme.
- working with individual members during planning and delivering of the programme in ways that foster independence, personal growth and achievement, as well as increasing self-esteem.
- the use of small group process to facilitate the above-mentioned goals, and at the same time improving participants' life and social skills.
- organizing workshops focussing on Independent living issues such as finances, vocation, leisure, interpersonal issues such as sexuality, relationship building, and dealing with conflict as well as broader social issues ranging from dealing with poverty to how to contribute individually and collectively to the health of the environment.
- overseeing the organization of social-recreational educational activities and events such as picnics, dances, restaurant hopping, movies, playing/watching sports such as hockey, soccer, baseball, gliding and the pursuit of artistic expression through arts and crafts groups.
- working in conjunction with other staff to organize and layout a health and wellness/fitness programme. Initiative will include setting up equipment and one to one interviews and hosting meetings for participants to identify their interests and needs.
- working in conjunction with other staff to increase involvement of males in agency programmes. Initiative will include setting up one to one interviews and hosting meetings for male participants to identify their interests and needs.
- publicizing the programme in the community. Use social media to increase awareness of the agency and the programme.
- overseeing transportation arrangements made for participants involved in the programme. Collecting and maintaining programme statistics and producing the final summer report.

- Must be continuing education in September in order to qualify for summer employment.
