Research Park logo contest

Waterloo Research + Technology Park Accelerator logo design contest now open to public

WATERLOO, Ont. -- The Waterloo Research + Technology Park Accelerator has launched a contest for the design of a distinctive and creative new logo.

Everyone is eligible to participate and collaboration is allowed. The winning logo will be included in all publications and advertisements of the Research Park, but not limited to, both electronic and print media. The prize for the winning logo is $500, with recognition for two honourable mentions.

A few creative notes have been prepared in support of the activity and available on the UW Research + Technology Park Website: www.rtpark.uwaterloo.ca/about/logo_contest.html

On the same website, the competition rules as well as the requirements for the submission are available. Submissions of the creative work are accepted by either mail or e-mail up until the deadline of April 25. The winner will be announced on April 28.

Entries from those with some acquaintance to the Research Park, including faculty, staff, students and alumni are encouraged. The designs will be judged by a committee of community representatives with an interest in the Accelerator Centre and its mission.

The Accelerator Centre is a key feature of the UW Research + Technology Park. It will encourage the growth of high-tech firms and act as a catalyst for the creation of new products and services by providing a broad range of services including IP management consultation, mentoring, access to professional service providers, community networking events and investor matchmaking with innovators.

Common services, including office and meeting space, administrative services, etc., will be available to clients who will be encouraged to commercialize their ideas and ultimately lease space in other areas of the Research Park.

The University of Waterloo Research + Technology Park: UW is committed to creating a unique community based Research + Technology Park, whose mandate is to foster radical innovation. The high ambition of the Research Park is supported by a comprehensive partnership among the university, the Government of Canada, Province of Ontario, the Region of Waterloo, City of Waterloo, Communitech, and Canada's Technology Triangle.
