### **Short-form Intellectual Property Declaration**

This form is used to record inventions made using University of Waterloo resources, facilities and/or funds managed by Waterloo and is to be completed by the intellectual property (IP) creators to satisfy their obligations under the University's Policy 73 - Intellectual Property Rights. Intellectual Property hereby disclosed may include patentable or copyright materials, where there is an intent to commercialize.

## 1. Title of Intellectual Property

#### 2. Creators

List all individuals who have made a contribution to the intellectual property. In the case of patentable IP, list those who made a creative contribution to a proposed invention. In the case of copyright IP, list those who were responsible for any expression of the work: writing, drawing, or coding if software. If your IP could be protected under both patent and copyright (e.g. for software containing potentially patentable algorithms), please submit two separate forms, indicating authors (for copyright aspects) or inventors (for patentable ideas). Please consult with the Office of Research if you have questions. Attach separate pages if necessary.
