## Treasurer's Report — David E. Matthews

The fiscal year of UWRA runs from January 1 to December 31. Accrued income and expenses for 2019 are summarized in the accounts reproduced on page 1 of these Financial Statements.

The total income of the Association declined by roughly \$ 1,500, largely because only one luncheon, in the spring, was held in 2019. However, thanks to the able organizing efforts of Peggy Day, UWRA members were able to attend a play in St. Jacobs as a group during the autumn; this event led to a new income item, labelled Community events, equalling \$ 780. In comparison to 2018, three fewer new life memberships were purchased during the year. Other income items varied from the corresponding totals in 2018 by fairly modest amounts.

Many expense items in 2019 were slightly lower than the corresponding totals recorded in the previous year. The largest increase corresponded to the cost of the community event (a play in St. Jacobs); no comparable events were organized in 2018. Since only a spring luncheon was held during 2019, the total cost of luncheons in 2019 was somewhat less than half the corresponding amount for 2018. Also, the processing fees paid to Ticketfi were noticeably lower, since tickets to UWRA events are sold through that agency. Otherwise, expenses in 2019 were roughly comparable to those incurred in 2018.

Page 2 of the Financial Statements for 2019 shows the total accumulated funds of UWRA at the end of 2019. The Association had \$ 29,000 in GICs (face value) and \$ 7,801 in its bank account for a total of \$ 36,801. This amount includes the Life Reserve Fund, which represents a portion of life membership fees that have been retained to meet future costs. As income from annual memberships decreases, the Association becomes more dependent on the Life Reserve Fund to meet its operating costs. The Life Reserve Fund decreased marginally from \$ 22,133 at the end of the 2018 financial year to \$ 21,884 at the end of 2019; it currently represents 59% of the accumulated funds of UWRA.

At the close of 2019, the Association continued to be in good financial health.
