

BATTERY AND ELECTRONIC WASTE DISPOSAL GUIDELINE

Find battery and electronic disposal locations on [the Campus Sustainability Map](#).

Disposal Instructions

Batteries

Disposal of batteries occurs in different locations depending on the battery type.

Lithium and rechargeable batteries MUST have their ends taped and/or be individually bagged to reduce fire risk (bags are available at the battery collection points).

Notes for Household E-waste, Research Equipment and Vapes/E-cigarettes

Household E-waste is Accepted

For more details, see the [Central Stores recycling page](#).

Research Equipment

Research equipment that either contains liquids or has a value of \$20,000 or greater will have to follow the [asset disposal process](#) prior to being received as electronic waste.

Vapes and E-cigarettes Cannot be Recycled at the University

Users should contact the store that they purchased from as many stores offer recycling programs through the manufacturers. Additionally, individuals can sign up for [Terracycle's](#) free vape cartridge recycling program.
