**Instructor**

- Course-related questions (e.g., course content, deadlines, assignments, etc.)
- Questions of a personal nature

Instructor: Hsiao D'Ailly
hdailly@uwaterloo.ca

Your instructor checks email and the **Ask the Instructor** discussion topic* frequently and will make every effort to reply to your questions within 24–48 hours, Monday to Friday.
learnhelp@uwaterloo.ca

**Technical Support**, Centre for Extended Learning

- Technical problems with Waterloo LEARN

Include your full name, WatIAM user ID, student number, and course name and number.

**Technical Support** is available during regular business hours, Monday to Friday, 8:30 AM to 4:30 PM (Eastern Time).

**IST Knowledge Base: For Students**

**Learner Support Services**, Centre for Extended Learning

- General inquiries
- WatCards (Student ID Cards)
- Examination information

Include your full name, WatIAM user ID, student number, and course name and number.

*Discussion topics can be accessed by clicking **Connect** and then **Discussions** on the course navigation bar above.*
Course Description and Learning Outcomes

Course Description

The primary goal of this course is to help students become informed consumers of quantitative information in social science research. Emphasis will be placed on understanding basic principles of statistics and learning when and how to apply them.

Learning Outcomes

By the end of this course, you should be able to

- explain how statistics are used in social science research to organize quantitative information, test hypotheses, and report research findings;
- identify variables in a data set and the level of measurement for each variable;
- use various descriptive statistics, tables, and graphs to summarize quantitative information, including data that you collect yourself, or data presented to you through different sources;
- describe the logic of hypothesis testing procedures and the use of inferential statistics in social research;
- use appropriate statistics to answer different research questions and test different hypotheses involving one or two variables; and
- read with ease basic quantitative information, including tables and graphs, and research "findings," including hypothesis testing results in academic journals and the general media.

This online course was developed by Dr. Hsiao D'Ailly, with instructional design and multimedia development support provided by the Centre for Extended Learning.
About the Course Author and Instructor

Course Author — Dr. Hsiao D'Ailly

Educational Background
Hsiao obtained her BA from Taiwan National Normal University. She completed both her Master's degree in Education and PhD in Psychology at the University of Western Ontario. Hsiao also held a two year SSHRC post-doctoral fellowship at the Psychology department at UW before coming to Renison.

Current Research
Immigrant adaptation, community-based research, and cross-cultural psychology.

Philosophy of Teaching
Hsiao believes that only "meaningful learning" is true learning. She encourages students to always see the applications of their new knowledge in real life situations. Her philosophy of teaching fits well with the constructivist theory of learning, believing that learning is an active process in which students construct new ideas or concepts based upon their current and past knowledge.

Hobbies/Interests/Sports
When not involved in research, Hsiao likes to listen to music, play music, read, watch movies, walk with friends, go to new places, and see new things.

Course Instructor — Andriy Struk

Andriy received his BSc, MA, and PhD in Psychology from University of Waterloo. His research focused on understanding the experience of boredom, as well as, why and how people regulate their behavior more generally. Extensively experienced with a variety of data management methods, programming, as well as statistical analysis, Andriy currently spends much of his time broadening his understanding of financial markets and developing systems to
facilitate trading. In his spare time he likes to go for walks, and more serious backcountry backpacking trips when weather permits, when he is cooped up at home a good sci-fi show is his go-to.
Materials and Resources

Textbook

Required

For textbook ordering information, please contact the [W Store | Course Materials + Supplies](#).

For your convenience, you can compile a list of required and optional course materials through [BookLook](#) using your Quest userID and password. If you are having difficulties ordering online and wish to call the Waterloo Bookstore, their phone number is +1 519-888-4673 or toll-free at +1 866-330-7933. Please be aware that textbook orders **CANNOT** be taken over the phone.

Official Grades and Course Access

Official Grades and Academic Standings are available through Quest.

Your access to this course will continue for the duration of the current term. You will not have access to this course once the next term begins.
Course Policies

Late Assignments

Late assignments will not be graded unless there is a documented illness or family emergency.

Online Midterms

You may only take the midterms once. You may not retake a midterm. In cases of severe illness or other extenuating circumstances, with supporting documents, the weighting for the online midterm may be allocated to the final exam.
University Policies

Submission Times

Please be aware that the University of Waterloo is located in the Eastern Time Zone (GMT or UTC-5 during standard time and UTC-4 during daylight saving time) and, as such, the time that your activities and/or assignments are due is based on this zone. If you are outside the Eastern Time Zone and require assistance with converting your time, please try the Ontario, Canada Time Converter.

Accommodation Due to Illness

If your instructor has provided specific procedures for you to follow if you miss assignment due dates, term tests, or a final examination, adhere to those instructions. Otherwise:

Missed Assignments/Tests/Quizzes

Contact the instructor as soon as you realize there will be a problem, and preferably within 48 hours, but no more than 72 hours, have a medical practitioner complete a Verification of Illness Form.

Email a scanned copy of the Verification of Illness Form to your instructor. In your email to the instructor, provide your name, student ID number, and exactly what course activity you missed.

Further information regarding Management of Requests for Accommodation Due to Illness can be found on the Accommodation due to illness page.

Missed Final Examinations

Your faculty determines academic accommodation; therefore we advise you to speak with your professor if you anticipate being unable to fulfill academic requirements due to illness or other extenuating circumstances.

Further information about Examination Accommodations is available in the Undergraduate Calendar.

Academic Integrity

In order to maintain a culture of academic integrity, members of the University of Waterloo community are expected to promote honesty, trust, fairness, respect, and responsibility. If you have not already completed the online tutorial regarding academic integrity you should do so as soon as possible. Undergraduate students should see the Academic Integrity Tutorial and graduate students should see the Graduate Students and Academic Integrity website.

Proper citations are part of academic integrity. Citations in CEL course materials usually follow CEL style, which is based on APA style. Your course may follow a different style. If you are uncertain which style to use for an assignment, please confirm with your instructor or TA.

For further information on academic integrity, please visit the Office of Academic Integrity.

Turnitin
Text matching software (Turnitin®) may be used to screen assignments in this course. Turnitin® is used to verify that all materials and sources in assignments are documented. Students’ submissions are stored on a U.S. server, therefore students must be given an alternative (e.g., scaffolded assignment or annotated bibliography), if they are concerned about their privacy and/or security. Students will be given due notice, in the first week of the term and/or at the time assignment details are provided, about arrangements and alternatives for the use of Turnitin® in this course.

It is the responsibility of the student to notify the instructor if they, in the first week of term or at the time assignment details are provided, wish to submit the alternate assignment.

**Turnitin® at Waterloo**

**Discipline**

A student is expected to know what constitutes academic integrity to avoid committing an academic offence, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about “rules” for group work/collaboration, should seek guidance from the course instructor, academic advisor, or the undergraduate Associate Dean. For information on categories of offences and types of penalties, students should refer to Policy 71 - Student Discipline. For typical penalties, check Guidelines for the Assessment of Penalties.

**Appeals**

A decision made or penalty imposed under Policy 70 - Student Petitions and Grievances, (other than a petition) or Policy 71 - Student Discipline, may be appealed if there is a ground. A student who believes he/she has a ground for an appeal should refer to Policy 72 - Student Appeals.

**Grievance**

A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4. When in doubt please be certain to contact the department’s administrative assistant who will provide further assistance.

**Final Grades**

In accordance with Policy 46 - Information Management, Appendix A - Access to and Release of Student Information, the Centre for Extended Learning does not release final examination grades or final course grades to students. Students must go to Quest to see all final grades. Any grades posted in Waterloo LEARN are unofficial.

**AccessAbility Services**

AccessAbility Services, located in Needles Hall, collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodation to lessen the impact of your disability, please register with AccessAbility Services at the beginning of each academic term and for each course.

**Accessibility Statement**

The Centre for Extended Learning strives to meet the needs of all our online learners. Our ongoing efforts to become aligned with the Accessibility for Ontarians with Disabilities Act (AODA) are guided by University of Waterloo accessibility Legislation and policy and the World Wide Web Consortium's (W3C) Web Content Accessibility...
Guidelines (WCAG) 2.0. The majority of our online courses are currently delivered via the Desire2Learn Learning Environment. Learn more about Desire2Learn’s Accessibility Standards Compliance.

Use of Computing and Network Resources
