Dale Payne

Our Distinguished Teacher

Renison faculty member Dale Payne is a teacher with a mission. He notes that his mission was shaped by one of his early teaching experiences. "When I started teaching (at Guelph, in the Family Studies Program.), I had 4th year honours students who had never said a word in class during their whole university career. And these were bright, high-achieving students. From that moment I knew that helping students develop verbal and written and computer skills would be a major focus of my teaching, and in fact I developed a successful, special course teaching individual and group interaction called 'Group Dynamics and Family Functioning'".

© University of Waterloo

The University of Waterloo recognized the value of that approach by awarding Dale Payne the coveted Distinguished Teacher Award. Dale said he's still "jumping in the air" over receiving the award. He has a reason to be proud of the honour - as does Renison. A number of Renison faculty have been nominated for the award over the years, but Dale was the first to receive it.

As a former part-time instructor in Social Work, Dale credits Renison for adding rich variety to his teaching career. During those years, he taught almost every social work course at the University. He has taught on campus as well as off campus in every location where Renison offered courses. He designed and taught several of these courses through UW's Distance Education (now Centre for Extended Learning - CEL) programme. Additionally, he taught at the University of Guelph as well as at WLU, where he continues as an Emeritus Associate Practicum Professor in the Faculty of Social Work.

But as Dale well knows, it is not an impressive resume that makes for an award-winning teacher. It is the quality of the interaction with students. "In my teaching I try to focus on the process - on establishing human relationships with and among the students," he says. "That way, some of the defenses against sharing and participating can be overcome. In a comfortable atmosphere, a

teacher can bring out 'the little professor' in each student, encouraging them to discuss issues and feel confident in doing so - and thus, learning to be a critical, interactional, and interdependent student and future worker in the field of human helping."

Dale says that active participation in his courses helps students learn social work theory. But it also nurtures verbal, written and computer skills so important to social work. "Theory and Practice go hand in hand," he notes.

Dale's career history is itself a prime example of the combination of theory and practice. In addition to teaching he has been a practising social worker since 1965. His resume includes work at the Children's Aid Society, Grand River Hospital, and Trellis (formerly the Community Mental Health Clinic in Guelph), where he was Director of Social Work from 1979 to 1989. He was a counsellor with the Woolwich Interfaith Counselling Centre from 1990 for several years, and also has a private counselling/therapy practice with includes corporate clients as well as individuals and families.

Dale is specially appreciative of the opportunities that Renison has given him over the years. "I love the variety of students and the chance to teach off-campus and CEL students right in the community. Renison was ahead of its time in its efforts to bring the university to the community. And its many part-time faculty are a strength of the College, bringing the world and life onto the University campus every day."

He also sees the Renison community as one of the most significant initiatives of the Anglican Church. "On campus, the church is involved with students in a practical way. What better way is there to be involved with young people - and to practice spirituality than to have a presence at the University? How else can the Church ensure its future?" he asks.

In between teaching and counselling, Dale and his wife Sandra, a retired teacher have made practical arrangements for their own future. They have built a stone house north of Kingston to enjoy their retirement. "It's very hands-on, a labour of love," says Dale. That seems a fitting description of Dale Payne's entire career.
