

# crunching data?

Consult the experts.

**SAVE TIME, ENHANCE THE QUALITY AND RIGOUR OF YOUR RESEARCH, AND BOOST YOUR CHANCES OF PUBLICATION**

Whatever your discipline, the **Statistical Consulting and Collaborative Research Unit** is here to help.

- » **Collaboration** Whatever your field, we can tailor statistical methods to suit your specific needs.
- » **Design** Consult us before you start your research. We'll help you design experiments or studies that produce statistically meaningful results.
- » **Monitoring** Long-term project? Bring in your preliminary data for a quick check.
- » **Analysis** Make sure your conclusions are rock solid. Have us double-check your statistics — or analyze your data for you.
- » **Advice** Need a few pointers? We'll help you choose the best tools or navigate your stats software like a pro.
- » **Presentations** Ask us about customized talks and workshops.
