\* MTHEL with >60% is required for admission but AFM 101/102, ECON 101/102 and MTHEL 131 can be moved around.

\* Second year Math can be re-arranged as desired.

\*\* Choice is AFM 424 or ACTSC 471/AFM 476 but 471/476 is Winter only. AFM 424 also counts as a non-math course. Taking it means 1 of the non-math electives becomes an "Anything course" and can be math if desired

\*\*\* Anything course can be Math or non-math. They can trade places with any course as needed, especially with ACTSC 4xx if an ACTSC course is offered in that term you want to take. ACTSC 432 is only not required ACTSC 4xx offered in SPRING

Occasionally mistakes are found on these sheets. Make sure you have the most up to date version, and know that a mistake on this sheet, will not allow you to graduate missing a required course. The undergraduate calendar is the official list of required courses for any program and these sheets are created to help things be easier for you.

Created in Spring 2018 term for 2018/2019 calendars - things might change in the future
